

NEW ADVERTISEMENTS.  
THIRD PAGE.  
Form for sale..... H. B. Rainford

**LOCAL NEWS.**

**HOOP MAKING.**—Several St. John parties are doing a large hoop making business at Rosagorish.

**PRACTICE.**—Dr. Owens has removed to Woodstock from Millville and taken the late Dr. Connell's office.

**AT WATSON.**—Miss Thompson of this city, has secured the school at Bayville, Charlotte county, for the ensuing term.

**BELOW ZERO.**—Thursday evening the mercury registered eighteen below zero, the lowest this winter in this city.

**SPECIAL SERVICES.**—Rev. F. C. Hartley is holding a series of special services at the F. C. Baptist church with good results.

**ROYAL COMMISSION.**—The royal commission on the liquor traffic resumes work on Tuesday next at Montreal. Dr. McLeod left on Friday to attend.

**MEDICAL.**—Dr. Bridges has secured the Dr. J. Z. Currie property on York street, and has commenced practice. Dr. Currie intends going to Boston for a visit.

**SLIGHTING.**—This city is now enjoying about nine inches of snow, the fall of Monday night, and with lightening in the evening, with consequent larger traffic from country districts.

**APPOINTED.**—Ora P. King, of Sussex, has been appointed judge of probate pro hac vice, in reference to the estate of Samuel Carson of Caronville, Kings county, deceased.

**WOOLEN MILL.**—The new woollen mill built by Willis and Myers at Woodstock is about ready for work. The mill will be driven by a 45 h. p. engine, and machinery has been selected that will make the very best cloth.

**SCHOOLS.**—The hotels and boarding houses are full over, the Normal school students having returned. Quite a number of the young people of the city have gone to other places to teach or attend school.

**AT BLACKVILLE.**—R. H. McGinnis, lay reader for the parishes of Derby and Blackville, was presented by his friends on the 23rd inst. with a well filled purse as a token of esteem. The gathering met at the residence of B. N. T. Underhill.

**NO BILL.**—The case against a clergyman of this city for assault which came on at the York county court, was thrown out, the crown officers deciding that there was no evidence on which to found a bill and the case was dismissed.

**FREDERICTON SKATES.**—John A. Wisely, formerly of this city, was defeated in a skating race at Bangor on Monday last. He would have won but his skates cut through some shell ice throwing him. He did the five miles, however, in 18.24.

**HAND MANGLED.**—Mr. Hanesin, an employe at Morrison's mill, met with a severe accident there on Wednesday evening. His right hand got caught in a single machine and was pretty badly mangled. He was brought here and received surgical aid.

**GOSE UP IN SMOKE.**—A fire broke out at Sir Leonard Tilley's residence, St. John, on Tuesday evening and did much damage. Every thing in his library, including books, documents, furniture, was destroyed, many valuable reminiscences of his political life going up in smoke.

**GOVE WARY.**—George Wilson, of the late firm of Wilson & Wilson, barristers, left on Tuesday for the Northwest where he will go into the practice of his profession. He is a young man of much legal talent, and will be heard from in the land of his adoption. He has the best wishes of all for success.

**PROGRESSIVE.**—The C. E. R. Co., who are making strenuous efforts to give the public the very best accommodation, are to open the branch line from Blackville to Indianopolis as early as possible in spring. This will be a great benefit to residents of the latter place, especially.

**REPLY FOR REV. MR. ROSS.**—At a meeting of the Presbytery of St. John on Tuesday morning in St. Andrew's church, it was decided to aid the home mission committee in securing and paying a supply for a month for the rev. Mr. Ross of Prince William, who is gradually recovering from illness.

**CONVENTION.**—The liberals of Queens and Sunbury intend having a monster convention on Wednesday next at Gagetown. From reports there will be much business of interest to that party up for discussion, and efforts will be made in each county to have as large a representation as possible.

