PEKING, Feb. 21.
China has turned accuser in the Russo-Chinese international controversy over the alleged Treaty violations, and contends that the reply formulated in answer to the Russian ultimatum has become public despite the effort of the Government to keep it secret. The reply points out that the granting of the Russian demand, gives the Muscovite Empire a trading monopoly in Mongolia and the adjacent country.

WASHINGTON, Feb. 21.
The Naval appropriation bill was considered in the House at last night's session. Practically all the provisions were agreed to with the exception of the new building programme, which comes up to-day. This bill provides for two battleships of the super-dreadnought type, 2 colliers, 8 torpedo boat destroyers and 4 submarines.

Mr. M. F. Carroll is due here from British Columbia in a week or ten days. He will engage about fifty experienced and reliable men to go to whaling stations in British Columbia, about March 10th. This is considered a good opportunity for married men as the Company is building houses near the stations which will be obtainable rent free to permanent employees. Only first class, sober men, who will be content to remain for some time need apply. Letters of enquiry and application may be addressed to M. F. CARROLL, care Harvey & Co., Feb. 20, 31.

Getting Ready for Imperial Conference.

Special to Evening Telegram.
LONDON, This morning.
The Government has issued the correspondence between the Home Government and the Overseas Dominions regarding the Imperial Conference. New Zealand suggests an Imperial Council with representatives from all parts of the Empire, a Secretary of State for the Colonies, separate departments for the Dominions and for the Crown Colonies, and also proposes that the High Commissioners shall be raised to the status of Ambassadors. South Africa proposes that in regard to the self-governing dominions, all questions be placed directly under the Premier. Australia raises the question of the Declaration of London, expresses regret that the Colonies were not consulted, and opposes the provisions affecting food supply and destruction of neutral vessels. A number of other questions will be discussed, one is the All Red State cable with a line across Canada. Newfoundland proposes a line of steamers subsidized by self, Britain and Canada, to link up the three countries. Another topic will be an Imperial Court of Appeals. Australia suggesting Overseas representation.

NEW YORK, This morning.
American and Irish-American Societies of New York held a protest meeting last night against the proposed Arbitration Treaty between the States and Britain. "In the words of Washington," said a speaker, "so far as we have already formed arrangements, let them be fulfilled in good faith. Here stop." Resolutions in opposition to the proposed treaty were passed.

Indigestion & Dyspepsia

In all its Forms can be Cured.
It is quite a daily occurrence to hear persons say: Oh, what a feeling of distress I have after meals, fullness of the stomach, heaviness and headache. I feel too tired to do anything, I have no heart to exert myself and at times I care for nothing. I often have a pain in the pit of my stomach, no appetite, my heart beats rapidly on the slightest exertion. I feel just as tired when rising in the morning as when retiring to bed. My sleep is often disturbed and I often awake with a sense of suffocation and a difficulty of again going to sleep. I have to be careful of what I eat, and my life seems a veritable burden.

Now, it seems a shame and a pity for persons to be suffering like that when it is in their power to get cured by taking a Bottle of Dr. Stafford's Prescription A. A sure cure for persons afflicted with stomach troubles. It can be obtained at

Hr. Grace Notes.

J. W. Mitchell, Esq., the popular inspector of the Government telegraph line, was in town on Friday on his usual visit of inspection.

Saturday's rain caused the walking to be very bad during the evening and night. The police were very particular to have the snow kept off the sidewalks, which was a very wise thing to do; but if they would go a step further and compel some persons to clear the snow at the cross roads opposite the different fire-bricks, pedestrians would be much more pleased. Crossing Bannerman, LeMarchant and Cochrane Streets on Saturday night the snow and water were in some places 10 to 12 inches deep.

The 2 o'clock train on Saturday was delayed owing to an accident to the express, and did not reach here until after 7 o'clock. The express arrived at 1 o'clock Sunday morning.

A grocer in sounding the praises of a certain brand of flour apparently went a step too far when he said to a prospective customer: "We are using that flour ourselves, and the more the girl takes out of the barrel the more is left in it." Good family flour, that!

Great preparations are being made for the Knights of Columbus "At Home," which is to take place in the Academy Hall to-morrow night. The employees of the United Towns Electric Co. are installing some extra lights for the occasion and otherwise decorating the hall. Nothing is being left undone so as to make the affair what it certainly will be—a grand success.

The directors of the United Towns Electric Company held their annual meeting at Carbonear last week and from what we can hear the company had a very successful year. This company since its formation has given every satisfaction to its patrons, and the steady uninterrupted light that is given is a source of satisfaction. The telephone service, too, is growing, but not so fast as some would wish. They seem to be a little slow in going largely into this very convenient way of communication. We hope before long to be able to report that this company are willing to install telephones to all who wish them. We take this opportunity of congratulating this enterprising company on the success of last year's work and to wish them increased success this year.

