New York, Dec. 28, 1648.
To His Excellence, 26 Houry Bulner, H. B. M. Minister Ministershop, R., Washington, Sm.—On the 16th instant, we submitted to the Honorable the Secretary of the Treasury in Washington, the following copy of correspondence, as it appeared published in the English newspapers.

"Board of Trade, Nov. 5th, 1848.—Six.—I am threeted by the Lords of the Commutee of Privy Council for Trade, to technowings the receipt of your letters, of the 24th of the English and the Ceibber, addressed to the Privalent of this Honord, inquiring whether American or other Foreign built ships, will be admitted to the privileges of British registry, after the Act for the uncendment of the Navigation Laws shall have come into operation; and I am to acquaint you thay from the first of January next, all ships duly owned by British easthered, will be admitted to registry, without inquire as to the place of their build. I have &c. (Signid)

We published a few days ago a portion of Judge Draper's charge respecting Annexation, on the opening of the Assizes at Toronto. We now extract a portion of the reply of the Grand Jurors on the same subject:—

"Upon the question embfraring Separation, Independence in their capability, adequately to respond to your Lordship's remarks. Amongst the many great blessings enjoyed ander the British Constitution, perhaps to an unparalleled extent, are; liberty of speech and freedom of discussion; but even to these there is and ought to be a limit. Whenever the undue exercise of these privileges tends, wantouly, to interrupt the pasce and harmony of the community, and manifestly to endanger the existence of the social state, the governing power is bound to interpose, and restore the equilibrium, and for this the law has amply provided; but much may be done to retard, if not avert, this last and harsh resource, by the timely and friendly admonition of the legally constituted and established authorities of the people. The Grand Jurors do, therefore, exhort their fellow-subjects of this Province, to be wary, in approaching this graye and solemn question, to bear in mind, that not only is the separation of the therefore, exhort their fellow-subjects of this Province, to be wary, in approaching this grave and solemn question, to bear in mind, that, not only is the separation of the North American Celotites from the Parent State. but that the total dismemberment of the British Empire is therein involved. To Professor Hollowar,

Sia,—For a long time I was a Martyr to Rheumalism and Rheumatic Gout, and for ten weeks previous to using your medicines I was so had as not to be able to welk. I had tred doctoring and medicinear over the weeks and felt that I must shorty die. From seeing your remedies advertised in the piper I take in, I thought I would give them a trial. I did so. I rubbed the Chimment in as directed, and kept cabbage leaves to the parts thickly spread with it, and took the Pilis night and morning. In three weeks I was enabled to welk about for an hour or two in the day, with a stick, and in seven weeks I could go any where without one. I am now, by the blessing of God and your medicines, quite well, and have been attending to my business for more than seven months, without any symptome of the return of my old complesit.

Besides my case of Rheunstic Gout, I have lately had proof that your Pils and Onttment will heal any old wound or nicer, as a married woman, living near me, had had a bad leg for four years, which po one could cure, and I give be a some of your Pills and Ointment, which soundly healed it when nothing else would do it. For your information, I had the honor to serve my country for twenty-five years in the let Regiment of Life Guards, and was eighteen years a Corporal. I was two years in the Pentingula War, and was at the Battle of Waterloo. I was dicharged, with a pension, on the 2nd September, 1833. The Commanding Officer at the time was Colonel Lygon, who is now a General. I belonged to the troop of Captain the Honorable Henry Basing.

AMPUTATION OF TWO TOES PREVENTED.
Extract of a Letter from Mr. Oliver Smith Jenkins, dated Falkirk, Asgust 13th, 1848.

To Professor Holloway,
Sia,—I was superintending, about six months ago, the erection of one of our Railway Bridges, and by the fail of a large stone my right foot was seriously brused, which ultimately got so bad, that I was advised to go to Edinburgh to consult as me of the eminent Surgeons, which did, and was told that in order to save my loot, two of my toes must be taken off.—In dispart, I returned home to impart the melancholy news to my write, intending to submit to the operation, it was then a thought struck me to try your valuable Ointment and Pills, which I did, and was by their means in three weeks enabled to resume my usual occupation, and at this time my toes are perfectly cured. AN EXTRAORDINARY CURE OF A DES PERATE SKIN DISEASE.

On the 21st July, 1848, the Editor of the "Mofussiite" Newspaper, published in India, inserted the following Editorial article in his paper:—"We know for a fact, that Holloway's Pills and Onotment act in a most wonderful manner upon the constitution, as an eccentric Coolie, called Bliza, employed in our Establishment, was affected with myriads of Ringworms, which defied all the Meerut Deotors, and promised to devour the poor man before he was under ground; was tried "Holloway" upon him, and in a month he was perfectly restored to his former condition and clennliness of skin. MOFFATS

Life Pills and Phenix Bitters. These Medicines have now been before the pub-lie for a period of FIFTEN YEARS, and during that time have maintained a high character in almost every part of the globe for their extraor-duary and immediate power of restoring perfect health to persons suffering under nearly every kind of disease to which the human frame is liable.

IN MANY THOUSANDS of certificated instances, they have even rescued sufferers from the very verge of an untimely grave, after all the deceptive nostrams of the day had utterly failed; and to many thousands they have permanently secured that uniform enjoyment of health, without which life itself is but a partial blessing. So great, indeed, has their efficacy invariably and infallibly proved, that it has appeared scarcely less than miraculous to these who were acquainted with the beautifully philosophical principles upon which they are compounded, and upon which they consequently act. It was to their manifest and sensible action in purifying the springs and channels of life, and enduing them with reand channels of life, and enduing them with newed tone and vigor, that they were indebted for

newed tone and vigor, that they were insected not their name.