**SOME OF TEMPERANCE.**—Sunbury division, No. 385, B. of T., have elected the following officers for the current term: E. C. Perley, W. P. Kate Harding, W. A. Perley, R. B. W. R. McGee, F. S. G. Banks, treas.; Bell Miles, chap.; J. C. Harding, com.; B. Bent, A. C. E. Butler, I. S.; A. A. Tweedell, O. P. M. Harrison, organist; Jas Shields, P. W. P.

**FOR THE HOSPITAL.**—The hospital aid society intend holding an entertainment in the city hall on the evening of Tuesday, the 17th inst., for the benefit of the hospital fund. The program includes amateur entertainments, a tambourine drill and operetta "The Gypsy Peddler." The F. O. M. W. orchestra have promised to attend.

**A JOB FOR HIM.**—William Lipsett, who has the post office in front of his apartment building, through his own acts, has seen fit to take up the baby racket and has imposed on the suffering public, who may be the reporter, a column and a half of tears." He showed his presidency dealt several napkins and employed to flood a skating rink.

**NO PAY.**—The special meeting called by the city council to deal with the question of providing a salary for the city fathers was a failure. It is either follow the same old system or give place to others who will. Perhaps the aldermen did not think it was an opportune time to strike for wages, especially as the aldermanic elections are so near at hand.

**CALLED AWAY.**—Eben. Miller of this city was called to St. John on Monday to attend the funeral of his brother-in-law, W. G. Matheson. The funeral took place on Tuesday at St. John, there being a large attendance. Being past master of New Brunswick lodge, No. 22, F. and M., his brother in arms buried him with all the honors due to a worthy member.

**CHIEF W. CURRIE.**—Rev. Isaac Howie has written the charges made by Mr. Currie and the document has been placed in the hands of Dr. Sprague, chairman of the committee. A committee will meet at Fredericton on February 15, when rev's Currie and Howie will be examined. A complete investigation will be made and the fault placed on the shoulders of the proper person.

**FOR DAMAGE.**—Miss Bina Henry of the university class of '91, has just recovered from an electric railway company \$125 for damages sustained in an accident on their cars. While endeavoring to board a car it started, and was thrown, receiving a severe cut on the head. She advised for the address of those who saw the accident, and soon had sufficient evidence to convince the railway company that there was no chance to fight with her. They compromised the matter with the above result.

**BILLS OF SALE.**

**Annual Meeting of the Board of Trade.**  
The Federation board of trade held its annual meeting on Monday afternoon at the city hall with a large attendance.

Henry Chestnut read an interesting paper relating to the deficits in the present laws respecting bills of lading, is dealt with the matter in a very particular manner, and convinced any who might have before been doubtful that there is an urgent necessity for a change. Mr. Lemont attended, addressing dealing with the same question, and all in all, the matter was pretty well ventilated. A committee composed of A. Randolph, Wm. Lemont, and M. Tennant was appointed to confer with the government on this question.

The insurance rates also came up for discussion. All members were of the opinion, that considering the amount spent for fire protection here, the insurance rates were too high. The council of the board were authorized to petition the New Brunswick board of fire underwriters and ask a reduction from the present tariff in this city.

The following officers were chosen for the year: Pres., J. S. Nell; vice-pres., Wm. Lemont; sec., J. W. McCready; council: A. G. Edgewood, J. W. Weddall, M. Tennant, A. H. F. Randolph, G. W. Hodge, F. Chestnut, F. Edgewood, J. T. Clarke, J. M. Wiley, H. H. Pitts, A. Lottimer; arbitrators, J. B. Nell, W. Lemont, J. W. McCready, O. McGoldrick, J. Pitts, G. W. Hodge, A. Staples, and A. Randolph.