Mr. H. H. Archibald and Mr. Norman Munn, Sr., will leave by to-morrow's express, the former for Boston and other American cities on business in connection with his growing trade here, and the latter for Canada, also on business. We wish these gentlemen a pleasant trip.

Loading Herring.

By the Bruce express we learn that herring are now scarce at Bay of Islands. When the express was coming through Bay of Islands there were a number of cars of frozen herring at Birch Cove for Port aux Basques. The schr. St. Helena, owned by Mr. Pike, has a half cargo on board at Port aux Basques and two more car-loads will fill her. Capt. Ross's vessel is also there with a part cargo, and both vessels should get away to market this week.

Dangerous Pastime.

Yesterday afternoon boys could be seen ferrying themselves down the harbour on pans of ice. This is dangerous when the ice is not thick as at any time such pans may break up and those on them be drowned. One boy yesterday might have gone out the Narrows but that a boat from Pitt's premises put out and took him off the pan.

WHY DAN MCGEE GIVES ADVICE.

DODD'S KIDNEY PILLS QUICKLY CURED HIS BACKACHE AND LUMBAGO.

Well known Nova Scotia man rescued from the clutches of Kidney Disease tells others to use Dodd's Kidney Pills.
James River, Antigonish Co., N. S., Feb. 20. (Special).—Suffering from Backache, with eyes puffed and swollen, and occasional attacks of Lumbago helping to make his life miserable, Dan McGee, a well known resident of this place, turned to Dodd's Kidney Pills and is to-day a strong, healthy man once more. It is hardly to be wondered at that he says:

"I advise all persons suffering with Backache or Lumbago to use Dodd's Kidney Pills."
Mr. McGee realized from his symptoms that Kidney Disease was claiming him for his own. For two months he waited, like many another, for it to go away of its own accord. It didn't. It simply got worse. Then he turned to the natural cure, Dodd's Kidney Pills, and the disease vanished because it had to. No case of Kidney Disease can stand before Dodd's Kidney Pills. They always cure.

Rheumatism, Lumbago, Dropsy, Diabetes and Bright's Disease are some of the deadly results of diseased Kidneys. You can safeguard yourself against any or all of them by using Dodd's Kidney Pills.

CURLIANA.

The contest in the Curling Rink for the Syme Medal concluded yesterday, and was won by Dr. Murphy who scored 25 points. The winner was congratulated heartily by several old-time curlers, and Mr. Syme was commended for keeping up interest in the game by putting up such a handsome trophy.

Going to Bell Island.

A crowd of men came in here by the Bruce express last night. The men will travel to Bell Island to-morrow to try to secure work in the mines, and they say that a number of others will arrive here shortly, some to go to the Island and others, if possible, to secure berths for the seal fishery.

Boy Swallows Trigger

Passengers who arrived by last night's express, who travelled from Covey Arm Lumber camps, at White Bay, report that the winter had been the hardest for 20 years. The mercury was down to 25 below zero for ten consecutive days, and was down to 20 for over two weeks. Men in the woods had to abandon work as flesh and blood could not stand the severe frost. A three year old boy, son of Kenneth Lush, came near being choked to death a few days ago by swallowing the trigger of a pistol. It slipped down his throat and he was choking when his father put his finger down and pulled up the iron. The boy had turned black in the face and gave his father a terrible fright.

'IT PAYS for ITSELF!'

That's what the housewife said when she had used

The "March" SEWING MACHINE

FOR A WEEK, PAYING ONLY ONE Dollar DOWN AND One Dollar a Week AFTER.

There was a reason for her enthusiasm. "The March" is the newest, most up-to-date sewing machine on the market, and for the marvellous results in lightning needlework that it gives, it's the Cheapest.

"The March" is a Sewing Machine of unusual merit. Manufactured and guaranteed by a Company having nearly fifty years' experience in making Sewing Machines. Over one million machines of the Company's make have been produced and are in use.

The mechanical construction of this machine is on such perfect lines that Durability, Ease of Running and Quiet are its dominating features. The sewing qualities of the machine

are perfect. It will sew from one thickness of muslin to six thicknesses of heavy full cloth without breaking the thread. The thread cannot be broken, even though the machine be turned in the wrong direction. This is an entirely new feature in shuttle sewing machines and adds much to the comfort and pleasure of sewing.

The Upper Tension works automatically and never fails to give a uniform tension on all kinds of thread, cotton, silk or linen, producing a smooth, even seam, and is provided with the only practical thread release.

The Feed is positive in its movements; the stitch can be made long

or short without affecting the tension, and can be turned off entirely when desired—a valuable feature.

The needle is self-setting and can be fastened in position without the use of a screw driver. The machine is self-threading at every point except the eye of the needle, and many other good points too numerous to mention.

Prices for "MARCH" range from \$15.00 up to \$35.00. Other machines from \$8.50 up. Then why pay such high prices when you can get such high-class machines at such low prices and on such easy terms. We invite inspection of same. All enquiries will be cheerfully answered.
