WAR IS FORMALLY DECLARED BETWEEN ITALY AND TURKEY

Two Nations in State of War After 2 O'Clock Yesterday.

Italy to Protect All Foreigners

Occupation of Tripoli Or- dered by Italian Min- ister of Marine.

Rome, Sept. 29.—It is being officially announced here that Italy and Turkey are in a state of war, beginning at half-past two o'clock of the afternoon of Friday, Sept. 29, the reason being given that Turkey has failed to meet the demands contained in the Italian ultimatum.

To Bombard Tripoli.

Chiaso, Switzerland, Sept. 29.—It is reported here that the Italian admiral, Aguirre, has been instructed, when occupation is decided upon, to bombard Tripoli, and if this is refused or delayed to give the population six hours within which to evacuate, at the expiration of which he shall bombard the place until a landing is possible.

Occupation Ordered.

Rome, Sept. 29.—The minister of marine is believed to have sent a wireless order to the Italian fleet off Tripoli to act immediately. This action followed a meeting of the cabinet at 11 o'clock, at which it was decided to proceed with measures therein determined upon. Italy will fight for the safety of Italian and all other foreigners in Tripoli and Cyrenaica, using all the means at her disposal. The blockade of the coast of Tripoli and Cyrenaica will be undertaken immediately and notification of this act will be sent to all interested powers.

Evacuation at Foreign Office.

London, Sept. 29.—Italy will occupy Tripoli in accordance with the agreement of the foreign office president a scene of great excitement this afternoon as a result of the Turco-Italian war. Foreigners are being advised to evacuate the country, where they have been visiting, and held long and arduous conferences with the Italian ambassador, Count Nenshor Dietrichstein called to the secretary of state.

To Maintain Blockade.

Chiaso, Switzerland, (on Italian Frontier), Sept. 29.—The Italian fleet has been ordered to maintain a close blockade of the Tripolitan coast and prevent the landing of further reinforcements. Secret instructions are being given for strategic distribution of ships, also along the Albanian, Macedonian and Syrian coasts. This action is begun to prevent any attempt by Turkey to attack the Italian coast through privateers, which would be easy from the Albanian coast, which is but a few hours' sail from the Italian coast, which is quite undefended. The ships have been instructed to defend not only the Italian, but also foreigners on Ottoman territory, Admiral Aubrey, in command of the Italian vessels, in the Turkish waters, has been instructed, when the order to begin the occupation is issued, to embark immediately, the few Italians who may be left there and Albanians are importing General Garibaldi to take advantage of the situation and organize another Albanian revolution in Turkey.

Italy an Ordinary Brigand.

Constantinople, Sept. 29.—The main fit a violent article today accuses Italy of acting the part of an ordinary brigand and says that Turkey will respond with hatred and enmity, and the ultimatum will lead to the thunder of cannon. It adds: "Turkey is not going to make the pretense of defending Tripoli and accept peace after the formal exchange of a few cannon shots. From this moment there will be implacable hatred between Italians and Turks. Not the face of an Italian shall be seen in our ports. Vengeance must dominate every other feeling. For vengeance we shall live and we shall succeed."

Martial Law in Constantinople.

The government has decided to enforce martial law in Constantinople for the present. The population is quiet, but it is feared an actual rupture in the relations with Italy may be imminent. The weakness of the present government is unfortunate in such a crisis, and a change of ministry is believed to be imminent. It is probable former Grand Vizier Safa Pasha will be made Grand Vizier in succession to Haki Bey. Telegrams from the various towns of the empire announce that Moslem youths are volunteering for war against the Italians. Italian officers in the Turkish services have been recalled by their government.

Landing in Afternoon.

Matis, Sept. 29.—A telegram from the government has been received that the Italian fleet will land in the afternoon of the 30th.

Winnipeg Housewives Are Appalled By the Jump in the Prices of Meat.

Winnipeg, Sept. 28.—Another increase in the price of beef is predicted very shortly by retail dealers, which means housewives will have to take another leap in their pocketbooks. Pork and lamb have gone up 4c since last week and these commodities are now selling at 25c per lb. All kinds of meat are now selling at record prices at Winnipeg, and before the winter is over the grocer is to touch unheard-of figures. Where will all this end and what are the causes are the questions being asked by housewives.

What the housewives cannot understand is why the difference between wholesale and retail prices in Winnipeg are so steep. Beef is now selling at 6c per lb. wholesale, pork 9c, lamb at 6c, which is above the ordinary prices. The spread, the housewives think, is too great. They ask retailers the cause and they whisper, the abattoirs, but refuse to say more.

