

## Prospero Off.

S.S. Prospero, Capt. A. Koan, today for northern ports, taking freight and these passengers: Pte Randall; Messrs. Wells, W. Livingstone, J. Pey-Dewling, D. Clancy, J. W. Lewis, J. Long, N. Hiscock, G. J. Davis, W. Rowell, J. W. Ryan, Fr. O'Dwyer, A. Michael, J. C. Norris, Rev. Barrett, Misses Bond, Redmond, (2), Curtis, Clarke, Gullage, Seely, Parsons, Thistle, Young, B. Barter, Brown, Scott, McElynn, Field, Parsons; Messrs. Bond, Yetman, Parsons, Clarke, Hayward, Stone, Hull, Hall, Sexton, Hann, Young, Belbin, Vincent, Clarke, Whitehorn and daughter.

## In Memoriam.

## JAMES CARROLL.

James Carroll, the death of the Reaper, is the death of a man who has been busy in the Great Beyond some of the best citizens. This is particularly true of James Carroll, who up to his age had been Treasurer of the Sea Association, a member of years as well as the founders and Vice-President thereof. The subject of this was born at Holyrood in 1860, and there on the 30th of August, aged 57 years. In early life he was the avocation of fisherman. Later he emigrated to the United States where he engaged in carpentry. In later years he returned to Newfoundland and entered on a career in the great activity and success of the day of his death, having been a large trade and leaving a large estate to be developed still by his two active and energetic sons. Mr. Carroll took a prominent part in the public life of our island, always the leading figure in social, school and church organizations. To January last he possessed a health, but alarming symptoms led him then to seek treatment in hospital, and he returned from that institution. He was the treatment of some of the best skill of the city, but all efforts were fruitless to arrest the progress of the fatal malady. Rev. W. W. Gowan, in constant attendance on him, and fortunately happened at the moment when the death was hovering over the departed. The funeral appointments were arranged by Undertaker Dunphy and the remains enclosed in a polished oak casket. The funeral place on Saturday morning, late home to Holy Cross where High Mass of Requiem was said for his soul was sung by P. Finn. The Star of the Sea, of which he was one of the members, attended in procession and together with a number of citizens made up a large cortege. When the last solemn and the funeral service were completed, the procession returned to the cemetery where under the old cross the body of a good and devoted citizen, and an honored member was laid to rest, surrounded by many friends. To the bereaved sons and daughter we extend our heartfelt sympathy and pray that Almighty God have mercy on the soul of their dear departed.

## Unknown Canadian

But what most engaging attention were the scattered, which Vimy Ridge. Wherever a cross marked the place of one of his soldiers, he always went to inspect the grave. "To an Unknown Soldier," especially, he stood before the grave well tended and flowers rising to wreath the cross. "It is hard to know," he said; "the knowledge of every one of our men once he expressed the care of the careful and the which our dead are in which all possible data are preserved."

## And There.

SAVED GOODS.—The housewife having on the shelves goods from the crisis at hand reached port.

Thoratone Cough and Coughs. This is Asthma and Lung Trouble. Price 50c extra.

## STURMER DEAD.

PETROGRAD, Sept. 4. Boris Vladimirovitch Sturmer, former Premier and Foreign Minister, died yesterday.

## RUSSIAN SITUATION BAD.

LONDON, Sept. 4. The Petrograd correspondent of the Times, in a despatch dated Sunday, views the internal situation pessimistically. "The Government," he says, "is still dominated by irresponsible forces. General Korniloff has been obliged to take personal measures to victual the army and has ordered forcible application of cereals from peasants within the war zones and is negotiating with the railway men with a view to satisfying their just grievances. His programme of army reforms is still in suspense."

## CLAIM 300 SUBS.

CHRISTIANIA, Sept. 4. The Copenhagen correspondent of the Tidings Tegn reports that the number of German submarines is now three hundred.

## GERMANY SHORT OF COAL.

LONDON, Sept. 4. The London Times says there is great anxiety in Germany about the winter coal supply. The coal controller admits an actual coal shortage. The army is unable to release enough miners.

## ALLIES TO REVISE PLANS.

WASHINGTON, Sept. 4. Word has reached Washington from Paris through official channels yesterday, that the Entente Allies will soon hold an important military conference for the purpose of re-canvasing the situation on account of the disasters that have befallen the Russian armies on the Riga and Galician fronts and in the drive of the Germans against the Rumanian front. These reverses and the subsequent success of the Italian offensive are expected to bring about a complete revision of the Entente military plans for the fall and winter months.

## HUGE AUSTRIAN LOSSES.

WASHINGTON, Sept. 4. German reinforcements rushed to the aid of the Austrians on the Italian front are being pushed back, according to official despatches received here from Rome. Unofficial estimates place the Austrian losses during the present Italian offensive at 128,500.

## WILL BE ENFORCED.

MONTREAL, Sept. 4. Rumors that the Military Service Act would not be introduced, are described by Sir Robert Borden to a correspondent here as baseless.

## AUSTRIANS SORELY PRESSED.

GENEVA, Sept. 4. A despatch from Innsbruck says that after several appeals Field Marshal Von Hindenburg has consented to send two divisions of Bavarian troops from Russia to the Isonzo front to strengthen the Austrian defence.

