### Many Women Suffer UNTOLD AGONY FROM KIDNEY TROUBLE.

Very often they think it is from so-called "Female Disease." There is less female trouble than they think. Women suffer from backache, sleeplessness, nervousness, irritability, and a dragging-down feeling in the loins. So do men, and they do not have "female trouble." Why, then, blame all your trouble to Female Disease? With healthy kidneys, few women will ever have "female disorders." The kidneys are so closely connected with all the internal organs, that when the kidneys go wrong, everything goes wrong. Much distress would be saved if women would only take

### POWER OF IMAGINATION.

#### Woman who insists She Has a Frog in Her Throat Cured by Trickery.

Paris, Feb. 16.—Some years ago an  
authentic story was told of a lady in  
Normandy who imagined she had a  
lizard in her stomach and was cured by  
make-believe operations, after which  
she was shown the body of the supposed  
lizard which had been secured from a  
chemist. A similar story is now told  
of a governess in the South of France.  
She was troubled with chronic indiges-  
tion for several years and nothing  
would cure her. At last she thought  
she had discovered the cause of her  
trouble. She perceived a noise in her  
body near the liver every time she  
pressed it with her fingers, and she  
went to the doctor. "It is a frog,"  
she said triumphantly, "it sings  
especially in spring, and I heard it dur-  
ing the entire month of May." She  
pressed the spot with her finger and a  
slight squeaking noise was heard. The  
doctor did not contradict her and pre-  
tended to believe it was a frog. She  
said she was willing to undergo an  
operation. The doctor, however, said  
that this would not be necessary. He  
was sure he could administer a remedy  
which would kill the beast. To prove  
it he would subject her to the X rays,  
and she would be able to see that she  
was cured. Arrangements were made  
with the hospital assistants, who were  
let into the secret, and a tinsmith was  
asked to cut out a tin frog. This was  
hidden in a bandage and when the  
photograph with the X-rays had been  
taken it was shown to her and there of  
course was the frog true to life. The  
doctor then administered some medi-  
cines which were to kill the animal and  
cause its disappearance. She was per-  
suaded of the fact by being a second  
time photographed, when, of course,  
there was no longer any frog. Her  
mind was relieved and a thorough  
dose of medicine has also relieved her  
of the rest of her troubles.

### Neglected Colds Threaten Life

[From the Chicago Tribune.]  
Don't trifle with a cold, is good  
advice for prudent men and women. It  
may be vital in the case of a child.  
Proper food, good ventilation, and dry,  
warm clothing are the proper safe  
guards against colds. If they are main-  
tained through the changeable weather  
of autumn, winter and spring, the  
chances of a surprise from ordinary  
colds will be slight. But the ordinary  
light cold will become severe if neglected,  
and a well established cold is a  
child or adult, the cold slight or severe  
the very best treatment that can be  
adopted is to give Chamberlain's Cough  
Remedy. It is safe and sure. The  
great popularity and immense sale of  
this preparation has been attained by  
its remarkable cures of this ailment.  
A cold never results in pneumonia  
when it is given. For sale by all  
druggists.

### IS OUR CLIMATE CHANGING

(QUEBEC TELEGRAPH.)

The Boston Transcript, discuss-  
ing the question whether our cli-  
mate is changing says that two years  
ago we had what even those who  
govern their opinions by the stand-  
ards of tradition, admitted was an  
"old-fashioned winter." Last year  
it was mild and open and much was  
heard of our changing climate. It  
was intimated that the Gulf stream  
was being deflected in this direction  
from its former course and extend-  
ing its genial influences over the  
lands bordering on the North At-  
lantic. The older people insist that  
in their early days a Thanksgiving  
without good skating or a Christmas  
without snow drifts was an excep-  
tion. While now it is the rule.  
Hence the climate is undergoing a

### "You Will Suffer all Your Life."

#### SAID ALL THE DOCTORS

Half a dozen of the best physicians  
told Mr. Baker that he had Chronic  
Rheumatism, and would have it as  
long as he lived. One day Mr. Baker  
read in a paper of a man who had  
Rheumatism just like him—who had  
been told by doctors that his case was  
hopeless—and who had been completely  
cured by GIN PILLS.

The two cases were so much alike  
that Mr. Baker decided he would invest  
50c in a box of GIN PILLS and give  
them a trial.

It was the best investment he ever  
made. Before the first box was taken,  
he felt better all over, so he got  
another. He took that and bought a  
third, getting better all the time.

