she disconstration presents a relation of the seconstrain of the secon

THE HERALD

The prove, be it remembered declared upon the constitutionality of the Act as passed—they never said that it was beyond the power of the market to say that there is a mild boom in Plenies just now in Ontario—a distinctly mild boom. It must be understood that the generally accepted signification of the word Picnic differs widely up there from what it means in this Island. It is not one of the day, have not expected signification of the word Picnic and leafy-ramble mixtures which are so familiar to us—but is a political demonstration, grand or simple, according as the people enthuse about though in whose honor it is given, and who are expected there to address them on the questions of the Ontario and the control to be included about the population of the day. For the majority of people politics are dry staff for picnics—they make the repart to give a political demonstration, grand or simple, according as the people enthuse about though in whose honor it is given, and who are expected there to address them on the questions of the day. For the majority of people politics are dry staff for picnics—they make the propose to discover, if such thing be possible, the Grit policy, since we were unable to attend the demonstrations personally, we did the next best thing—we read the form that it is finding, should remembe the that a complete new that it was not in the Toronto Gloke, and our renders may be sure, from the well known character of the life, should remember that the name decision belief understood that the specches of the leaf of the country. The province of the country and the province of the decision of the decision of the country and the province of the country. The province of the country and the province of the country and the province of the country and the province of the country. The province of the country and the province of the count

master as a speech. Not that the gentiseman as speech. Not that the gentiseman lacks oratorical gifts—by no means man lacks oratorical gifts—by no means speech without a subject, and therefore his remarks were confined to the curses canning the speech without a subject, and therefore his remarks were confined to the curses and a back of the Autional Policy which have done duty for years, and are now gotting threadbare. We canning the received amined the report of his speech care fully, but were unable to find any pulse with the condition of the single that the canning the received and the proportion of the contract of the curse of the strength of the contract of the curse of the strength of the contract of the curse of the strength of the curse of \$25,000 now offered on the Cannida market of \$25,000 now offered on the C
