

## The Meal for Making Veal

Caldwell's Calf. Meal has been making choice veal on thousands of Canadian farms every year. This year it is in greater demand than ever, because it takes the place of whole milk in a very satisfactory manner, and the fat that would otherwise be lost is turned into better and choicer veal food.

Your calves will gain just as rapidly on Caldwell's Calf Meal and Separator milk or water, as on new milk, and the cost will be considerably less.

Sold in 100, 50 and 25 lb. Sacks.
