ST. PETERSBURG, June 16 .- The dissolution of the second Duma was received through St. Petersburg with perfect tranquility. Thanks to the precautionary measures taken by the an-thorities order prevailed today in this city, and in no place in Russia, so far as is known, were any serious disturbances. No report of disorder in the nterior have been received up to mid-

Demonstrations among St. Petersburg workmen are anticipated tomor-row but the authorities profess to be chiefly apprehensive over the possibilities of rioting and racial excesses in Odessa and Kiev and other cities where party feeling runs high. An outbreak of agrarian disorders in several parts of the empire is anticipated later, when the peasantry learn of the dissolution but a spirit of quiet confidence in the ability of the government to handle the situation prevails in the adminis-

News of the dissolution reached the St. Petersburg papers too late for their latest editions, but the public were quickly informed through extras and posters set out by the police at all street corners, containing the ukase announcing the dissolution and the im-

assist in the disruption of the state. "As a consequence of this activity during these periods of the Duma which constituted an insurmountable obstacle to fruitful labor, a hostile spirit was introduced into the Duma itself which prevented the union of a sufficient number of its members desirous of working for the interests of the country. For this reason the Duma either failed to discuss important measures that were drawn up by her government or delayed their discussion or else rejected them, not even recoiling from rejection of laws which punished the open support of crimes.

The judicial authorities discovered a plot by a section of the Duma against the state and power of the Czar, but when our government demanded the exclu-sion until judgment had been passed of 55 members of the Duma implicated in the crime, and the arrest of those among them most comprised, the Duma failed to carry out immediately the lawful demand of the authorities which admitted no delay.

"All this compelled us by imperial ukase to the Senate to dissolve the second Duma, fixing September 14th as the date of the convocation of the new Duma, believing, however, in the pat-riotism and the national spirit of our

people.
"We find the cause of failure on two ocasions of activity in the Duma in the fact that owing to the work and imperfection of the electoral law, the legislative institution was composed of members who were not truly representative of the needs and desires of the people; consequently, while leaving in force all the rights granted to our sub jects by the manifesto of October 30. 1905, and the fundamental laws, we have decided to modify the procedure in choosing elected representatives of the people to the Duma in order that each section of the people may have its own representatives.

"The Duma was summoned strengthen the Russian state and ought to be Russian in spirit. Other national ities forming part of our empire ough to have representatives of their needs in the Duma, but they ought not to appear and shall not appear in such numbers as will make it possible for them to be arbitrators on questions

which are purely Russian. "Within the confines of the state where the people have not attained sufficient civic development, the elections to the Duma must be temporarily

REMARKABLE INVENTION FOR

THE EVANS VACUUM CAP is a practical invention constructed on scientific and hygienic principles by the simple means of which a free and normal circulation is restored throughout the scalp. The minute blood vessels are gently stimulated to activity, thus allowing the food supply which can only be derived from the blood, to be carried to the hair roots, the effects of which are quickly seen in a healthy vigorous growth of hair. There is no rubbing and as no drugs or chemicals of whatsoever kind are employed, there can be nothing to cause irritation. It is only necessary to wear the Cap three or four minutes

### 60 Days' Free Trial! THE COMPANY'S GUARANTEE

An EVANS VACUUM CAP will be sent you for sixty days' free trial. If you do not see a gradual development of a new growth of hair, and are not convinced that the Cap will completely restore your hair, you are at liberty to return the cap with no expense whatever to yourself. It is requested, as an evidence of good faith, that the price of the Cap be deposited with the Chancery Lane Safe Deposit Company, of London, the largest financial and business institution of the kind in the world, who will issue a receipt guaranteeing that meney will be returned in full on demand without questions or comment, at any time during trial period

The eminent DR. I. N. LOVE, in his address to the Medical Board on the subject of Alopaecia (loss of hair) stated that if a means could be devised to bring nutrition to the hair follicles (hair roots.) without resorting to any irritating process, the problem of hair growth could be solved. Later on when the EVANS VACUUM CAP was submitted t him for inspection, he remarked that the Cap would fulfil and confirm in practice the observations he had previously made before

DB.W.MOORE, referring to the invention, says that the principle upon which the Evans Vacuum Cap is founded, is absolutely correct and indisputable.

An illustrated and descriptive book of the Evans Vacuum Cap will be sent, post free, on application. THE SECRETARY, EVANS VACUUM CAP CO., LTD., REGENT STREET, LONDON.
