Cleveland, O., Jan. 11.-A sensation

in the affairs of the Euclid Avenue

Trust and Savings Company, which

made an assignment yesterday, was caused when the fact became known that Charles H. Stewart, secretary and treasurer of the bank, has not been

seen since Thursday and none of the

bank's officials has any information as

to his whereabouts. It is stated au-

thoritatively that Mr. Stewart's non-

appearance at the bank yesterday preciptated the assignment. The affairs of the institution have been in an embarrassing condition for two months.

The officers were anxious and when Mr. Stewart failed to appear at the

office a meeting of the officers was held and the assignment decided upon. Mr. Stewart is one of the head men

in the Everett-Moore syndicate, and

treasurer of the Sandusky Interurban Railway Company, belonging to the

syndicate. It was authoritatively stated last night that the company had overdrawn its account for a large

sum, but that the road had funds in another department of the bank which

covered the overdraft. Henry A. Everett, of the Everett.

Moore syndicate, is named as a director of the company, but the officials declare that he has never borrowed

WERE LEGALLY SUMMONED

Foint Raised Regarding the Calling Together of Members of Parliament.

The Proceeding Justified by Precedent and by Practice on the Part of Queen Victoria.

[Special to Advertiser.] Ottawa, Jan. 11 .- J. M. McDougall, K.C., has raised the point that parlia-

ment was not legally called last year on account of the proclamation summoning it being issued in the name of Queen Victoria, and before it met the Queen died and King Edward VII. reigned. Mr. McDougall is of opinion that a new proclamation should have been issued under the King's name. Hon. David Mills, than whom there is no higher constitutional authority in this country, says that parliament and therefore no new proclamation

vas summoned under the great seal was necessary. After the death of King William IV., Queen Victoria used the King's great seal for twelve months. As a matter of fact, Queen Victoria's great seal is still being used in Canada, and if there is anything in the point raised then all orders and appointments under it would Mr. Mills, therefore, does that the summoning of parliament was unconstitutional.

London Monetary Institute.

We are pleased to learn that of the many excellent and successful monetary institutions that have been organized in this city, the latest, "The Empire Accident and Surety Company," bids fair to equal, if not excel, any of its predecessors. The manager reports splendid success in the placing of its stock, not only in this city and district, but also throughout other por-tions of this province. He is daily in receipt of letters of inquiry from investors and others, from Halifax in the far east, and the territories in the far west, as to the disposing of the stock, and were it not that it is the policy of the directorate that the bulk of the present issue of stock be placed largely in the hands of Ontario investers, no difficulty would be found in placing very large blocks of the stock in the outlying provinces.

We also observe, per Stratford and St. Thomas dailies of recent date, of the appointment of Nelson Monteith, Esq., M.P.P., of Stratford, and Dr. Lawrence, of St. Thomas, to positions on the board of directors. We must congratulate our fellow-townsmen who are on the directorate in having associated with them gentlemen of such indoubted ability and influence.

It is quite evident from the rapid strides made since its inception that to this city of a new enterprise such and decay by health and as this being the only one of its kind west of Toronto, and having its head office in our midst, with its network of agencies operating in every city and town of the province, all centralizing in the head office here, can scarcely be estimated, and it is due the citizens of London that they should rally to its support

> Its stock must prove one of the safest, most profitable and permanent investments to be found, and investors must act promptly if they wish to secure some of it. Write at once to the manager or secretary of the company, Masonic Temple, London, Canada, for

withdrawals. The bank has liquidated F. H. STOUFER, Sec'y and Treas .. of Railway Conductors, Pueblo, Col. According to the last published statement of the bank, isued Oct. 1,

Hypnotism is no longer a myth, a fanciful creation of the mind, but a

reality, a most potent power, capable of producing infinite good. For the purpose of ascertaining the exact value of this much-talked-of power a committee composed of a physician, a well-known jurist, a prominent minister and leading railroad man was appointed to investigate hypnotism. The committee carried on a series of investigations in regard to the power of hypnotism to influence the actions and deeds of people in the every-

The first step taken by the members of the committee was to master the science in every detail, so that they might state from personal experience the good or evil this strange power might produce. They wrote to the New York Institute of Science of Rochester, N. Y., the greatest school of Hypnotism and Occult Sciences in the world, and received full and complete instructions in regard to how hypnotism may be used to influin treating diseases, etc. days they mastered these instructions and were full-fledged hypnotists.

It was clearly demonstrated that hypnotism may be employed so that the person operated upon is entirely unconscious of the fact that he is being influenced, and, all things considered, the committee regard it as the most valuable discovery of modern times. A knowledge of it is essential to one's success in life and well-being in society.

Dr. Lincoln says, after a through investigation, that he considers it the most marvelous therapeutic or curative agent of modern times.

Judge Schafter, although a legal light, turned his attention to healing the sick, and in a few treatments he completely cured John E. Myers, of Flemington, N. J., of a strange malady that had kept him bedfast for nine years, and which the doctors said must surely kill him. Judge Schafer's fame spread for miles around and hundreds of people applied to him for treatfame spread for miles around and hundreds of people applied to him for treat-

Mr. Stoufer performed the astonishing feat of hypnotizing Dr. Cunningham, of Pueblo, Col., at a distance of several blocks. He also hypnotized an aged gentleman, and had him run through the street shouting "Red-hot peanuts for sale." Mr. Stoufer says it is indispensable to one's business Rev. Paul Weller says that every minister and every mother should un-

derstand hypnotism for the benefit they can be to those with whom they are brought in daily contact. In speaking of this marvelous power. President Elliot, of Harvard College, said to the graduates: "Young gentlemen, there is a subtle power lying latent in each one of you which few of you have developed, but which when developed might make a man irresistible. It is called Personal Magnetism or Hypnotism. I advise you to master it."

The New York Institute of Science has just issued 10,000 copies of a book which fully explains all the secrets of this marvelous power, and gives explicit directions for becoming a practical hypnotist, so that you can employ the force without the knowledge of anyone. Anybody can learn. Suc-