**Now for a Skate.**  
After urgent requests the Fredericton curling club have decided to open their rink for skating every Monday evening during the winter, so long as they receive patronage to cover expenses. The C. E. R. band will be present each evening. Ladies' tickets have been placed at 10 cents; gentlemen 25 cents. Doors will open at 7:15, first band at 8 o'clock. Tickets to be had at the rink. Former efforts by the company to keep the rink open for skating were not patronized, and the result was the rink had to be closed. They will attempt it again, and will do all possible to please the public if their efforts are rewarded. They only ask for enough to pay expenses. This report should be kept up. Fredericton had in years past, skating rinks to meet all comers, but the sport has died out; patronize this effort to revive it.

**Parents and McNeill.**  
Capt. James W. Leonard of Deer Island, and others of the heirs of the Parent property, held a meeting in this city on Wednesday evening. John E. Moore of Queensbury was present. It is very probable that this fine property will come into the hands of the Parents of Queensbury, and the McNeill of Nashua, and evidence is forthcoming that they are the heirs without the shadow of a doubt. A report is expected in a few days from a Boston lawyer which, it is expected, will throw much light on the subject. In the meantime Capt. Leonard is visiting the heirs at Queensbury and other districts, and all will be represented at the next meeting to be held here in a short time. The property is of great value, and it is hoped by all that the heirs will be successful in pushing their claim.

**Summer Visitors.**  
From authentic sources we learn that this city will have an unusual influx of summer visitors coming summer. Besides Governor Russell of Boston, and others from that city, several representative men of Bangor, and the McNeill of Nashua, are the objective point of their summer touring, which will come down here for a few weeks. It is plain that this city pleases American visitors, and the McNeill advertising and suitable cottage accommodation the population of this city during the summer months might be much increased. It is highly probable that several suitable cottages will be erected as early in spring as possible at a price a few miles above town, and inmates for these are already secured. Now is the time to prepare for a rush.

**The Law Courts.**  
Quite a discussion took place at one of the leading hotels on Thursday evening respecting the location of the law courts; and it was among the lawyers themselves, many of whom are in the city attending the courts. With the exception of a city practitioner, who happened to be present, the party were unanimous that the courts should be held at St. John instead of in this city, and they favored the passing of a law to make the change. Of course if this is the feeling, and the legislature sees fit to grant it, Fredericton will again be a sufferer. When a bill was up for this purpose before, it was lost by one vote; it may have a different result this time.

**Smashed Their Skulls.**  
A few months since, Joseph Pelletier of Madawaska, was arrested at that place for desecrating a graveyard. Before he could be sent he was managed to escape across the line. On the first of the present week it was learned that he had returned and was in hiding at his residence, where constables Maxime and Martin went to arrest him. Maxime went up stairs where the culprit was hiding, and as his head appeared above the floor, Pelletier struck him with an iron bar and knocked him senseless. Martin at once rushed to the rescue, but met the same fate. Pelletier then escaped to the border, but strong efforts are being made to effect his capture.

**Sad Suicide.**  
A sad case of suicide is reported from Stockville. A young man, a native of that town, Henry McCluskey, was in company with two others hunting on the head waters of the Tobique river. The party made their headquarters in an old camp on a Siemon brook about thirty-four miles from Grand Falls. Food running low, two went to procure a fresh supply leaving McCluskey in charge of the camp. On their return they found that McCluskey had committed a bullet hole through his breast. After being conveyed to the town an inquest was held when the verdict returned was that deceased had deliberately shot himself.

**The McMichaels.**  
The prisoners McMichael, father and son, will be presented at the court for trial for the murder of Fred Titus at St. Marys, on Tuesday next. The younger man appears to have very little realization of the position in which he is placed and apparently enjoys a talk on the subject. The old man is more reserved and taciturn and now that the time for trial is approaching appears very irritable. It is said that the young man is not a son of McMichael but is a boy, named Hope, who was kidnapped. At present they have engaged no counsel.

**DROWNED.**—A former resident of Oromoco, William Davis, lost his life in California on the 23rd ult., while at work for the English dam company. When knocking a plank off a dam he fell in and was swept away by the rush of water. His son attempted a rescue but it was of no avail. He was in his seventy-fourth year. Deceased was the servant of Mrs. John T. Currie, of Oromoco.

