ONE GALLON OF OIL

Leavitt, Alta., August 19th, 1903.
Gentlemen—The Chicago Aermotor mill sold us by you is giving us the best of satisfaction. Ours is a 14-foot mill. In a 16-mile wind we are able to get 5 horse-power. We first bought an 8-inch Daisy grinder, and could grind 40 bushels per hour, but could not use nearly all the power, so we bought the 10-inch. The best of it all is that we have ground over 3,000 bushels of grain without the first cent for repairs, the only outlay thus far being one gallon of oil. Our outfit has cleared for us in six months 22 per cent of the cost, and we are not getting over half of its capacity. The mill is giving every satisfaction, and our only regret is that we did not have an Aermotor years ago—
LEAVITT BROS.

The cost of grinding a season's grain—One Gallon of Oil.
The cost of sawing a season's wood—One Gallon of Oil.
The cost of pumping a season's water—One Gallon of Oil.
The cost of cutting a season's straw—One Gallon of Oil.

Don't say you have no use for an Aermotor—You surely have.
Don't say you can't afford it—The mill pays for itself.
Don't think its maintenance expensive—"One Gallon of Oil."
Don't turn us down—Ask for our Windmill Book.

E. E. Devlin & Co. - Winnipeg.
