IMMIGRATION FROM STATES TO CANADA  
Manufacturing Concern Threatens to Withhold Shipments of  
Threshers and Implements Because of Story Published  
in a Cleveland Newspaper

Winnipeg, June 25.—For reasons that are growing more obvious daily, the wheat crop in Western Canada are becoming active again in the United States, and in the past week two state-wide and grossly untrue statements have been carried to American newspapers regarding crop conditions in the west, particularly Manitoba and Saskatchewan. So unfairly do the articles in question misrepresent the true conditions that the immigration authorities have been obliged to avoid a serious investigation in order to avoid a serious investigation in the west through the United States State Department.

Immediately on being notified of the publication of the articles and its consequent effect on the immigration company, J. Bruce Walker, commissioner of immigration, commenced a series of investigations. He has found that none of the local telegraph companies wire any dispatches to the United States, and that the only ones quoted in any part of the United States.

The fact that they influenced manufacturers is clearly demonstrated by a letter received by the Canadian Bank of Commerce in Winnipeg from the Cleveland, Ohio, threatening to cancel all orders for threshers in Manitoba and Saskatchewan. This company, however, has written and the immigration authorities have been assured that the true conditions prevailing in the west.

The letter received by the bank reads as follows: "Gentlemen:—The article in yesterday's Cleveland Plain Dealer in which we are vitally interested (see enclosure) in view of the fact that we have a large number of threshers in order for farmers and if the report is true, we, of course, should hesitate about filling the orders. Very sincerely yours, J. Bruce Walker, Commissioner of Immigration."

Mr. Walker is continuing his investigation into the origin of the lying statements and will bring the matter to a head in a few days. The printer of the article is a "dispatch" that appeared in the Cleveland Plain Dealer of June 13, 1913, and reads as follows: "Son Burns Province, Winnipeg, Man., June 12.—Manitoba and Saskatchewan are not only burning up under the intense heat that has prevailed the past few days. Unofficial reports from the southern part of these

two provinces say that the drought may have a deleterious effect on the wheat crop unless rain comes soon. The thermometer at Winnipeg registered 109 and 103 at many points. There has been practically no rain in the province since June 10.

Personally Conducted  
Tour of Europe for  
Sale at Actual Cost

The News-Telegram has two extra trips to Europe which will be sold at actual cost in order to complete the party of 26, which will assemble at Winnipeg on July 7, and tour the seven great countries of the old world under direction of the Thos. Cook & Son Tour Agency.

Twenty-eight members of the party are already provided for, through the circulation campaign conducted by The Regina Province, The Brandon News and The News-Telegram.

In order to insure the special standard sleeping car from Winnipeg to Montreal and return, and the services of a special "tour conductor" on the continent, it is necessary that the party number 30 members.

The offer of the two memberships in the tour party constitutes an opportunity which will not come again. To make the same tour covered by this schedule would cost from \$100 to \$200 more than the party rate the person were to go alone.

The steamer reservations for the News-Telegram party were made three months ago. At that time outside staterooms were secured for the entire party, on the splendidly appointed Allan Line steamer "Scandinavian." European travel is so heavy this season that outside rooms are not to be secured at this time. In fact, it is difficult to secure cabin accommodation of any kind at this late date.

The News-Telegram will charge a flat rate for the two available tours, which will be inclusive of all charges and expenses of the journey. This will provide for:

- 1. One first-class railroad ticket from Calgary to Montreal and return.
- 2. One first-class sleeping car, Calgary to Montreal and return.
- 3. Allowance of 43 per cent in dining car from Calgary to Montreal and return.
- 4. Outside stateroom on steamer from Montreal to Glasgow going west, and back from Glasgow to Montreal.
- 5. Baggage allowance of 66 pounds, to be checked by tour conductor in Europe, and suitcases to be carried as hand baggage.
- 6. Three meals per day on steamers.
- 7. Three meals per day at European hotels.
- 8. Convenient and comfortable journeys from point to point on tour, and sleeping car berth in Europe when traveling by night.
- 9. Services of an experienced and efficient tour conductor.
- 10. Free carriages for all sight-seeing excursions, local guides and care for luggage in all of the principal cities, and special agents to care for arrangements for the prompt delivery of all mail addressed to members of the party en route.
- 11. The schedule of the party covers Scotland, England, France, Germany, Holland, Belgium and Switzerland.