**PROSTRATED.**—Rev. J. A. McLean of Harvey Station, who has been unwell for some time, past, was suddenly prostrated on Thursday morning by pneumonia, but is getting better. He attended the late presbytery meeting at St. John and overtaxed his strength.

**REMOVED WORK.**—The N. B. Sunday has removed work after a short respite for repairs, stock taking, etc. This is one of the principal industries of the city, and when closed down makes a big street especially very dull indeed.

**FARMERS AND DAIRYMEN.**

**Program Arranged for the Annual Meeting.**  
The annual meeting of the farmers and dairymen's association of New Brunswick will be held at the city council chamber in this city, on the 25th, 26th and 27th of this month. The following program has been arranged:

Wednesday, 25th, 3 p.m.—Opening; president's address; remarks from visitors; reports of officers and agricultural societies and appointment of committees. Evening session, 7:30 p. m.—"Agricultural education." Dr. Inch, chief superintendent education; Messrs. Howard Truman, George E. Baxter, president Owens and Geo. Trueman. Thursday, 26th, 9 a.m.—Practical working of cream separators and a Babcock milk testing machine. 10 a.m.—The discussion on dairying will be opened: "The cow, her feed and how to handle her," by practical gentlemen present; "the position of dairymen in New Brunswick," by John Robertson; "a practical illustration of buttermaking," by S. L. Peters; opening of question box, and general discussion. 2 p.m.—"The essentials of success in co-operative buttermaking," by J. W. Hart, sup't experimental dairy station, Sussex; a general discussion of co-operative dairymen; how best to start creameries and cheese factories; markets for dairy products and what they demand; by Messrs. John Robertson and J. W. Hart. 7:30 p.m.—"The essentials to success in a good cheese making business," by James N. Sloat and others; general discussion and opening of question box.

Friday, 27th, 9 a.m.—Practical working of cream separator and milk tester. 10 a.m.—Election of officers; "corn growing and the making of ensilage in York county," by David Parent, Queensbury; the same for Kings county, by Abram Alward, Bittern Bridge; reports from corn growers and silos in all parts of the province; general discussion. 2 p.m.—"Sheep husbandry in its several branches" will be discussed by Messrs. Robt. Brown, Northampton, H. B. Trueman, Point de Bute, and P. P. Powys, Fredericton; a general discussion with particular attention to the dog nuisance will follow; reports of committees and general discussion of necessary resolutions. 7:30 p.m.—"Corn growing—apples and small fruits, several papers; "enemies to fruits and how to fight them," prof. Fletcher, dominion entomologist, Ottawa; general discussion.

The by law committee will meet on the evening of the 24th, at the Queen hotel, and the executive committee at 10:30 a.m., 25th, in the city council chamber.

**The Nashua Bridge.**  
Oppositionists are endeavoring to make capital out of the bridge across the mouth of Nashua. Mr. Foster was told to do a certain amount of work there that was necessary to prevent accidents and that completed his duty, was done. Instead of being content with the bridge the fact is that its cost the past five years has been very little, not so much for repairs as any other bridge on the same stream between Stanley and the mouth. There has not been an accident on it in the past five years as much as at Marysville after the freight that took out the span, and this bridge suffered at the same time.

As to the trouble with the Messrs. Haines and Foster, all the trouble is the imagination of a jack-knife carpenter of St. Marys, who attempted to build bridges and failed disastrously, and then because the government would not put him in a better position he demeans himself by trotting across the bridge and retelling his petty tales to opposition journals. The bridge, which has crossed the mouth of Nashua, bridge on a visit to a Scott act hotel often enough to know all about the structure. It is plain that the bridge is a fine structure, and these things are getting pretty well played out. The object of the attacks at present is to have the work stopped but it will go on all the same.

