Manly Strengt

Manly strength—strength of brain and body, is nature's highest perfected work. With it man is success: without it failure. Nearly all men have been fitted with a constitution fit to build such a structure upon, but through foolish dissipations have wasted the material nature gave them. Men live too fast these days. The search for imaginary pleasure, trying to squeeze the happiness of a lifetime into a few years, exhausts the strength, and they are wrecked in man's grandest ambitionrobust strength of brain and body. There are thousands of these weak, timid, puny men—half men—who can be made perfect specimens of man-hood when the grand element that has been drained

from their system is restored. This element is
Electricity. We know there is no strength, no vitality, in fact, no life, without it. This being the fact, can there be a
more natural remedy? I say there is not, and tens of thousands of cures during my nearly forty years' practice in
Electricity say the same. I have the greatest invention for self-treatment by electricity the world has ever known,
and so sure am I of what it will do, that any man who needs it can have the use of my latest model Herculex

Dr. Sanden Electric Belt Free Until Cured

I don't ask one cent in advance or on deposit, but on request I furnish you the belt, and if you are well or satisfied in say two months, pay me my price—most cases as low as \$4.00. If not satisfied, return it and the transaction is

fied in say two months, pay me my price—most cases as low as \$4.00. It not satisfied, return it and the transaction is closed. I have made a sworn statement to faithfully carry out this offer, and trust you will not confound it with the C.O.D. shams advertised, as I send no goods C.O.D. unless you so order.

What would you not give to have your old vim back; to feel as you did a few years ago; to have the same snap and energy; the same gladsome, joyous, light-hearted spirit and the physical strength you used to have? You might as well have these blessings, for my offer must convince you what I feel I can do for you. I will give you the use of the best Electric Belt the world knows—and you probably know I am the father of the electric appliance system of the left of the convergence of nearly forty years' success in my line. But this does not mean treatment—and advice gathered from the experience of nearly forty years' success in my line. But this does not mean that I am giving belts away; but does mean you are not to pay one penny until you are cured. By this method I do tenfold the business and good I would were I trying to sell "a pig in a bag." It pays me and it pays my patients. Of course imitators imitate my goods (what good thing is not imitated?), but my great knowledge from long, successful experience is mine alone and free to my patients.

This offer is especially to men who want more strength and vitality, who suffer from impotency, drains, varico-cele, etc.; but my belt also cures Rheumatism, Lame Back, Stomach, Liver and Kidney Troubles, General ill-health, etc., and I give it on same terms. It is simply worn around the body while you sleep; in the morning you wake up full of strength and vim, prepared to face the world however you find it.

Call or write to-day and let me assist you to health and happiness as I have so many thousand others. I will at ance arrange to give you my belt on terms mentioned above, and two best little books ever written upon Electricity and its medical uses. Free, sealed, by mail. Address,

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help nature overcome the germs, and such results are indirect and uncertain. Liquozone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, Liquozone has, for more than 20 and forever. That is inevitable.

No matter how gentle and tractable a bull may appear to be, never trust it, and never handle it or approach it, unless tied up, without some efficient weapon of defense. Further, always have the bull ringed, and do not wait until he begins to show signs of "headiness" or consciousness of power before having the operation performed.

Messrs. A. Hume & Co., Menie, Ont. breeders of Ayrshire cattle and Yorkshire pigs, make a special announcement in their advertisement in this issue, to which attention of readers interested is called. Being crowded for room, moderate prices will be quoted to reduce stock, if taken soon.

Messrs. J. Crouch & Son, of La Fayette, Ind., have recently sold two Percheron stallions from their branch barn at London, Ont. One, a black three-year-old, Rosier, went to Messrs. Martin and Henry Roberts, of Ilderton, Ont., and the other, their noted best three-year-old, a grey, weighing an even ton, to Messrs. Attrill & Davis, of Goderich, at a reported price of \$3,000.

An Irishman, meeting another one holiday, invited him to the nearest saloon to have a drink.

"What'll ye have, Jim?" said the "I don't know. What are ye going to

take?

"I think I'll take a pale ale." "All right," said the other, "give me a pail, too."

"What kind of fish have you hereabouts?" asked the stranger. "Oh, most kinds." "I hope there are some game fish to be had," continued the man from Maryland. "Tell me, what was the weight of the largest fish ever caught in this region?" "Well, sir," responded the West Virginian, "we don't never take no weighin' machines with us when we fish, so I wouldn't like to say, being an honest man, just how much that last trout of mine did weigh. But, stranger, I don't mind telling you that when I pulled that fish out of the water the river went down a foot!"

The late Bishop Dudley, of Kentucky, made friends with the guide on a hunting expedition near Louisville, and they became quite intimate. After some good times together, the guide asked, "Say, Dudley, what business do you follow? "I am a preacher." "Oh, get out! What are you giving me!" "But I am. I preach every Sunday in Louisville." guide vou ain't stuck up like the preachers our way." And he accepted an invitation to hear his new friend preach the next Sunday. After the service the bishop greeted him as familiarly as in the woods, and asked him how he liked it. The guide hesitated for a moment, then said, "Well, I ain't much of a judge of this kind of thing, parson, but I riz with you and sot with you, and saw the thing through the best I knew how; but all the same, if my opinion is wuth anything to you, the Lord meant you for a shooter!

TRADE TOPIC.

OF VALUE TO HORSEMEN.-Do you let your horses rest up in the winter? If so, we want to call your attention to a very important matter. Horses which have been used steadily at work, either on the farm or road, have quite likely had some strains whereby lameness or enlargements have been caused. Or perhaps new life is needed to be infused into their legs. Gombault's Caustic Balsam applied as per directions, just as you are easing the horse up, will be of great benefit; and this is the time when it can be used very successfully. One great advantage is using this remedy is that after it is applied it needs no care or attention, but does its work well, and at a time when the horse is having a rest. Of course, it can be used with equal success while horses are in the stable or at light work, but many people in turning her horses off for a rest would use Caustic Balsam if they were reminded of and this article is given as a remin-
