Attached is a good Job Printing plant. Rapid, stylish and cheap work.

Tuesday, Feb. 18, 1913.

LAKE ERIE AND NORTHERN ROUTES.

The two proposed routes, the original and the alternative, with reference to the above railway, are presented in map form elsewhere in this issue.

Citizens will have no difficulty in making a comparison and forming their own conclusions. The Courier has taken the ground that if the Jubilee Terrace route could be avoided it should be, but it does not think that the proposals of City Engineer Jones constitute a desirable, or in many respects, feasible alternative.

This is only a lay view of the matter, and it will be for the experts of the Railway Commission Board to reach a final determination.

MARINE INSURANCE

The past insurance year at Lloyd's has proved a disastrous one. All claims are paid at once and in full, so that the financial loss has been appalling. In no one year since Lloyd's was instituted in a little coffee house on Tower street, in London, England, two and a half centuries ago, have the losses reached such a sum—£6,684,500, which was the total for the past twelve months, and this amount may even yet be still increased when some delayed reports come in. And yet this huge amount was paid out for marine disasters, and was not so great as it might have been. The re-floating of the Titanic saved a lot, while the re-floating of the specie on board the liner, "Oceana" and "Delhi," was another factor in decreasing the total loss. Altogether 228 vessels were lost as total losses. Of these 24 were British and 146 foreign.

It may be interesting to note that the White Star Company now pays 20 shillings per cent. for renewal of twelve months' insurance, as against 15 shillings prior to the loss of the "Titanic." It should be noted that the heavy losses of the United Kingdom is not due to faulty seamanship or construction, but for the reason that more than half of all the mercantile shipping of the world is under the British Jack.

THE CONTROL OF CORPORATIONS

The question of over-capitalization has been for some time under consideration by the Borden Government. The work is being done without any brass-band accompaniment and no gallery play, but that it is being done carefully and with a proper regard for all interests concerned is shown in a short statement given to Parliament by Premier Borden.

The House was considering an increase of capital asked for by the Richelieu & Ontario Navigation Company, which has large transportation interests from below Quebec up to the Welland Canal. Opposition members had been accusing the Government of not regulating the promotion of companies, more particularly transportation and public utility companies. They had in the course of the debate been taking to themselves the credit of being the sole guardians of the rights of the people, when the Prime Minister rose in his place and in the quiet and impressive manner, which characterizes him, informed the House that the whole question was being dealt with by the Minister of Justice. "I do realize," he said, after pointing out the unfairness of singling out any one company, "that the subject which has been alluded to this afternoon is one of importance. As a matter of fact, it has been under the consideration of the Minister of Justice for several months past. The gentlemen who have spoken on this subject, and others who have given it careful consideration, will understand that it is a subject which is by no means free from difficulties. At the same time, one cannot help realizing that there is a good deal of force in the suggestion that there ought to be control over some companies at least, particularly those that are performing quasi public functions. "So far as the general question is concerned, I can only say that we shall be very glad to consider it, and indeed, as I have already mentioned, the subject is receiving consideration. But it is one upon which it would be undesirable to bring in any immature or rash legislation. When anything is done, it should be done after very careful consideration and due deliberation, and it probably would have to be submitted to some appropriate committee of this House for the purpose not only of considering it, but of threshing it out by the interchange of views between gentlemen whose opinions may point in one direction and those whose opinions may point in the opposite direction."

Haggard. Manuscripts must be sent in on or before March 1st, 1914. Now, if there is any budding young authors hereabouts, all he, or she, has to do is to reach out for those 1250 simoleons.

There's that dark and gloomy object the illuminated clock. We've got it on the list; you bet it's on the list. And the antiquated structure, which mars the Market block, It never would be missed, On your life it'd not be missed. The man who asks you if you're warm When natural gas you use. The girl who chatter chatters until you get the blues. They're all upon the list; each blooming one upon the list.

A PROFITABLE INVESTMENT. The attention of our readers is directed to the advertisement of the Comet Oil Company, Limited, of Toronto, offering for sale 10,000 shares of capital stock of the company at \$1000 par, which appears in another part of this issue.

From a perusal of the prospectus it would appear that the company is engaged in the merchandizing of coal oil, and that the sale of the commodity has proven to be exceedingly profitable. Any of our readers can reserve some of those shares by simply writing or telegraphing to Athol George Robertson, 58 Colborne St., Toronto, who is acting as broker for the company during this offering.

AN INVITATION TO SICKNESS.

Thin, Watery Blood Leads to a Breakdown in Health.