Hillsville, May 8, 1906.  
I have been greatly benefited by your Gin  
Pills, and all who have used them in this  
neighborhood speak very highly of them.  
For years with Rheumatism and who has spent  
hundreds of dollars with specialists without  
receiving the slightest benefit, was entirely cured  
by two boxes of Gin Pills. He is proclaiming  
their virtues from the "house-tops."

Yours truly, J. L. BAKER.

transformation. The last few weeks  
with their frequent zero days and  
the recent heavy snowstorm have  
somewhat shaken this theory, which  
those who have made a scientific  
study of meteorological phenomena  
maintain has no foundation in fact.  
Professor Moore chief of the nation-  
al weather bureau at Washington,  
proclaimed himself as highly grati-  
fied by the recent heavy burden and  
wide distribution of snow precipita-  
tion. It helps to dispel illusions  
which bother him in his official  
business. He finds a widespread  
belief in the idea of changing condi-  
tions, and not a few put so much  
faith in them that they think a readjust-  
ment of business plans and agricul-  
tural operations necessary to con-  
form to them. Year in and year out  
he maintains, the weather now is  
what it used to be, but the same  
comparisons of the present with the  
past and the same deductions there-  
from, have been going on ever  
since the country was settled. Even  
Thomas Jefferson caught the pre-  
vailing impression, since among his  
papers at the State Department  
appears this: "It is evident that  
the climate of Virginia is changed.  
The old inhabitants here tell me  
that they remember when snow lay  
on the ground four months every  
year, and they rode in sleighs. Now  
it is rare that we get enough snow  
to have a sleigh ride. It is appar-  
ent that the climate of Virginia  
has changed since the year 1607,  
when the settlers came into James-  
town." Professor Moore's explana-  
tion of the prevailing impression is  
that the man of middle age or more  
"remembers the abnormal and in  
his mind brings it down to the pre-  
sent day and compares it with the  
average" which is not a fair com-  
parison. Fifty years ago this winter  
we have been told, the snow was so  
deep along Tremont street in Boston  
that two men walking on opposite  
sides of it could not see each other.

In those days the snow was piled  
in the middle and not carried off by  
the street railway people and the  
city department, yet only nineteen  
years ago next month larger stories  
than that could have been told of  
New York and many another city,  
buried in the memorials March  
blizzard.

### STEAMER SUNK.

Cardiff, Feb. 17.—The British  
steamer Heiopolis collided Saturday  
midnight with the British  
steamer Orianda; outward bound  
from Penarth.

The Orianda sank and fourteen  
persons including her captain, were  
drowned.

The Heiopolis put into this port  
with her bows damaged.

The steamer Heiopolis, it is stated  
in the despatches Saturday, had  
been chartered to convey 250  
Spanish immigrants to Honolulu.  
In a letter to Lloyds Shipping  
Gazette, the ship brokers said they  
had arranged the charter in behalf  
of the American government, but  
it was stated elsewhere that the  
Spaniards had been engaged by  
Hawaiian sugar interests to replace  
Japanese laborers. The Heiopo-  
lis was at Barry, Wales, Saturday  
and was to proceed thence to Mal-  
aga for the immigrants.

The Orianda was built in 1879  
at Liverpool. She was of 1,500  
tons displacement and belonged to  
the Oriental Steamship Company of  
Liverpool.

### Agreement Believed to have been Reached With French Government

Paris, Feb. 16.—It is understood  
that at the next meeting of the  
Cabinet M Briand, Minister of Ed-  
ucation, will give an account of the  
negotiations between M Justin de  
Selves, the Prefect of the Seine,  
and Cardinal Richard, regarding a  
modified contract for the use of the  
churches. M. Briand refuses to  
discuss the matter beforehand, but  
expressed a decided hope that the

results will be judged to be satis-  
factory.

The organ of Cardinal Lecot,  
published at Bordeaux, says: "We  
regard it as very profitable that an  
agreement has been reached by the  
Church and the Government in re-  
gard to the liberty of worship. To-  
morrow or Sunday we will  
doubtless be informed that the  
greatly desired appeasement has  
been realized."

Rome, 15.—The Vatican denies  
that the Pope will issue an en-  
cyclical or other document regard-  
ing private worship in France. It  
also denies that the General of the  
Jesuits is intervening in the con-  
flict in France.

### Great Specialists in Stomach Catarrh

Though often they fail to give even  
temporary relief. Mr. W. Seymour of  
Huntsville, Ont., cured himself with  
Ferrozone. "My trouble," he said "was  
chronic catarrh of the stomach. There  
was constantly bad taste in my mouth,  
I was constipated and usually nauseated  
before and after meals, I also had a  
gnawing sensation in the stomach.  
Ferrozone gave me great relief, and I  
also used Catarrhoxone which is good  
for catarrh. Although it took a number  
of boxes of Ferrozone, I got back my  
health and today am quite well." For  
stomach catarrh, indigestion and kin-  
dred disorders nothing excels Ferrozone.  
In a thousand cases it has proved a  
wonderful success. Try it yourself, 50c  
per box at all dealers.