Unlike the host of pernicious quackeries which boast of vegetable ingredients, the LIFE MEDICINES are purely and solely vegetable; and contain neither Mercury, nor Antimony, nor Arsenio, nor any other mineral, in any form whatever. They are entirely composed of extracts from rare and powerful plants, the virtues of which, though long known to several Indian tribes, and recently to some eminent pharmaceutical chemists, are altogether unknown to the ignorant pretenders to medical science; and were never before administered in so happily efficacious a combination.

medical science; and were never before administered in so happily efficacious a combination.

The first operation is to loosen from the coats of the stomach and bowels the various impurities and credities constantly settling round them; and to remove the hardened faces which collect in the convolutions of the small intestines. Other medicines only partially cleanes these, and leave such collected masses behind to produce habitual Costiveness, with all its train of evils, or sudden Diarrhoa with its imminent dangers. This fact is well known to all regular anatomists who examine the human bowels after death; and hence the prejudice of these well-informed men against the quack medicines of the age. The second effect of the VEGETABLE LIFE MEDICINES is to cleanse the kidneys and the bladder; and, by this vectors. Life manifectures and the bladder; and, by this means, the liver and lungs, the healthful action of which entirely depends upon the regularity of the urinary organs. The blood, which takes its red urmary organs. Ine blood, which takes its red color from the agency of the liver and langs, before it passes into the heart, being thus purified by them, and nourished by food coming from a cleau stemach, courses freely through the veins, renews every part of the system, and triamphantly mounts the banner of health in the blooming check.

of health in the blooming cheek.

The following are among the distressing variety of human diseases in which the VEGETABLE LIFE MEDICINES are well known to be infal-

ible:

DYSPEPSIA, by thoroughly cleansing the first and second stomachs, and creating a flow of pure healthy bile, instead of the stale and acrid kind; FLATULENCY, Loss of Appetite, Hearthurn, Headache, Restlessness, Ill-temper, Anxiety, Languor, and Melancholv, which are the general symptoms of Dyspepsia, will vanish, as a natural consequence of its cure.

Costiveness, by cleansing the whole length of the intestines with a solvent process, and without violence: all violent-purges leave the bowels costive within two days.

Diarrhoea and Cholera, by removing the Diarrhosa and Cholera, by removing the

sharp acrid fluids by which these complaints are occasioned, and by promoting the lubricative secretion of the mucous membrane.

tion of the mucous membrane.

Fevers of all kinds, by restoring the blood to a regular circulation, through the process of perspiration in such cases, and the thorough solution of all intestinal obstruction in others.

The Life Medicines have been known to cure RHEUMATISM permanently in three weeks, and GOUT in half, that time, by removing local inflammation from the muscles and ligaments

Dropsies of all kinds, by freeing and strengthening the kidneys and bladder: they operate most delightfully on these important organs, and hence have ever been found a certain remedy for the worst cases of GRAVEL Also Worms, by dislodging from the turnings of the bowels the slimy matter to which these

creatures adhere.

Asthma and Consumption, by relieving the air-vessels of the lungs from the mucous which even slight colds will occasion, and which, if not removed, becomes hardened, and produces these dreadful diseases.

Scarry, Ulcers, and Inveterate Sores, by the perfect purity which these LIFE MEDICINES give to the blood, and all the humors.

Scorbutic Eruptions and Bad Complex.

ions, by their alterative effect upon the fluids that feed the skin, and the morbid state of which occasions all eruptive complaints, sallow, cloudy, and other disagreeable complexions.

The use of these Pills for a very short time will effect an entire cure of SALT RHEUM, and a

striking improvement in the clearness of the skin.
COMMON COLDS and INFLUENZA will dways be cured by one dose, or by two even in

TILES. As a remedy for this most distressing and obstinate maindy, the VEGETABLE LIFE MEDICINES deserve a distinct and emphatic recommendation. It is well known to hundreds in this city, that the former proprietor of these valuable Medicines was himself afflicted with this able Medicines was himself afflicted with this complaint for upwards of THERTY-FIXE YEARS; and that he tried in 'van 'every remedy prescribed within the whole compass of the Materia Medica. He however at length tried the Medicine which is now offered to the public, and he was cured in a very short time; after his recovery had been avery short time.

FEVER AND AGUE. For this scourge of the western country these Medicines will be found a safe, speedy, and certain

remedy. Other medicines leave the system subject to a return of the disease—a cure by these medicines is permanent—TRY THEM, BE SATISFIED, AND BE CURED.

Bilious Fevers and Liver Complaints.

General Debility, Loss or Affertra, and Demants of Fernation—these medicines have been used with the most beneficial results in cases of this description:—King's Evil., and Scropula, in its world forms, yields in the mild yet powerful action of these requarkable, Medicines. Magnetic Swarts, Nervous Desilaty, Nervous Complaints of all binds, Palitatylor of the Heart, Painter's Coase, are speadily cured. MERCURIAL DISEASES.

Tersons whose constitutions have become impaired by the injudicious use of Maxicux, will find these Madicines a perfect cure, as they never full to undicate from the system all the effects of Mercury infinitely isomer than the most powerful reparations of Sarsaparilla. A single trial will place them beyond the reach of competition, in the actimation of every patient.