## NORWEGIAN LOSSES.

LONDON, Sept. 4. According to Norwegian advices, twenty-one Norwegian merchant ships, with an aggregate tonnage of more than 41,000, were lost in August.

A Relishing Drink  
A Healthful Drink  
A Satisfying Drink

Always Ready—

INSTANT POSTUM

—the time it takes for hot water to reach the cup.

gust. Twenty-three seamen were killed and five are missing.

## REPLACING LOST TONNAGE.

LONDON, Sept. 4. Commenting on the rapid increase in shipbuilding to offset losses from the submarine campaign, a Cardiff correspondent of the Exchange Telegraph Company says that two supplementing ships that between June 8th and July 17th, more than one hundred steamers, of which sixty-three are British, were added to the register. Most of these vessels are of large tonnage. The rate of construction is understood to be increasing rapidly.

## MORE BLASPHEMY.

BERLIN, Sept. 4. Emperor William has sent the following telegram to the Empress: "Field Marshal Prince Leopold of Bavaria, reports the capture of Riga by our troops, which is a new milestone of German strength and unerring will to victory. May God help us further."

## OPTIMISTIC OVER IRELAND.

DUBLIN, Sept. 4. The Assembly of the Constitutional Convention for Ireland to-day at Belfast, to which the deliberations have been transferred for a time, excited great interest throughout Ireland and very favorable conclusions for the success of the Convention were drawn from it. It is felt to be a great gain that Belfast should abandon its rigid position of unwillingness to discuss Home Rule at all, and should give a cordial reception to the Convention, whose function it is to draft a constitution for the Government of Ireland.

## 107 KILLED BY RAID.

LONDON, Sept. 4. In last night's air raid 107 persons were killed and 86 wounded at Chatham, it is announced officially. The victims were naval ratings. Six airplanes took part in the raid.

## ANOTHER AIR RAID ON ENGLAND

LONDON, Sept. 4. Another air raid on England has taken place and an English coast town shelled as well as the London district. The official report of the raid says: A considerable number of enemy airplanes crossed the south-east coast at 11 o'clock Tuesday night and dropped bombs at a number of places. Some of the machines reached London district where bombs were dropped. No reports of damage have yet been received.

## SUCCESSFUL MINOR OPERATION.

Canadian Headquarters in France, via London, Sept. 4.—North of Lens a most successful minor operation was carried out early this morning which resulted in the penetration of the enemy's lines of communication trenches on a front of about 600 yards and establishing a new outpost line all in advance of those formerly occupied, and killing and wounding many of the enemy. A number of prisoners were taken belonging to the Second Guard Reserve Regiment. The result of the operation which was carried out by men of Manitoba and Alberta with little loss, is that in the region due north of Lens our outpost lines have been advanced some 250 yards nearer the city than before and is in a more favorable position for observation. While this operation was in progress another party of our men advanced eastward for a considerable distance along the enemy's communication trenches eastward, on the north of Lens. Heavy fighting by our artillery in this sector has forced the Germans to abandon the first line of the north defence and use shell holes instead. Several large explosions occurred in Lens last night and this morning.

## RUSSIAN RETIREMENT.

PETROGRAD, Sept. 4. In the direction of Riga on Monday our troops evacuated the town of Riga and blew up behind them the fortifications at the mouth of the Dvina and the bridges across the Dvina. The retirement is being continued along the coast in a north-easterly direction. Riga coast is being shelled by enemy ships in the direction of Uxkull. On Monday the Germans continued to develop their success in a northeasterly direction toward Ralenrode road. Towards the evening the enemy dislodged our troops in Great Jaeger region penetrating our positions on a front of about nine miles in the region of Ralenrode and occupying it. Our troops retiring northward following the enemy's penetrating, measures were made for a re-adjustment of our front. In the region of Miles, Rybnak and Kramen our troops failing to withstand the pressure of the enemy, are retiring in a northeasterly direction. In the direction of Dvinsk, activity of artillery is reported on the Rumanian front in the direction of Czeronwitz. In the region south of the village of Slobodasia, enemy attacks were repulsed with heavy enemy losses. There were fusillades on the remainder of the front. On the Caucasian front, rifle firing occurred.

## EVACUATING RIGA.

LONDON, Sept. 4. Reuters Petrograd correspondent says that the German attack on Riga had been anticipated for a considerable time, and that the evacuation of the principal establishments already had been proceeded with. Provision had been made to abandon the town owing to the slight resistance expected from the troops on the north-east front who, as elsewhere, are largely contaminated by the International and Maximalist propaganda. At the time of the German advance in 1915 virtually all the factories of Riga were removed to Central Russia. The offensive began on Sept. 1, with artillery preparations, commencing at 5 o'clock in the morning with asphyxiating shells and gas waves. The bombardment lasted six hours, being particularly intense in the region of Uxkull. At 11 o'clock in the morning under cover of his artillery fire, the enemy threw his first pontoons across the Dvina. Two of his bridges were destroyed by the Russian batteries. At 1 o'clock the Germans had succeeded in gaining a footing on the right bank of the river. Throughout the afternoon bitter struggles took place, the loyal element among the Russian troops constantly counter-attacking, and advancing against the enemy with their flags unfurled and singing "The Marseillaise." During the night, however, the Germans, having received reinforcements, compelled the Russians to retire to the north of the line of Uxkull. At 5 o'clock in the afternoon Riga was subjected to the fire of the German heavy artillery, which caused serious damage to the town, and numerous casualties among the remaining population. The news of the evacuation of Riga produced a great impression in Petrograd. There was considerable fall in prices on the Bourse.

