

### Uses of Gasoline

A can of gasoline in the kitchen for cleaning purposes will be found a great help if ordinary care is exercised against fire.

To clean the gas stove, soak the jets in a little gasoline, and it will remove all dirt and do away with any odor from the gas range, or scrub the jets with a little brush dipped in gasoline.

To clean copper or aluminum cooking utensils soak a cloth in gasoline and rub on the outside of the vessel; this will remove all black or discoloration on the metal.

For grease marks or dirty spots on wood-work, a little gasoline applied with a cloth will remove at once.

If the drain in the sink becomes stopped up, remove all water from sink and pour in a pint or more gaso-

line and let stand; this will cut the cause of stoppage in a little while.

Before blacking a stove or range, rub off the top with a cloth wet with gasoline and it will remove all dirt and grease and make the blacking stay on longer.

Leaves, gloves and silks can be cleaned very successfully by washing in plenty of clean gasoline; there should be enough to cover the article you

are washing. Change the gasoline as often as it becomes dark looking; work quickly and hang in the sun to dry.

Always remember when using gasoline to keep away from fire or flame of any kind.

Have as nice towels as you can afford, but pay less attention to the quality than to their cleanliness.

## PAQUET FURS

From the Trapper  
Direct to You

Through Canada's Greatest Fur Factory

THE steadily increasing demand for PAQUET FURS has been the direct cause of the adoption of this new method of selling Furs, from Trapper to YOU. Our new system will enable every man and woman in Canada to enjoy the comfort of rich and luxurious Furs at prices they can well afford to pay—prices which have never before been possible—the MANUFACTURER'S PRICES of Canada's greatest Fur Factory. It will enable us to keep our immense Fur Factory running at full capacity all the year round, turning out Furs and Fur Garments of the most approved designs originating in the great fashion centres of Paris and New York. The main reason why Furs have heretofore been so expensive is that other Furs, sold in Canada, are made up for the most

part from finished skins, bought from Dressing and Dyeing Houses, which charge a profit on the skins before they are cut into at all.

### This Factory

Which is by far the largest establishment of its kind in Canada, and one of the largest in the world, is the only Fur Factory in AMERICA where every process, such as dressing, tipping, dyeing and finishing of Furs from the rawskins to the finished garment, is in operation under the one roof. Thus, in dealing with this factory, you save all the intermediary profits.

### This Fur Catalogue

Containing 80 pages of beautiful half-tone engravings (some in colors), and thousands of prices on Furs and Fur Garments, will be sent you FREE. Write us a postcard NOW!