JAPANESE NEWSPAPERS REPORT  
AGUINALDO IS NOW IN TOKYO

DON EMILIO AGUINALDO

Japanese newspapers report the arrival in Tokyo of Emilio Aguinaldo, one-time Filipino revolutionary leader, and suggest that the object of his trip is to hold a secret conference with the Japanese government regarding the independence of the Philippine Islands.

Intellectual benefit one received, such study would do much to cure what a real reproach to modern England. Nothing was more appalling to one who studied the stories of our language than the increasingly slipshod way in which it was used by the majority of people now-a-days. A splendid vocabulary was narrowed down almost to the number of words used by savage tribes; the beautiful music of the words was too often marred by slovenly clipping and slurring.

Some stupid piece of slang was used to express a dozen meanings. He was no enemy of slang—expressive, virile slang used in the right way—but when slang was merely the lazy substitute for choosing the appropriate word it was rotten—(laughter)—using "rotten" in the appropriate sense.

Electricity the Greatest  
Doctor on Earth

Nature is the greatest doctor on earth. When she can't cure it is because she needs aid. Now most people have an idea that this aid is drugs, and being made for many new and dose their stomachs with the stuff that is sold for medicine. This does help any; in fact, it does a great deal of harm. The doctor that you need is Nature. The large Horse Show building in Victoria Park has been secured for the two days' show August 13 and 14, and arrangements are being made for many new and novel features of attraction. Special attention has been given to garden competition. This year many valuable money prizes, cups and medals have been offered.

LIBERALS IN FAVOR AT THE  
VATICAN IN ROME.

Removal of Merry, Del Val, Head of the Conservative Party, Rumored  
Rome, June 25.—For some time past reports have been current that several prominent members of the college of cardinals have determined to demand from the Pope the removal of Cardinal Merry de Val and De Lal from their present places of practical omnipotent power.

These reports emanating from circles known to be hostile to the Vatican, were first set down as mere scandals and little attention has been paid to them. Now, it seems that they are far from being unsubstantiated. The gravest of the break between the Vatican and the conservative forces of the church, Cardinal Merry de Val is the accepted leader of the latter party. Cardinal Rampolla is the leader of the Liberals. Through the visit yesterday of Cardinal Rampolla to the Pope the facts in the case were partly available and these come from sources which can be considered almost semi-official. Cardinal Rampolla and those who agree with him, hold the mantle of the Vatican in further disputes, such as those between the church and France, Portugal and Spain, and the removal of Merry de Val and De Lal have been imposed by other than the Vatican authorities (which is the suggestion coming from anti-Vatican quarters) but they do contend that if Pope Pius is expected to restore all things in Christ, Cardinals Del Val and De Lal must be superseded.

It has been proposed to the Pope to appoint either Cardinal Vannutelli or Cardinal Ferrasi as papal secretary of state. The Pope is distressed by the situation and has endeavored to reconcile the two parties, but without success. As a direct result of Cardinal Rampolla's conference with His Holiness yesterday, Cardinal Rampolla, formerly papal delegate in Washington, may be called to direct the statecraft of the Vatican. Pope Pius himself, it is said, suggested Cardinal Falconio as a compromise secretary.

MODERN RIP VAN WINKLE  
FAILED TO WAKE AT LAST

Well-known in the United States, Canada and Derbyshire as "The Sheep Man," Arthur Fitzgerald Mann, aged 44, the son of a Duffield magistrate, died under peculiar circumstances related to the Bakewell case. Mann left the United States in April last, and on arriving in Derbyshire he fell asleep for a week. On recovering he started for Bakewell, but fell asleep on the road, and did not wake for five days. In America and Canada he had frequent sleeping attacks which lasted for a week, and the doctor's efforts to rouse him were futile.

He was lately found on the bank of the River Lathkill in a wet and unconscious condition, and taken to the Bakewell Workhouse infirmary, where he died without recovering consciousness. The medical officer was of opinion that when sitting on the bank of the Lathkill River he was seized with one of his sleeping attacks and fell into the water. The shock, said the doctor, would produce sufficient stimulus for Mann to get up and walk to the bank, where he would have been rescued.