## FURNACE BOAT SUNK.

NEW YORK, Sept. 4. The British steamer Roanoke, 3,755 tons gross, owned by the Furness Withy Co., Ltd., has been sunk, according to despatches received by the Line, it is learned here to-day. No details of the sinking have been received. She plied between the States and British ports. The Roanoke was built in Glasgow in 1907, and was 360 feet long. This is the second mishap to befall her this year. On Feb. 2 she was torpedoed and beached just after leaving Scotland for New York.

## THINKS TROUBLE OVER.

TORONTO, Sept. 4. "We are at the end of our troubles in Quebec," said Hon. P. E. Blondin, Postmaster General, in an interview this afternoon, when he paid a flying visit to the Canadian National Exhibition. "The agitators have had the floor, but I think we will find amity now. Quebec will express her true mind. The agitation was mainly confined to Montreal. Conscription was the only thing that could deal moderately with the situation."

## WAR ON GERMANY'S ALLIES.

WASHINGTON, Sept. 4. A statement issued by the Patriotic Education Society urges that the United States should declare war immediately upon Germany's allies, asserting that the German secret service is relying largely upon the Austrians and Bulgarians for information from this country. Asking if this is war of democracy against autocracy it says, how can we maintain friendly relations with the most despotic of the great empires, Austrian-Hungary. Instead of refraining from declaration of war against Austria in order to leave the door open for a separate peace, the Society argues that the States should take a surer

road to peace by lending full support in war materials to the great Italian drive through Gorizia.

## MUTINY ON PORTUGUESE WAR-SHIPS.

MADRID, Sept. 4. (The British Admiralty, per Wireless Press.)—Mutinies have broken out aboard some of the Portuguese warships. Many arrests have been made.

## WANTS INFORMATION.

WASHINGTON, Sept. 4. Secretary of War, Baker, by a resolution adopted in the House to-day, was called on for information regarding the sending of defective ammunition to American troops in Europe. The resolution, offered by representative McLemore of Texas, was adopted without comment. "I offered my resolution," he said, "for the following reasons: That a great outrage may be exposed; that blame may be placed where it properly belongs, and that it may be the means of preventing the recurrence of such dastardly actions, and that the American people may know the truth regarding the manufacture of ammunition for which they must pay."

## SERBIA.

LONDON, Sept. 4. The economic conditions of Serbia are deplorable and growing worse every day, according to a statement issued to-day by the Serbian Press Bureau in London. The Austrians, Germans and Bulgarians are said to have carried off all this year's harvest, which was very abundant. The inhabitants deprived of food stuffs suffer terribly. Most families have one loaf of bread a week. Meat, lard and butter and spices are not obtainable. There is virtually no milk for Serbia. Children who are dependent on the care of their parents are dying by thousands. A great number of families, whose men fell or perished in the war, are doomed to starve. Interned Serbians who are prisoners in Austria-Hungary and Bulgaria, are dying by the thousands of hunger and various diseases, according to private information.

## NO DECISION YET REACHED.

PARIS, Sept. 4. After a long session of the Cabinet to-day, at which President Poincaré presided, the announcement was made that no decision had been reached as to the reconstruction of the Cabinet, or the selection of a successor of Louis B. Malvy, who recently resigned as Minister of Interior. Premier Ribot is still holding conferences with political leaders.

## Here and There.

Turkeys, Ducks and Chicken at ELLIS.

HERE WITH BRICKS.—The schr. Demerling is now at the new wharf of the cold storage plant, discharging a cargo of red brick from Smith's brick yard, Smith's Sound, T.B.

Stafford's Prescription "A" is the best preparation you can take for Indigestion, Dyspepsia, Catarrh, Gastritis and Nervous Dyspepsia. Price 25 and 50c. bot. Postage 5 and 10c. extra.

PACKING FROZEN FISH FOR OVERSEAS.—All the employees of the new fresh fish plant in the West End are busy weighing and packing frozen cod which is shortly to be shipped overseas. Owing to all available space being occupied for that purpose, the company could not take new fish offered for sale by the local fishermen to-day.

Championship Baseball, Wednesday, at 2.30, B. I. S. vs. Wanderers; Cubs vs. Red Lions; Double Header. Gate, 10c. cents.

EXPECT BIG PRICE FOR HERBING.—We learn from persons who recently arrived from Pilley's Island that great preparations are being made to handle the fall and winter herring catch. From three to five dollars per barrel, and judging from the prices given for Newfoundland Scotch cured at present in the American market, it looks as if their hopes may be realized.
