

# A Mower That Will Not Fail You

A Frost & Wood Mower starts to cut the moment the horses move.

**W**HY is the Frost & Wood Mower light in draft? We use only the finest, toughest materials that money will buy, consequently parts need not be so heavy. In addition, we use expensive-to-make roller bearings wherever friction might occur. Heavy brass bushings prevent wear and keep driving shafts in absolute alignment. Cutter bar under quick control and goes on cutting when raised to clear an obstruction, saving time.

Internal drive gear gives big, quick power.

**T**HE Frost & Wood Internal Drive Gear is a splendid engineering feat. The big driving gear wheel engages on the inside with the cutter-bar operating pinion, both wheels travel in the same direction, there is no "pushing apart," snapped cogs, lost power or lost time in starting cutting. This saves tremendously on wear and cuts repair bills to practically nothing. Levers are easily worked. It is no exaggeration to say a boy or girl can operate this machine.

## Frost & Wood Rake

Dumps at slight pressure from foot pedal

Here is an all-steel, practically indestructible steel rake good for many years of hardest service. Automatic dumping trip acts instantaneously. The teeth have a high clearance and do not drag the top of the windrow. Teeth are especially fine tempered steel, every tooth carefully tested before it leaves our factory. The Frost & Wood Rake will stand any test, and has thousands of friends all over Canada.

Our nearest agent can advise you on any implement need and give you folders and particulars on the above implements.

## —the wise farmer makes every dollar work for him

in the same way that he seeds and reaps from every piece of fertile ground

His idle dollars he deposits by mail in our savings department where it earns 4% interest. Then, when he has a hundred dollars saved up, he buys a Mortgage Debenture, which pays him 5% interest on every hundred dollars invested. Why? Because he knows he has the finest security in the world for his investment, and he knows that 5% is a safe and sound interest rate. Why not follow his example? Send for our booklet about Profits from Savings. It tells you how to save. Address Dept. 9
