Last Night's Heavy Storm

The storm of yesterday afternoon and last night was one of the fiercest experienced in this city at this particular season of the year, for some time past. Shortly before 2 p.m. the wind which blew strongly from the S. W. veered suddenly to the N. W. and before 4 o'clock a hurricane was raging and continued until this morning. As a result few people ventured abroad last night, and but for the policemen who did their beats the streets were deserted.

On the higher levels the wind blew with particular violence and detached houses rocked and swayed in the blast to the consternation of the inmates. From the chimneys burning pieces of soot flew in all directions, and the dwellers of that section of the city were very nervous and fearful of an outbreak of fire. With the force of the gale flagpoles blew down in several places, telephone poles broke, the wires tangled and chimneys on several houses were partially demolished, the bricks in striking the roofs doing considerable damage. The fell and part of the woodwork covering the roof of Mr. Hoskins house, on Gilbert Street, was torn off by the wind during the afternoon, and the owner and neighbors were engaged for some time trying to make good the damage.

At Hayward Avenue an outbreak of fire was barely averted. The top having blown off the chimney in a residence, the woman of the house could not keep in a fire, and lit an oil stove which blazed up and had to be thrown out in the street to prevent danger to the house.

Eight panes of glass were blown out in the windows of the Eastern Fire Station, and two in those of the Central Department. Barns in some cases, in the suburbs, were unroofed and 27 feet of the roof of the Rennie Baking Co. building on Long Point Road was tipped off and blown a considerable distance away. Several carpenters were engaged all the afternoon in effecting repairs, and owing to the hurricane which raged they worked under the greatest difficulty. A plate glass window in the front of Mr. E. Berrigan's shop at the head of Theatre Hill, worth about \$50, was blown in as well as glass in Dr. Macpherson's surgery, Mr. W. Martin's residence, Monkstown Road, and several other places. Glasses were hurled into the street last night from the roofs of several of the old style buildings on Water Street West, and several also were torn off the roof of the Congregational Church and blown to a distance of 50 feet. Intense frost prevailed and the people in the poorer quarters of the city suffered much from the cold.

Died at Montreal.

James E. Rendell, son of the late Hon. Stephen Rendell, died suddenly at Montreal yesterday morning. A message to this effect was received by his relatives yesterday evening. Deceased conducted a prosperous business as a commission merchant and had been in Montreal about 30 years. His brothers are A. S. Rendell, R. G. Rendell and Dr. Rendell of this city. He married a Miss Cliff, sister of J. A. Cliff, of this city, late Minister of Agriculture and Mines.

Lying on the Street.

At 9 o'clock last night a lady passing up Victoria Street found a man lying in the drain there, and despite the storm, fearing he would perish from cold and exposure, she turned back and went to Water Street where she apprised Const. Power of what she had seen. He accompanied the lady and found the man overcome with liquor lying in the drain. The officer procured a sleigh and drove him to the station. He was almost frozen with the cold, was looked after in the station and came to when he spent a while in the heat of the cells.

McMurdo's Store News

SATURDAY, Jan. 21, 1911. McMurdo's Extract of Malt and Cod Liver Oil is of peculiar value in the treatment of children's coughs at this season. The Cod Liver Oil is so intimately and skilfully combined with the Malt Extract as to be quite easily taken and digested by those who cannot touch the pure oil. Malt Extract itself is one of the most successful expectorants and strengthens the stomach and the whole system. Its combination with Cod Liver Oil naturally makes its value very much greater. If you have a weakly or delicate child we can recommend nothing better for him. Large bottles, 90c.

Fear Aylesworth's Statements.

Special Evening Telegram. OTTAWA, This Morning. Apparently a number of members of Parliament fear Aylesworth's intemperate statements and concessions granted to the United States in settlement of differences between that country and Canada over the regulations of the North Atlantic fisheries. One of the staunchest supporters of the Government appeared to believe that United States fishermen have been enabled to catch salmon throughout the year and to take mackerel in their traps. Neither of these privileges were enjoyed by Canadian citizens. Vylogie asked the Minister of Fisheries whether there would be any season during which fishing with cod or herring traps would be forbidden; whether any precise length for leaders or nets to force fish into traps had been fixed. He pointed out that under the law there was a close season for salmon fishing and that mackerel traps were practically prohibited. If United States fishermen were allowed to set cod or herring traps one thousand yards from the shore without license, and close to the shore after procuring licenses, they would be able to take salmon all the year round; moreover, they would be able to secure fishing berths and catch mackerel in traps, a privilege denied Canadians.

The States fishermen would in future enjoy the privilege of landing for purposes of fixing their leaders, although they had never done so in the past. Brodeur replied there would be no change in the regulations governing salmon fishing and it would still be unlawful to take these fish during the close season. He said that the States had claimed their citizens had the right of fishing in the Gulf of St. Lawrence waters absolutely without licenses.

Nerves Were Exhausted

Wants others to know of her remarkable cure by use of DR. CHASE'S NERVE FOOD. Mrs. Martin's condition as described in her letter below gives some idea of the extraordinary reconstructive power of Dr. Chase's Nerve Food. Such a cure as this have pleased Dr. Chase's Nerve Food where it stands today as the most popular and most effective nerve restorative that money will buy.