**New Brunswick Dairymen Co.**  
The general annual meeting of the shareholders of the New Brunswick dairymen company (limited) was held on Saturday last at Lower Point Village. The reports of the officers showed the business of the company to be in a progressive and flourishing condition, and the shareholders approved of the course taken, by giving them an almost unanimous resolution in favor of lowering resolution, moved by Mr. Biles and seconded by Mr. Powys, was unanimously carried.

Resolved, That we, the shareholders of the New Brunswick dairymen company, (limited) in annual meeting assembled, desire to express and place upon the records of the company our deep sense of the irreparable loss which we have sustained in the community and the people of the county of York generally, have sustained by the lamented death of our late president, Chas. E. Murray.

The board of directors for 1903 was elected as follows: Messrs G. W. Dykeman, W. T. Whitehead, J. C. Murray, Isaac Kilburn, Z. R. Eddy, P. O. Powys, R. D. Cliff, Willard Kilburn, Egerton Everett and James Hogg and W. Hubbard. Egerton Everett was appointed auditor for the company. At a meeting of the board, after the adjournment of the shareholders' meeting, the officers were elected; president, G. W. Dykeman; vice-president, W. T. Whitehead; secretary, W. W. Hubbard; treasurer, Isaac Kilburn; auditor for directors, Egerton Everett.

**Maryville News.**  
Prof. Cadwallader has been visiting St. John. It is announced that the rev. Dr. Carman, the great Methodist divine, will preach in the Methodist church here to-morrow morning; Dr. Allison, of Mount Allison college, will occupy the pulpit in the evening.

The members and adherents of the F. C. Baptist church, met at D. Pugh's residence on Wednesday and Friday evenings, and known as the F. C. Baptist Christian Aid society. One of its aims is the construction of a sidewalk from the Methodist church to the F. C. Baptist church. The following officers were elected: pres., G. W. Hart; vice-pres., Miss Jane Robinson; sec., E. Staples; treasurer, H. Manser.

A case has been put in the hands of town marshal Barker that is exciting some interest. One during the first of the week, a lady chanced to go to a neighbor's leaving no one in the house and not locking the door. On her return she found that her husband's watch, valued at \$20, had been stolen. Suspicion fell on a man who had been seen in the vicinity, and it is expected he will be looked after very shortly.

**Gibson and St. Marys.**  
Miss Sewell returned on Monday to St. Marys. Arthur Brown is seriously ill, but it is thought he will recover. Dr. Mullen has gone to take a post graduate course at McGill medical college. John Culligan, who has been confined to the house for some weeks, is getting around again.

The social in the church hall on Tuesday evening under the auspices of the Episcopal church, was well attended and was a success. Freeman Rideout, who was hurt seriously on Saturday last by a fall from a bridge on the Gibson-Maryville road, is able to be out again.

The congregation of Rev. Mr. Parkinson of this place, and friends from the city, met at the manse on Thursday evening and presented the worthy pastor with a well filled purse as a token of esteem for himself and Mrs. Parkinson.

**GOOD DONATION.**—The sum of \$792.68, collected by the bishop in aid of the sufferers by the great fire at St. John, Newfoundland, has been forwarded by the bank of New Brunswick without charge.

**MAL-PRACTICE.**

**Dr. Turner, of Mel River, Before the County Court.**  
One of the cases before the court, that is of especial interest, is that of Albert Patterson, of Mel River against Dr. Turner of the plaintiff. A. A. Van Wart and D. Jordan appear for the plaintiff with attorney general Blair for defence. Mrs. Patterson, Wesley Carpenter of St. John and Dr. Colter of Woodstock, were the witnesses of the case. Dr. Turner, Wesley Carpenter said that at the time of the child's illness in March 1891, he was at Mel River, and enquired of Dr. Turner how the child was getting along. Dr. Turner replied to the effect that he had been in consultation with Dr. Colter that day and that he was going to prospect for the cause of the swelling on the child's body. He (witness) Dr. Colter said that when called to see the child in March, 1891, he found it propped up with pillows. He ordered the child stripped and laid down. The first thing he noticed was the child's heart beating on the right side of the breast bone. He saw a uniform swelling of the left side from the arm pit to the hip; spaces between the ribs distended. He called Dr. Turner's attention to these points. Dr. Turner agreed to the fact that he had visited the child, and it might be months or years before the lung will recover its usefulness. He detailed the working of the disease and the general treatment in such cases. He said he would remove the pus or water if the patient's life was in danger.

