PRIZE ESSAY

The value of the Observance of the Christian Sabbath in the life of the individual and the Community:

The Sabbath was established in the old testament in memory of the repose of God after the six days of creation. God has commanded man to keep holy the Sabbath Day, and Almighty God, in giving Moses the commandment, explained in exact words the manner in which the Sabbath was to be sanctified to His service, "six days shalt thou labor," He said, "and do all thy work, but on the seventh day is the Sabbath of the Lord thy God, thou shalt do no work on it, thou nor thy son, nor thy daughter, nor thy man-servant, nor thy maid-servant, nor thy beast, nor the stranger that is within thy gates, thou shalt remember to keep the day holy."

The law of the Sabbath seems to have existed before the time back to the origin of the human race.

This third commandment of God ordains that we should sanctify the Sunday or the day of the Lord and forbids us to profane it, and it is only just and right that we should give one day of the week to the services of God after giving six to the world.

Work is prohibited on Sunday because it would hinder the religious exercises which God exacts on that day, and work, if continued without interruption, would injure the bodily well-being of man. Continued activity seems to be against the law of nature. The law of physics that all movement ends in rest. The first great lesson in the Bible story of creation is the need of rest and the Creator set aside one day in seven for rest. In order to have renewed energy man must rest, for rest is as necessary to his nature as food.

The institution of a special day dedicated to the honor and service of God and destined to give man rest from his labor is an invention of the Divine wisdom.

The dangers that would beset man if he did not obey God's command to observe the Sabbath, are many. He would think only of the world and its pleasures, and would soon lose regard for authority. Hence we see how many evils would exist in society as a result of the individual disobeying the command of God.

Just as Almighty God often bestows his special blessings on families and nations who are faithful to the observance of Sunday; so does He threaten with the most severe chastisements all those who profane the Sabbath. It is a great crime in the eyes of God, a disgrace to religion and a scandal to one's neighbors. Its results are serious for it makes me forget God and duty.

If God Himself had not set aside a certain day, of the week to be sanctified, many men would forget the existence and rights of God altogether, and forgetting God, would soon forget also their obligations to their fellow-men.

The great importance of observing the Christian Sabbath is that it keeps man mindful of his God and makes him obedient to the laws of church and state, and therefore a good citizen in the community in which he lives.

SUMMER HEAT HARD ON BABY.

No season of the year is so dangerous to the life of little ones as is the summer. The excessive heat throws the little stomach out of order so quickly that unless prompt aid is at hand the baby may be beyond all human help before the mother realizes he is ill. Summer is the season when diarrhoea, cholera infantum, dysentery and colic are most prevalent. Any one of these troubles may prove deadly if not promptly treated. During the summer the mothers best friend is Baby's Own Tablets. They regulate the bowels, sweeten the stomach and keep baby healthy. The tablets are sold by medicine dealers or by mail at 5 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.
