

# HOW'S YOUR LIVE-STOCK?

There's the most important question that faces every owner of horses, cattle, sheep or hogs—"How's your Livestock"? Vigorous healthy animals spell profits and prosperity. When an animal gets run down or the digestion becomes weak, then a large part of the grain eaten passes through the animal without being assimilated. International Stock Food Tonic is the great remedy for this unhealthy—and unprofitable—condition. It is indispensable to stockmen and others whose income depends on having their animals in the best possible condition.

## INTERNATIONAL STOCK FOOD TONIC

International Stock Food Tonic is, without exception, the most reliable, the most successful, and the most popular animal tonic preparation in the world. The indisputable evidence of thousands of direct testimonials and comparative figure from actual farm records proves it beyond doubt.

It is prepared from powdered medical roots, herbs, barks, seeds, etc.,—it simply, and surely, assists the processes of digestion, so that the animal gets the fullest nourishment from its feed. It cures and prevents disease.

International Stock Food Tonic tones up the system of horses, giving them new life and a glossy coat of hair (see testimonials). You could not give your horse anything better for Epizootic, Indigestion, Liver Trouble, Coughs, Influenza, Hide bound or Blood Trouble.

**FOR COWS**—Thousands of Dairy men can testify to the wonderful cures with International Stock Food Tonic. A sick cow in the dairy is an expensive boarder—a little of this remarkable tonic puts her on her feet quickly and increases milk production. For fattening cattle for market, nothing will bring quicker or bigger results.

**FOR COLTS OR CALVES**—International Stock Food Tonic cannot be beaten. Colts grow through the winter months, untouched by mange or other disease. If not in the best of health, this tonic is what they need to put life and strength into them.

### "3 Feeds for One Cent"

Calves never have skin diseases, scours, etc., if International Stock Food Tonic is used in their feed. If you want to see yours grow quickly and be vigorous, try the tonic.

**FOR SHEEP AND HOGS**—Sheep put on flesh quickly as International Stock Food Tonic increases the appetite and tends to rapid growth. You should see the improvement in the wool at shearing time.

You are more liable to have sickness among your swine than among other animals. Pigs need roots and herbs—they are natural remedies. Use the famous "3 Feeds for One Cent" Tonic in the swill and watch results. It will cut down disease to practically nothing, giving them the necessary herb and root medicines to ward off sickness, and enabling the hogs to assimilate their food perfectly, thus putting on flesh more rapidly than is otherwise possible. This famous preparation is endorsed as the surest Hog Tonic in the world. Twenty six years use by over two million farmers indisputably proves its money making results.