The cattlemen, retail dealers and farmers are growing weary over the prolonged delay in starting work of the proposed union stock yards and public abattoir in Winnipeg, which were authorized at the last session of the Legislature, and which it is claimed will greatly alleviate conditions in this city.

From time to time, there have been announcements that work would be started at once, but hitherto have always occurred and the work seems to be as far off as ever.

HIGH PRICES OF FOODSTUFFS NEAR CRISIS IN NEW YORK

ANOTHER MONTH AND DEALERS DECLARE COMMON PEOPLE CAN- NOT BY NECESSITIES—HOW PRICES HAVE JUMPED IN EAST—ELIMINATE USELESS MIDDLEMEN SOLUTION.

New York, Sept. 27.—Prices of food products are soaring so fast that it was freely asserted by wholesale circles Saturday that within another month the altitude record of a year ago would be exceeded and that by the first of the year the necessities of life would be out of reach of the common people. Wholesale dealers made every effort to minimize the situation. It was most serious, they said, and few had any reasonable excuse of explanation to offer.

Sugar is higher than since United States civil war days; coffee is daily advancing; eggs and butter are almost prohibitive; the garden variety of produce is selling for \$2 for 100 lbs.; chickens are bringing less than five cents a head; wholesale corn, two cents an ear; lima beans \$2 a bushel; string beans \$1 a bushel; onions \$2 for 130 pounds; tomatoes \$1 for a bushel crate; flour \$5.50 to \$6.50 a barrel; and other necessities in proportion.

Most products of all kinds have jumped up two cents since a week ago and the wholesalers have been told by the packers that prices are sure to go higher. "Poetry of all kinds is scarce and very high."

Middlemen to Blame.

Washington, Sept. 27.—Solution of the high cost of living, Dr. Wiley said, lay in the elimination of the useless middleman.

"In this city," he said, "I would have public stores at which the government could purchase by 20-hour contracts, and portions in the other western provinces. Crops yet unthreshed are damaged by exposure and grades are being materially reduced."

FIRST ROAST BEEF DINNER OF UNIVERSITY STUDENTS

CHANCELLOR STUART, PRESIDENT TOBY AND MEMBERS OF THE BOARD OF GOVERNORS ARE PRESENT AT OPENING OF UNIVERSITY DINING HALL—CHANCELLOR SPEAKS.

(From Saturday's Daily.)
Three score students of Alberta University sat down to the first roast beef dinner in the dining hall of the residence Thursday night. The student board was traced by the presence of the Chancellor of the University, Mr. Justice Stuart, and also of President Toby and the Hon. C. H. Mitchell, minister of education; Dr. A. C. Rutherford and Dr. Sisley, members of the board of governors. The meal was the first to be served in the University residence, and at its conclusion impromptu ten minute speeches were made by the guests.

Chancellor Stuart, in the course of his congratulatory remarks, referred to the system of student management under which the new residence is to be placed. It was a system which, if properly worked out, should prove entirely to the satisfaction both of the students and the University authorities. Student control should give the widest margin of liberty, while at the same time inculcating self-reliance and self-discipline.

The welcome extended to the students in residence Thursday was of an entirely informal nature. Later in the term the formal opening of the residence will take place, and to this function the public will be invited.

In the first two days of the term, Wednesday and Thursday, one hundred students registered in the various courses, years and faculties. There is no doubt but that the total registration for the year will exceed one hundred and seventy-five. The dormitory accommodations have all taken the first day, and even now a second residence could be well filled were it in existence. When the second residence opens next year, with student quarters similar to that provided

by the present building, still further expansion will, without doubt, be required.

Student Council.

The scheme of student discipline which will be followed in the conduct of the residences involves the appointment of student committees from among the senior men of the university. In the centre of a few days the first committee will be appointed by the students from men in the third and fourth years.

The meal served in the dining hall last night was intended as a sample of the regular fare to be provided for the students. Good, wholesome, well-cooked food will be provided in abundance all times. The dining hall service is in charge of an experienced chef. The tables in the hall are six in number, each table accommodating twelve men. Senior students are in charge of each table, occupying places at the head and foot.

Macklin Murder Case.

Saskatoon, Sask., Sept. 28.—On the resumption of the Supreme court sittings in this city, presided over by Judge Lamont, Hugo Roesebach, a German homesteader from near Macklin, appears on an indictment bearing four counts concerning the shooting of another man of the same nationality, Richard Terndsen, who is also a homesteader in the same locality. The indictment sets out that on the 19th of August, Roesebach shot at Terndsen with intent to kill and caused him grievous bodily harm, inflicting injuries which necessitated the latter being confined to bed for a period of five or six weeks. The court adjourned until tomorrow without concluding the case.