Thin, impure blood is an invitation to sickness. The blood is at work day and night to maintain the health and any lack of strength or purity in the blood is a weakness in the defense against disease. Anæmia is the doctor's name for lack of blood, watery blood. There may be an actual loss in the quantity of the blood, or one or more of its constituents may be lacking. The surest symptom of anæmia is pallor. The trouble is particularly common among young girls between the ages of fourteen and eighteen, but is also found in women of all ages, and quite frequently attacks men. It is nearly always present and prevents recovery after gripe fevers, malaria, and operations and for this reason a tonic medicine is required in all these cases to enrich the blood, build up the nerves and restore health and strength. And there is no other tonic as good as Dr. Williams' Pink Pills, as has been proven in thousands and thousands of cases, among them that of Miss Annie Turner, Marie Joseph Post Office, N. S., who says: "Dr. Williams' Pink Pills have been of inestimable benefit to me. I was so badly run down that I could hardly go about, was not able to help in the work about the house. As my health grew worse the trouble brought on some species of fit, and when these attacks would come in would sometimes remain unconscious for half an hour. After many other medicines had failed to help me, my brother got me a supply of Dr. Williams' Pink Pills and I began taking these. In the course of a few weeks I felt much better, and after taking the Pills for a time longer I was again in the full enjoyment of good health. I feel that I cannot praise Dr. Williams' Pink Pills too highly and I recommend them to all weak girls."

NOTES AND COMMENTS.

Better still keep your straw hat in camp. They ought to spell the name of that country Mexico.

The Bath Tub Trust in the States has been fined \$51,000. As it refused to dissolve the authorities had to fauce.

Another illustration of the fact of the keen attention now paid in the Old and to the Overseas Dominions is to be found in the circumstance that Hodder and Stoughton, London publishers, are offering a prize for the best novel written in Canada, Australia and New Zealand, the Empire of India and British Africa. The award will be £250 in each instance, and the judges include Sir Gilbert Parker, and Sir H. Rider

60c. Working Shirts 95c. Men's working shirts, full size black and white stripes, regular price 50 and 60 cents; brokers' price 30 cents, at 126 Dalhousie street, opposite Market.

SUFFERED SO MUCH SHE WANTED TO DIE

"Fruit-a-lives" Cured Her And Brought Her The Joy Of Living.

ENTERPRISE, Ont., Oct. 1st. "For seven years, I suffered with what physicians called a "Water Tumor". Hypodermics of Morphine had to be given me to ease the pain. During one of these had spells, a family friend brought a box of "Fruit-a-lives" to the house. I was so bad that it was only when I had taken nearly two boxes that I began to experience relief. I kept up the treatment, however, and after taking five boxes, I was cured, and when I appeared on the streets, my friends said "The dead has come to life", and this seemed literally true because I certainly was at death's door."

Strength comes from well digested and thoroughly assimilated food. Hood's Sarsaparilla tones the digestive organs, and thus builds up the strength. If you are getting "run down," begin taking Hood's at once. It gives nerve, mental and digestive strength.

Laurence Munro & William J. Lead Architects, Hamilton, "Phone 1111"

Sold the Farm. UNRESERVED AUCTION SALE Of Farm Stock and Implements.

W. Almas and Son have received instructions from CALVIN CUMIN to sell by public auction on his premises, situated Lot 43 3rd Concession, Township of Brantford, three miles northwest of the city on Tuesday, Feb. 25th, at one o'clock sharp the following: Horses—Pair chestnut mares, 4 and 5 years old, good chunks, 1,300 each; four year old filly, 1,300 lbs.; pair heavy geldings, 3 years old; aged mare, good worker; brood mare; yearling filly by Carbineer, a beauty.

Cattle—Six good cows, 1 Holstein, fresh milker; 2 year in March, others later on; yearling bull, Holstein; heifer 2 years old; 4 good heifer calves.

Hogs—Two tamworth sows, due in March; 2 Berkshire sows; 9 good shoats, 4 months old.

Implements—Massey-Harris binder; Deering mower; horse rake; cultivator; roller; drill; hook tooth harrows; two plows; one horse cultivator wagon box; hay and stock rack; bob-sleighs, nearly new; cutter, new; buggy, fanning mill; platform scales, 2,000 lbs. capacity; cutting box; root pulper; grind stone; wheelbarrow; barrels, forks, hoes, chains, and others things usually found on a farm.

There's 30% Dividends in Coal Oil

I have been asked to offer to investors for immediate subscription at par, \$10,000.00 worth of the Capital Stock of the Comet Oil Company, Limited. The business has been established about seven years, in which term a trade of over nine thousand steady customers has been built up. Without the advantage of this additional capital, the earnings of the business for the past year were sufficient to pay 30 per cent. upon the entire capitalization of the company.

Personally I feel satisfied that the business is an exceptionally good one, and that an investment in its shares will net a substantial revenue to those interested. The shares are being marketed at \$10.00 par, payable \$5.00 per share with order, and balance at allotment.

Applications to have shares reserved may be made by letter or telegram, subject to prospectus, a copy of which will be mailed to all interested. Subscription books will remain open for six days only, and shares will be allotted in the same order as the applications are received, and all over or late subscriptions will be returned to subscribers.

Address all correspondence to Athol George Robertson, Commercial and Financial Agent, 58 Colborne Street, Toronto, Ontario. Telephone Main 477.
