Men Try my Cure Free!

I know the terrible mental torture of the nervous debility sufferer, but I also know his gratefulness when restored, and that is the basis for my free treatment until cured. Can any such sufferer come to me and be made a man among men, and then refuse to pay a few dollars for aiding him to become so? I say, no, and my wonderful success backs up my judgment. I wish that every sufferer knew that the effect of Electricity upon the weak, debilitated man is the same as rain upon the parched field in summer. He may be debilitated from varicocele, losses, impotency; may have confusion of ideas; fear to act and decide; gloomy forbodings; timid and fretful; avoid friends and company; without confidence in himself to face the slightest responsibility, and let him properly apply Electricity for but a few hours and all these symptoms vanishgiving way to glowing, soothing vigor through every weak part. A few weeks' to a couple months' use of this treatment banish them forever, and make strong, confident, manly men out of the puniest weaklings. For nearly 40 years I have treated

and restored weak men through my world-famed invention, and am still doing so with greater success than ever. In fact, I do not expect to fail in any case of this kind, and therefore as men are more or less skeptical I will continue to give my Herculex

and as said not one cent is to be paid in advance or on deposit. Call or write and get the belt and use, say for 60 days, and if cured pay me price of belt only-many cases low as \$4-if not cured return the belt and the deal is ended. But I know what the belt will do, and will take the risk of my pay when you are cured. I also give my belts on same terms in Rheumatism, Lame Back, Stomach, Kidney and Liver complaints, etc. Think of a remedy that has stood every possible test for nearly 40 years—the only one ever successfully given to sufferers on its own merits!

As the originator and founder of the electric belt system of treatment my 40 years' success is the envy of many, and my belts of course are imitated. (What good thing is not?) But my great knowledge to advise and direct my patients is mine alone, and free to all who use my belt until cure is complete.

THE AMERICAN GALLOWAY HERD-BOOK.

Through the courtesy of Secretary Gray, of the A. Galloway Association, we have received a copy of Volume 14, which contains the pedigrees of 2,000 animals belonging to this hardy breed, so well thought of on the ranges. The progress of the Galloway within the last few years has been remarkable, due largely to improvement in the breed by the breeders. Attention has been drawn to this breed quite largely by the exhibits made at the leading shows, in which respect Wm. Martin, of Winnipeg, has been noted as a staunch supporter of this shaggy-coated polled beef breed. The index shows, amongst other things, scale of points (not yet adopted), registrations and transfers, list of awards at the big fairs, and several illustrations of winners. The style of setting the pedigree has been changed to the of Scotch Herdbooks style . (vide preface). We prefer the style used in the American Hereford and Angus books, and the Dominion Shorthorn book.

COSSIP

Lew W. Cochran, of Crawfordsville, Indiana, advertises in this issue an assortment of fifty Percheron, Shire and Hackney stallions, which he will trade for farm lands or city lots in Western Canada. Mr. Cochran's horses won many good prizes at the World's Fair and International Exhibition, besides a goodly share of the awards at several State fairs. The offer to exchange horses, which are a comparatively scarce article in this country, for land, which is quite plentiful, is a novel idea, and should prove a business getter.

Bishop Thorold, at a dinner party, told the following story on his return from America. The chaplain of a large private asylum asked a brother clergyman to preach to the inmates on a Sunday during his absence. Before going away he said, "Preach your best, for though insane on some points, they are very intelligent." So he talked to them on India, and of heathen mothers who threw their dear little babies into the sacred river Ganges as offerings to their false gods. Tears streamed down the face of one listener, evidently deeply affected. When asked by the preacher afterward what part of the sermon touched his heart with grief, the lunatic replied: "I was thinking it was a pity your mother didn't throw you in the Ganges.'

Charles Dickens used to tell this story about a clergyman: "This preacher had been called to officiate at the funeral of a relative of a Conservative editor, and as the preacher himself aimed to be a Liberal leader in the district, he and the editor had often crossed swords. This time the chance came to deliver a home thrust without a chance for either parry or reply. At the coffin of the deceased, beside which the editor and other mourners knelt together, the preacher made this appeal: 'Lord overrule this affliction to the welfare of all assembled, including the reptile now sprawling in Thy presence, who has frequently abused Thy servant in the columns of his beastly publication."