RADICAL CHANGES TO BE  
MADE IN INCOME TAX

Incomes Over \$3,000 Will Be Taxed; Changes in Attributions Suggested  
Washington, June 25.—Radical changes in the income tax plan of the Underwood bill, and alteration of the administrative features of the measure to overcome most of the objections raised by foreign governments, were agreed upon in a tentative way yesterday by the Democratic members of the senate finance committee.

The income tax, under the new plan, would apply to individual incomes over \$3,000, but would make important exemptions for individuals, municipalities, civic bodies and other bodies, and would impose certain restrictions. Changes in the administrative section of the bill provide for a provision giving the president authority to increase tariff duties against countries that discriminate against the United States. The proposed five per cent concession on duties on goods imported from the United States, the anti-dumping clause, and the provision giving the United States authorities "inquisitorial powers," to examine books of foreign manufacturers were also under consideration. The committee made it clear today that some further changes might be made in the income tax plan, and that they are expected to stand with but little alteration until the caucus reaches them.

DEWEY PROCLAIMS FOR AN  
ADEQUATE NAVY

Washington, June 25.—An adequate navy is the only security to that of Great Britain, and "inadequacy is an invitation to war," in the opinion of Admiral Dewey, ranking naval officer of the United States. "I believe it is the duty of each generation to bear its share of the burden and to thrust its burden on the generations that come after; and the insurance for peace is a navy strong enough to compel it," says the admiral in an article written for the programs for navy day at Newport, R. I., July 2, and made public yesterday.

BRYAN WANTS TO HAVE  
TREATY WITH RUSSIA

Washington, June 25.—Responding to a suggestion made some time ago by Secretary Bryan, Secretary Bryan has informed Ambassador Balmores that he would be glad to enter into negotiations for a new treaty of trade and commerce between America and Russia. No attempt has been made actually to open negotiations as yet, and it is understood that the ambassador who has communicated Secretary Bryan's message to his government, is awaiting instructions for a new treaty of trade and commerce between America and Russia. Secretary Bryan stated today that the change had not passed beyond the expression of a tentative desire to have a new treaty, and that there had been no attempt to outline the basis of such a treaty.

Such Is Charge Made Against Victoria Capitalist Replies To  
Ivan Bizuy, in Estavan, Saskatchewan  
Payne

Winnipeg, June 25.—Major C. T. Dupont of Victoria, who claims to have the supreme court was the result of the Payne in municipal securities, started in an interview here tonight that he had a fight with a Jew and those in his clients and partners would be very contrary to the opinions which are credited to him. The first security in Canada which Mr. Payne was concerned with was that of the British Columbia Electric Railway and that he firmly believed by stating that he had no Canadian municipality not able to meet the obligations of the railway, the face of the fact that the major is long in Canada never to return, as he proposes to return to the old country to end his days.

THOMAS HARDY A POET'S  
CHOICE FOR LAUREATE

There is no nobler name among the critics of England at the present time than that of the poet, Thomas Hardy. The man who made known more of modern English literature than any other, and is perhaps the finest dramatic critic of the day. What does he think of the Laureateship? Let him speak for himself.

FREER TRADE AND MORE  
LAND TILLERS WANTED

London, June 25.—After an absence of 26 years, the Hon. George Langley, minister of municipal affairs for Saskatchewan, who emigrated to Canada in the spring of 1893, is paying a visit to London. He is investigating the possibilities of this country as a market for Canadian grain.

CHANGES AT RIDEAU HALL

Ottawa, June 25.—Changes at Rideau Hall, involving the construction of a new entrance and many other changes, will be carried out by the Peter-Lyall Construction Company. The contract figures are \$125,000. The tenders have been under consideration for some time and it is understood that the low bidder has been selected. The work is expected to be completed in the spring of five months. The contract company is being awarded to the Lyall company.

All Our Stock of Pictures  
Being Cleared at Half Price

Rather disappointing news this, for it means giving up entirely a department that has provided untold pleasure and profit to hundreds of Calgary's picture lovers.

The fact is that we cannot find room to make an adequate display of this fine collection; of sheer necessity they're crowded into about one-eighth of the space needed to show their artistic merits.

Other lines of merchandise are similarly crowded, so to relieve the congestion we've decided to display our entire stock of pictures, and that as quick as possible. It shouldn't take long, when you have unrestricted choice at half price.
