## 12,000 PIECES of Enamelware Just Opened.

Last week we received two large shipments of First-Class ENAMELWARE; each shipment from a different factory. This Enamelware is, without doubt, some of the best we have ever handled. The colorings are perfect, while the enamel is regular throughout; will not rust, and is perfectly free from any poisonous finishing. All the weak or inferior points found in enamel in the past have been remedied. Granite or Enamel is the ideal kitchen cooking ware. Because of the smooth surface and its light weight it is easy to clean and handle. Below we give you some idea of the many different articles for everyday use:

Good cakes—the kind that are best for the children—are those baked at home and raised with "Paisley Flour." Best because they are light, wholesome, and digestible, and because mothers can see that all the ingredients are clean and sound. Economy also results from home baking with "Paisley Flour." It costs less than buying from the baker, and much less than cake and bun flours.