Mrs. Edwin Martin, Ayr's Cliff, Que., writes: "Before I began using Dr. A. W. Chase's Nerve Food I was in a terrible condition. Dizzy spells would come over me and I would fall to the floor in a faint. I could not even sweep the floor without fainting and my nervous system seemed to be entirely exhausted."

"The use of Dr. A. W. Chase's Nerve Food has built up my system wonderfully so that I can do my housework and walking without any trouble, and I want others to know about it." Dr. Chase's Nerve Food, 50 cts. a box, 6 boxes for \$2.50, at all dealers, or Edmanson, Bates & Co., Toronto.

Shannahan and Tucker

Suggest a Torchlight Procession on the Arrival of the Ladders. "Tim, says Tucker, we have had our snuggles about one thing or the other in the papers. 'Tis the winter sport of those who have grown too stiff to skate, and 'tis just as well to be arguing about Doctors as the Land-fall of Cabot. One is just about as much good to the general public as the other. The general public is a strange make-up, you may think that it is cracking his neck over you, but draw a little closer and you'll discover there's no one bothering their heads about you. As the Chronicle man said, people take themselves too seriously, and mind you there's a lot in that, a lot indeed."

"Well, Tim," says Tucker, "I see were going to have the ladders for the firemen this time in earnest. Two years ago they told us they were on the way; they took a long time, but I suppose 'better late than never.'"

"Do you know," says Mrs. Tucker, "I am longing to see one of the old-time torchlight processions we used to have long ago, and I'd delight to hear a grand oration like we used to hear. In fact I'd be delighted to see someone or something getting hauled with ropes; 'tis shocking, lonesome around here lately. Why it seems as if the life was gone out of everyone. Do you know, I think we're getting a cold-hearted, indifferent people. There's no life in the crowd. Why."

"That's a great fuss they're kicking up in the papers, now," says Delaney. "I was up to a house last night and the children were playing the game, which side will you have for X's. One of the children said, let us have a change, and taking up one of the evening papers she said: Now, Willie, you take Dr. Brehm and I'll take Mr. Mulally, and see who'll get the most names? Willie found the Dr.'s name in 16 different places, but the Councilor knocked him all hollow, his was prominent in 19."

"Well," said Mrs. Tucker, "with this southerly wind we can look forward to a blow off and a shut off of that new disease that is very prevalent, and known as Notoriety. Every"

Another Fire Alarm.

Shortly before 11 o'clock last night an alarm of fire was sent in from box 228, bringing the East and Central men to the residence of Mr. Mitchell, on Spencer Street. Some fire fell from the grate in the parlor setting fire to the carpet, and a lad named Mercer in passing by discovered it and turned in the alarm. A hurricane of wind blew from the N. W. and it would have been a bad night for a big blast. On arrival the firemen got the chemical on the blaze and quickly quenched it but not before the carpet and the furniture had been considerably damaged.

S.A. Farewell Meeting.

Adj. and Mrs. Bristow, who have been stationed at the Salvation Army Citadel Corps, New Gower Street, will be conducting their farewell meetings to-morrow, Sunday. They have been in charge of No. 1 Corps for the past eighteen months. Mrs. Bristow (nee Ensign Mercer) having previously held the position of Principal at the Central Training College for a number of years. During the past two weeks over thirty seekers have been forward at the revival meetings being held there.

THE OLDEST YET.—The coldest snap ever felt at Bishop's Falls was that of Tuesday night, when the thermometer went down to 23° degrees below zero. Men working at a coffer dam down in the Exploits River for the A. E. Read Co. had to quit work, and a brakeman named Foley, on one of the trains, had his feet badly frostbitten while asleep in a car.

MINARD'S LINIMENT CURES GAR-GET IN COWS.

Here is a Real Dyspepsia Cure.

No Indigestion, Gas, Heartburn or Headache five minutes later. The question as to how long you are going to continue a sufferer from Indigestion, Dyspepsia or out-of-order Stomach is merely a matter of how soon you begin taking some Diapepsin. If your Stomach is lacking in digestive power, why not help the stomach to do its work, not with drastic drugs, but a re-enforcement of digestive agents, such as are naturally at work in the stomach. People with weak Stomachs should take a little Diapepsin occasionally, and there will be no more Indigestion, no feeling like a lump of lead in the stomach, no heartburn, Sour risings, Gas on Stomach or Belching of undigested food, Headaches, Dizziness or Sick Stomach, and, besides, what you eat will not ferment and poison your breath with nauseous odors. All these symptoms resulting from a sour, out-of-order stomach and dyspepsia are generally relieved in five minutes after taking a little Diapepsin. Go to your drugist and get a 50-cent case of Pape's Diapepsin now, and you will always go to the table with a hearty appetite, and what you eat will taste good, because your stomach and intestines will be clean and fresh, and you will know there are not going to be any more bad nights and miserable days for you. They freshen you and make you feel life is worth living.

Rough Up Country.

The R. N. Co.'s people report the weather extra severe along the line of rail to-day. Strong winds prevail at the different stations, and the snow fall from the Gulf Topalls down to Badger Brook, has been the heaviest for some years, the Humber is frozen solidly, and the vessels seeking a completion of the herring voyage, have to stand far out in the Arm to escape the icy features of J. Frost, who works independent of any Hague Tribunal.

FEW OUT FROM THE COUNTRY.

—Although a day of purchases and general business very few people are out from the country, evidently fearing the warmer solitudes of the home fire to the cold turmoil of the city.