Dr. Hand was called, it being agreed that he would not be required to give expert testimony. He said he had visited the child and repeated the drawing off of the pus. He swore that he did not see any holes in the sides of the tube which prevented the free drainage of the water. This does not appear to coincide with Mrs. Patterson's evidence.

Dr. Colter was then examined by Mr. Vanwart. He was questioned respecting his procedure with the child and whether such as Dr. Turner had found. He said that if he believed the enlargement on the child's side did not endanger life, he would not perform an operation but would follow the ordinary methods but in high fever he would give relief if he was compelled to take a desperate course. This case did not appear to be of long standing. He was absolutely sure when he first saw it that it was a pleural gathering and as long as it remained, there was danger to life. He had met with as great displacement of the heart before. If an operation has to be performed, the ribs must be cut out of the patient. He would not care to say that the operation should have been performed a year or two before it was. The tube for carrying off the matter was kept in the chest side in a usual way, long time due to the youth of the patient and to the fact that as the side fell in, due to the outflow of the matter, the ribs came together and without the tube would have prevented the flow of the pus. The ribs were cut out on account of the youth of the child. He said in all his practice with similar diseases he had not cut a rib. He then detailed his treatment in cases of pneumonia, which always accompanied pleurisy, whichever predominates gives the name to the illness. This concluded Mr. Vanwart's examination.

He was then examined by attorney general Blair, who was satisfied with his testimony. He said that if he had had the proper instruments with him at the first visit, he would have performed an operation. There was nothing in Dr. Turner's treatment to obstruct him.

Theresa Patterson, daughter of the plaintiff was then sworn, her testimony being similar to those published.

The case is being continued to-day and will not be concluded till the middle of next week.

**FOR POINTS.**—The game at the curling rink for points on Tuesday last terminated as follows: H. B. Butler, 18, W. K. Allen, 17, Thomas Fowler, 15, J. B. Givens, 14 and Jas. B. Macdonald, 13. Full marks were gained and the scores show fair play. On the 18th inst. the following rink will play the Thistle and St. Andrew's clubs of St. John and the St. Stephen's of the border city on an almost unanimous resolution in favor of Hogg and T. G. Lodge, skip; H. V. Bridges, J. Campbell, A. F. Street and J. B. Givens, skip; G. D. Dibles, A. H. P. Randolph, J. H. Heston, skip; H. B. Butler, C. H. Nutt, C. E. Nell, J. S. Nell and Harry Rutter, skip. The game for the oysters on Wednesday evening resulted in a victory for Campbell's rink over J. H. Heston's of 14 to 10.

**ATTACKED BY WOLVES.**—W. H. Dykeman, a blacksmith of Jemseg had a narrow escape from wolves last week. While engaged in the timber trade, about half way between Fredericton and Woodstock, containing 80 acres, of which all are intervals of the very best quality. There are three houses and three barns on the property. One here, near 7:30 P.M. the house in which the subscriber resides, was built only a few years ago, has a front porch so roomy and in first class repair. There is a good well on the place, and the premises are well watered. The Woodstock brook has a landing at the intervals from which there is an easy road to highway. This property could be divided so as to make two good farms. For terms and further particulars, apply to the subscriber on the premises, or to HENRY E. RAINEBOLD, Broker, Fredericton, Jan. 14, 1893.

**AXES, AXES.**  
We are handling a line of Narrow Axes, Superior in Tenip to any other Axes ever sold by us, and we have had most all the different makes. They are all made in the CLEAR THIS IS THE MODERATE IN PRICE, at  
R. CHESTNUT & SONS,  
Fredericton, N. B.

**The Sunday Sun.**
