

Washington is agitated over an alleged plot of anarchists to blow up the Capitol buildings.

Goodwin & Swift, railroad contractors and promoters, of New York, have failed, with liabilities of nearly \$750,000.

The U. S. Senate amendments as adopted places a duty of 40 cents a ton on coal and shale, and 15 cents a ton on coal black or culm.

In a paper read at the Colonial Institute in London recently, Bishop Selwyn advocated the extension of British protection to western Pacific islands.

A by-law has been presented in Hamilton to compel the street railway company to provide shelters for the motormen. If the company fails to do so the city may provide the shelters and tax the company for the expense.

Isn't it rather a remarkable trait in the average business character that when approached on the subject of advertising in a trade journal, he thinks you can do him no good; but when the smallest item reflecting on his business appears, he lets out a lionine roar about his business being injured. His motto is: Consistency is the virtue of fools.

**DR. ALBERT WILLIAMS,** Late of London, Eng., has come to reside in Victoria, and has opened an office at 91 Pandora street. He has for twenty-five years been engaged in general family and obstetric practice, with considerable experience in diseases of children. He also gives special attention to diseases of the chest and stomach.

DR. WILLIAMS had several years' practical experience in one of the largest hospitals in London, and is a DOCTOR OF MEDICINE of the University of Aberdeen, Scotland. He has been for many years a Member of the PATHOLOGICAL SOCIETY, a Member of the BRITISH HOMOEOPATHIC SOCIETY and a Fellow of the BRITISH GYNÆCOLOGICAL SOCIETY. He has thus had extensive experience in both the old and new systems of medical treatment.

DR. WILLIAMS may be consulted at all hours at his office and residence, 91 Pandora street, city.

### In Union

there is Strength.

Take away a stone from a foundation and it is weakened; a picket from a fence gives it an ill appearance, the vacancy destroys its symmetry and the void is at once apparent. A hole the size of a pinhead in a kitchen utensil detracts from its usefulness, and a spoke from the wheel of a vehicle at once causes comment. It is the same with the mouth of a human being. An absent tooth gives the mouth the appearance of "an aching void." The symmetry is forever gone, the features are distorted, and already the process of decay has begun. In time other teeth "go by the board," and then succeeds a row of blackened and disfigured stumps. Crown and bridge work is a specialty in dental science, and of which Dr. H. B. Findley is a master. By these processes the mouth is made whole, decay of teeth arrested and the features restored to their original appearance.

"Dr. Findley fills

Teeth Without Pain."