Lord Bessford Declares Burden of Armaments is Due to Britain Becoming the Bully of the Seas

Victoria, B. C., Sept. 28.—At the Canadian Club luncheon, Lord Charles Bessford criticized the policy of the British navy administration in abandoning Esquimaux as a naval base in common with our other "Overseas bases during a certain period of insane naval administration."

He also criticized the "Declaration of London," stating that it weakened the British naval organization over trade routes. He said the Declaration of London was "conceived in a moment of aberration and would result in an already weakened spot in the British naval organization being made weaker. Since the cruisers were taken off, the trade routes had been converted into a "gigantic danger."

Lord Charles Bessford referred to the growing burden of armaments, stating that it was due to Britain becoming the "bully of the seas." When dreadnoughts were put forward it induced other nations to compete in an "insane competition of armaments."

He believed that reciprocity, had it passed, would not have meant annexation.

MCCARTHY SAYS HE IS OUT POLITICAL LIFE ABSOLUTELY

EMPHATICALLY DENIES RUMOR THAT HE WILL ENTER PROV- INCIAL ARENA AS CONSERVATIVE CANDIDATE IN CALGARY —PROTEST OF BUCHANAN'S ELECTION PURE BLUFF.

Calgary, Sept. 28.—"I'm out of it absolutely. I'll stick to the simple life for me. I tell you it's a fine thing to be an ex-stationer."

Germany Feels It. Berlin, Sept. 27.—The high price of food, resulting from the past season's drought, disturbed financial conditions and the "war" price are driving the government to a crisis.

Major Helped Demolish Billboards. Grand Rapids, Sept. 27.—Determined to rid the city of the billboard evil in the downtown district, Mayor George Ellis and 24 citizens made an attack on the sign boards and demolished four of the largest ones. The fire department was called upon to erect the building and complete the destruction under the mayor's guidance. A great throng applauded the work.

Excessive Moisture Still Apparent.

Winnipeg, Sept. 28.—Excessive moisture, which caused so much damage to western crops during the ripening season, is still making itself manifest. Local districts of rain have saturated crops and portions in the other western provinces. Crops yet unthreshed are damaged by exposure and grades are being materially reduced.

A Medicine Hat Bluff.

Although there is talk in Medicine Hat of the Conservative party protesting the election of W. A. Buchanan, but the knowing one was sure that he would when the time came, and stated that in the meantime they would not cross any bridges until they came to them.

That the Conservatives are preparing to make a strong bid for the vacant seats in the provincial election, is sure, and their organization is in better shape than for many years, and they are prepared to fight hard for the four seats.

Confesses to Shooting. Willow River, Minn., Sept. 29.—Ernest Edson, who Tuesday last shot and perhaps fatally wounded City Marshal S. L. Motile, seriously wounded Rural Mail Carrier Vernon Pemberton and shot his aged father through the arm, returned home today and voluntarily surrendered. He confessed the shooting but says it was done while he was temporarily insane as the result of a spree, and he is penitent and grief-stricken.

BEAVERS PUT LIGHTING PLANT OUT OF BUSINESS

Dam Made By Beavers Up the River From North Bay Completely Stops Flow of Water With Which Power Is Generated.

North Bay, Ont., Sept. 28.—The activity of beavers has cut this place off from electric light and power. The dynamo station of South River, where the electricity for this place is generated by water power, had to shut down because the beavers up the river have constructed so many dams that all the water is held back. The predicament is made more embarrassing because the dikes forbid interference with the beavers, and the electric light company is helpless. Unless special permission is given the government to destroy the beaver dams the power industries will be severely affected.

YANMAN READY TO BEGIN LONG TRIP

Within Ten Days Engineer of Well- Known Dirigible Will Start on Auspicious Trip Across Atlantic—Thinks He Has Better Spirit than Columbus.

Atlantic City, N. J., Sept. 28.—Melvin Yanman and his crew are ready today for their attempt to fly across the Atlantic in the dirigible Akron, and within ten days will make the start.

The all important device is the unnamed attachment that is to take the place of the equilibrators.

Four engines developing a total of 217 horse-power are expected to develop a speed of at least 25 miles an hour.

25 Dead in Italian Floods.

Rome, Italy, Sept. 28.—Twenty-five persons have been killed by floods at Capriani, in Calabria province.

