make liver and bowels sluggish, and the animals un-

WHEREVER the old wheel- barrow cleaning system is used you find a mussy stable.

It's too much to expect that a man will
brush and sweep the passage ways every
time he cleans the stable. He hasn't the
time for one thing—and it's discouraging
work for another.

But nowadays we think more about
clean stables.

We know that dirty stables breed
disease.

It's up to you, Mr. Farmer, to make your
stable easy to clean—then it will always
be clean.

You can learn something about how to do
this in Dillon's Book on Clean Stables, which is
sent free to Farmers. Dillon's make a Litter
Carrier that lightens work about the stable.
It's an equipment any man can put up, and is
adaptable to stables large or small. The free
book explains it fully.

of what you can accomplish for a small
outlay. Write for a free copy. 1
