

Typhoid fever, simulated by pneumonia, 352
by ulcerative endocarditis, 353
spleen in, 348
symptoms, 344
temperature in, 346
tongue in, 340
treatment, 354
urine in, 349
Widal reaction in, 354

U

ULCERATION at angles of mouth, 203
of bowel, tubercular, 133
of cornea in second dentition, 45
of frenum in pertussis, 204, 326, 335
of mouth, 202, 203
of stomach, 26, 187, 188
tubercular, 188
of tongue in syphilis, 876
Ulcerative endocarditis, 811
diagnosis from typhoid, 353
Umbilical hemorrhage, 24
Umbilicus, infection through, 24
Uremia, 247, 264, 571
Urea, percentage of, in childhood, 557
Urine, abnormal conditions of, 557,
et seq.
daily quantity of, 557
incontinence of, 581
of newborn, 20
specific gravity of, 557
suppression of, temporary in
infants, 560
in diphtheria, 282
in nephritis, 247
treatment of, 264
Urticaria, 889
after antitoxin, 890
in rheumatism, 783
pigmentosa, 887

V

VACCINATION, keloid in scars of, 905
vaccinia, 312
eruptions, 313
followed by eczema, 891
gangrenosa, 313
Vaginal discharges, 586
arthritis with, 587
peritonitis with, 512, 587
Vaginal hemorrhage, in newborn, 22
Varicella, 307
gangrenosa, 309
incubation, 307

Varicella, persistent, 311
prurigo, 313
quarantine, 312
relapsing, 311
Variola, modified, 310
Vital broth, to make, 932
Venesection, 15
in broncho-pneumonia, 434
Vesical calculus, 586
Vincent's Angina, 210
Vomiting, acute, 175
treatment, 176
cerebral, 181, 614, 633
chronic, 174, 177
functional, 173, 179
in appendicitis, 515, 517
in diphtheria, 281
in meningitis, 600, 611
in nephritis, 571
in pericarditis, 805
physiological in infants, 174
recurrent or periodic, 179
with congenital hypertrophy of
pylorus, 183
with congenital obstruction, 35
with dentition, 179
with gastric catarrh, 171
with ulcer of stomach, 188
Von Pirquet's test for tubercle, 448
Vulva, gangrene of, 195, 230, 588
Vulvo-vaginitis, 586
arthritis with, 587
gonococcal, 512, 586
its infective character, 586
peritonitis with, 512, 587
treatment, 587

W

WASTING, simple, 95; *see* Atrophy
following measles, 229
in chronic diarrhoea, 131
in congenital syphilis, 881, 882
in heart disease, 802
in mucous disease, 144
in the newly born, 20
in whooping-cough, 329
with abdominal tuberculosis, 495
with empyema, 461
Weaning, 56
Weight average for age, 30, 40, 41
Wet nurses, 55
Whey and cream mixture, 69
to make, 934
use in infant feeding, 69
White-wine whey, to make, 934
Whooping-cough, 321
etiology and pathology, 331
atelectasis in, 330
bacteriology of, 332