BOB ROGERS TO BE MINISTER OF INTERIOR

It is Practically Settled That Manitoba Minister Will Se- cure This Portfolio—Strong Opposition to Him in the East, Because of His Reputation.

Ottawa, Sept. 28.—It is said to be practically settled that Hon. Robert Rogers will be minister of interior in the new cabinet.

Choosing Borden's Cabinet. Ottawa, Sept. 28.—Sir James Whitney, Hon. Frank Cochrane and Hon. Robert Rogers appeared on the scene yesterday to confer with R. L. Borden in regard to the new crew for the Canadian ship of state. Sir James arrived in the afternoon from Toronto and Hon. Mr. Cochrane and Hon. Robert Rogers earlier in the day.

Clearing Up Accumulated Business. Hon. William Templeman returned today to the capital from Victoria and Hon. Frank Oliver is expected tomorrow. The members of the government continued the work of clearing up arrears of departmental business preparatory to stepping out on Wednesday next. The installation of the new cabinet will probably be completed by the following Thursday.

Provincial Boundaries Early Question.

Toronto, Sept. 29.—Mr. Borden called in his friends from Ontario to discuss with them his future. Premier Whitney, Attorney General Foy and Minister of Mines Cochrane are in Ottawa talking over the situation. With them are Premier Roblin and Minister of Public Works Rogers, of Manitoba. This looks as if Hon. Frank Cochrane, who managed Mr. Borden's campaign in Ontario, will be taken into Mr. Borden's cabinet. It is believed that the question of Manitoba's boundaries will be taken up at the earliest possible date. In the extension of Manitoba's boundary, Ontario will also be concerned, for both provinces desire ports on the Hudson Bay. The Premier proposes to extend Ontario's boundary to Hudson Bay and James Bay, from Albany Bay to the mouth of the Nelson river, where there is a natural harbor. Manitoba would be extended north, taking in the long slice of the district of Keewatin and securing Fort Churchill, at the mouth of the Churchill river.

Dr. Roche Merely Laughed. Winnipeg, Sept. 29.—The Telegram's Ottawa correspondent wires: Dr. Roche, who is freely mentioned for cabinet honors, has been mentioned in the Telegram's Ottawa correspondent's western tour, laughed when informed that several eastern papers had slated him for the speaking part.

Late last evening Sir James Whitney stated definitely that he had no intention of joining the Borden cabinet.

The Telegram, however, is pulling strings for Hon. Robert Rogers.

Escaped the Eagle's Clutch.

Montreal, Sept. 29.—Mr. G. Graham, proprietor of the Montreal Star, received the following cablegram from Baroness Macdonald, in London: "Please publish this: My warm thanks and love to my fellowcountrymen, Conservatives and Liberals alike, who have scored this magnificent victory. May God bless and prosper our beloved empire."—Baroness Macdonald of Banffshire, Brighton.

May Turn Down Rogers.

Toronto, Sept. 29.—An Ottawa correspondent says there is a growing feeling there that Hon. Robert Rogers will not enter the Dominion cabinet, but will step aside to let Dr. Roche become minister of the interior.

DOUBLE DROWNING IN THE FRASER RIVER

Two Young Men From Indiana Lose Their Lives in Rapids on Way to Peace River—Remains Brought to Edmonton.

(From Saturday's Daily.)
Details of the double drowning in the Fraser river of two young men bound for the Peace River country have reached the city only with the bodies of the victims, said C. Adam, of Columbia City, Indiana, and Albert C. Jenkinson, of Crawfordville, Indiana. The bodies have been received from the west by Connelly & McKinley and are now being prepared for shipment to Indiana.

Adam and Jenkinson left Edmonton on July 28th by G. T. P. for the west, bound for the Peace River country, where they intended to take up land. They went as far west as the Tete Jaune Cache and then took canoe down the Fraser river on August 10th. On a rapid not more than half a mile from the landing, where they launched their canoe, the frail craft upset and both young men were drowned. The body of Adam was found on September 8th, and the body of Jenkinson on September 24th.

Adam and Jenkinson were both about 25 years of age. J. M. Fullenwider, of Indiana, has come to Edmonton to take charge of the remains for the families of the two men. The bodies will be sent south over the C. P. on Monday.

Fell 500 Feet; Only Brained.

Wallace, Idaho, Sept. 27.—Although Adolph Wolf, a miner, fell nearly 500 feet down a shaft in the Hunter mine, near Millan, physicians at the Wallace Hospital today said he would be back at work in three days. No bones were broken, and the only injuries he sustained were several deep cuts and bruises.