### FIGHTING INCOME TAX IN FRANCE

Paris, Feb. 18.—It is increas-  
ingly evident that the financial in-  
terests intend to make a last ditch  
fight against the proposed income  
tax measure, and there are suspi-  
cions that they are trying to  
bring about the downfall of the  
Cabinet in order to accomplish  
their purpose. The unexpected  
adverse vote in the Senate follow-  
ing the debate upon the Supple-  
mentary Separation bill, the rapid  
enactment of which was sought by  
the Government, but which the  
Senators by vote of 158 to 128 re-  
ferred back to the committee for  
further consideration, was inspired  
more by opposition to the income

**Not one person in a thousand knows that  
Fruit is really a wonderful medicine?**

Not rare fruits—but the common, everyday fruits that you  
can buy in the fruit shops.

APPLES act directly on the kidneys—increase the flow  
of urine. ORANGES are excellent for the skin. FIGS and  
PRUNES are splendid bowel laxatives and liver tonics.

There are two great difficulties in curing yourself of Kidney  
and Bladder Troubles—Rheumatism—Constipation—Skin  
Eruptions, etc. by simply eating fresh fruit. First, the minute  
quantity of medicinal principle that you would get by eating a  
normal amount of fresh fruit would be insufficient to do any real  
good—second, eating excessive quantities of fruit would upset  
the stomach, on account of the indigestible pulpy fibre found  
in all fruits.

An Ottawa physician overcame these difficulties when he  
discovered the principle which brought forth "Fruit-a-tives."

"FRUIT-A-TIVES" are fruit juices—not as they occur in fruit—but with  
their medicinal activity greatly intensified. After the juices are extracted from the  
fruit, a chemical change is made to take place in which one atom of the bitter  
principle in fruit is replaced by one of the sweet. Then tonics and antiseptics are  
added and the whole pressed into tablets.

Fruit-a-tives act on the three great eliminating organs—the Bowels, Kidneys and  
Skin. They arouse the sluggish liver—enable the liver to give up more bile, which  
regulates the bowels and cures Constipation (or non-action of the bowels) Fruit-a-tives  
strengthen the kidneys and induce vigorous, healthy skin action.

For Headaches and Backaches—for Indigestion and Disordered Stomach—  
for Irregular Bowels—for all Kidney and Bladder Troubles—for Skin Eruptions—  
Fruit-a-tives are without an equal in the world.

the suppression of declarations of  
intentions to hold public meetings.

This income tax bill, especially  
its inquisitorial features, continues  
to be the subject of the most vi-  
olent criticism, the press, with the  
exception of the radical socialist  
papers and the *Freiheit*, boldly  
printing a series of articles instruct-  
ing taxpayers how to evade the  
law. All the newspapers oppos-  
ing the income tax are making  
much of the dissensions in the  
Cabinet, but in principle the in-  
come tax seems to have popular  
support, and the present campaign  
more likely to strengthen than to  
weaken the Government's position  
in Parliament.

Followers of Mr. Combes, former  
Premier, are actively co-operating  
with the financial intriguers  
against the Cabinet. An official

ces that the Cabinet intends to  
fight it out and is confident of vic-

### FROZEN TO DEATH.

#### An Elderly Man Found Dead by the Roadside at Kingsley.

Fredericton, Feb. 18.—Judge Gre-  
gory had a bad fall at his residence on  
Thursday evening, sustaining injuries  
of a painful nature. His head struck  
heavily against the wall causing a severe  
bruise, and he also injured his  
shoulder.

An elderly man named O. G. Hamp-  
ton, belonging to Coverdale, Carleton  
Co., who has been going about the  
country peddling herbs, was found  
dead on the roadside at Kingsley, par-  
ish of Douglas, on Thursday morning.

He was last seen alive on Tuesday  
morning, when he left the home of a  
Mr. Little, where he had spent the  
night, to proceed to Birdtown, about  
seven miles distance. His body was  
found lying on the side of the road  
partially covered with snow, by a young  
man named Kenneth Bird. A faithful  
dog, owned by the deceased, was doing  
guard duty.

The general supposition is that the  
unfortunate man succumbed to cold  
and exposure. Relatives living at  
Coverdale have been notified of the sad  
occurrence. No investigation has yet  
been held by the authorities.
