

PERSONAL MAGNETISM

A College Chartered Under the State Laws With a Capital of \$100,000 for the Purpose of Teaching Personal Magnetism and Hypnotism by Correspondence.

EVERYBODY MAY NOW LEARN

Ten Thousand Copies of a Valuable Work on These Sciences To Be Given Away to Advertise the College.

The American College of Sciences of Philadelphia, Pa., is a novel institution. It is chartered under state laws, with a capital of \$100,000, for the purpose of teaching Personal Magnetism, Hypnotism, Magnetic Healing, etc., by correspondence.

At an expense of over \$5,000 the college has issued a remarkable work on these sciences, ten thousand copies of which will be given away absolutely free. The book is elegantly illustrated with the most expensive engravings, and it is decidedly the finest and most comprehensive work of its kind ever published. It is the product of the combined talent of thirty distinguished hypnotic specialists and scientists. It thoroughly explains all the hidden secrets of Personal Magnetism, Hypnotism, Magnetic Healing, etc. It is full of surprising experiences, and makes many startling disclosures in regard to the use and possibilities of this secret power.

The college absolutely guarantees that anyone can learn these sciences in a few days at home, and use the power without the knowledge of his most intimate friends.

The reporter asked for the names and addresses of some of the pupils, so that he might communicate with them personally. Several hundred were offered, from which the reporter selected eighty-four. The replies received were more than sufficient to convince the most sceptical in regard to the wonderful benefits to be derived from this mighty power. There were absolutely no failures. All had learned to make practical use of the sciences. The following extracts are taken at random for the benefit of readers.

J. H. Scheller, 1412 Avon street, La Crosse, Wis., writes: "Hypnotism truly reveals the secrets of life and the mysteries of nature. My own father could not have convinced me of its wonderful power if I had not actually tested it for myself. I consider a knowledge of it invaluable to those who wish to get the most out of life; to those who wish to achieve success and live up to the full measures of their possibilities."

Mrs. Effie M. Watson, Martinsville, Ind., writes: "Hypnotism opens the road to health, happiness and prosperity. It should be studied by every one. I would not part with my knowledge of it for any amount. The instructions have developed within me a force of character and ability to influence and control people that I did not dream I could acquire."

J. W. Clinger, M.D., Springfield, O., writes: "I have used the methods of hypnotism taught by the American College of Sciences in two cases of difficult surgical operations with perfect success. It is a complete anesthetic, and preferable to chloroform or ether. I acquired a practical knowledge of hypnotism in less than three days. The book is grand."

Rev. T. W. Butler, Ph.D., Idaho City, Idaho, writes: "I have chronic cases of rheumatism, dyspepsia and paralysis of long standing; have not had a single failure; I consider a knowledge of personal magnetism invaluable. The book has greatly increased my own powers."

Dr. W. P. Kennicut, 529 State street, Binghamton, N. Y., writes: "I had long suffered from nervous prostration and dyspepsia. My case had been a medical skill. I studied hypnotism from the American College of Sciences, and tried it upon myself with surprising results. In one week my stomach was better than it had been in thirty years. I could eat anything without the slightest distress. I can hypnotize myself in five minutes and sleep all night; have hypnotized a number of others."

The first ten thousand persons who write to the American College of Sciences will receive absolutely free, the marvelous book that has brought success to the above persons. It is intensely interesting from start to finish. It should be in every home. If you want a copy write today to the American College of Sciences, Department 23, M. 416-420 Walnut street, Philadelphia, Pa., and you will receive the book by return mail.

During the last year the United States Fish Commission distributed to various waters more than 2,000,000,000 fish and eggs.

"BY MEDICINE LIFE MAY BE PROLONGED"—So wrote Shakespeare nearly three hundred years ago. It is so today. Medicine will prolong life, but be sure of the quality of the medicine. Life is prolonged by curing the body free from disease. Dr. Thomas' Electric Oil used internally will cure coughs and colds, eradicate asthma, overcome croup and give strength to the respiratory organs. Give it a trial.

Coventry, England, the center of the British bicycle industry, reports a revival of business.

"A LITTLE COLD, YOU KNOW" will become a great danger if it is allowed to reach down to the lungs to the throat. Nip the peril in the bud with Allen's Lung Balm, a sure remedy containing no opium.

In some of the farming districts of China pigs are harnessed to small wagons and made to draw them.

THEY DROVE PIMPLES AWAY—A face covered with pimples is unsightly. It tells of internal irregularities, which should long since have been corrected. The liver and the kidneys are not performing their functions in the healthy way they should, and these pimples are to let you know that the blood poisons. Parmentier's Vegetable Pills will drive them all away and will leave the skin clear and clean. Try them, and there will be another witness to their excellence.

From Halls of Learning.

Western University, March 1.

On Friday evening of last week the students of the college gave a concert at Hope Sunday school, for the benefit of the mission there. This is the second entertainment which has been given by the students at Westminster. The one they gave last year created such a favorable impression that when they reached Westminster last Friday night they found the schoolhouse packed with people eagerly awaiting their arrival, and they were not disappointed. A long programme of excellent quality was rendered, consisting of songs, readings and instrumental selections, interspersed here and there with lively choruses from the students. Many thanks are due to Messrs. Saunders and Steere, of All Saints' Church choir; to Mr. Miner, who kindly furnished numbers to replace those who were unable to be present; and also to Miss Burgess, who acted as accompanist. Mr. W. J. Spence, student in charge of All Saints', made an able and very acceptable chairman. After the programme the ladies of the mission served all present with a beautiful lunch, which contributed no small share in the success of the entertainment.

When all was over everyone conceded that this was the most successful entertainment yet held at Westminster. The parish of Gorrie, Fordwich and Wroter, which has lately been supplied by students, is to be filled by Rev. E. Hall, a graduate of Huron College. The students wish him every success in his new parish.

On Wednesday afternoon of last week a meeting of the Literary and Musical Society was held for the purpose of electing a treasurer to take the place of Miss Hyman, who resigned recently. The result was the election of Miss Jean Dearness, who commenced her duties as treasurer at once.

The Huron College Mission Society held a meeting on Friday evening last, the vice-president, Arthur Carlisle, in the chair. The meeting opened with prayer. Messrs. Fuller and Carlisle, delegates to the recent convention at Montreal, presented their report. It was decided to hold a missionary evening soon, and a committee, consisting of the vice-president, Secretary A. A. Bice and Charles W. Sanders, was chosen to make arrangements.

On Tuesday evening Messrs. C. W. Saunders, W. H. Snelgrove, C. M. Farney and C. Simpson, delegates to the student volunteer convention, left for Toronto. A number of students accompanied them to the station. The Ven. Archdeacon Davis and Rev. Canon Richardson left on Tuesday morning to attend the student volunteer convention at Toronto. His Lordship the Bishop of Huron is also expected to leave shortly to address the convention.

The preaching allocations for Sunday, Feb. 23, were as follows: Thorndale—Albert A. Bice; Granton—Charles W. Sanders; Delhi—Horace W. Snell; Gorrie—William H. Snelgrove; Oil Springs—Benjamin P. Fuller; Teeswater—Charles Ryan; Cumlin—Chris. Simpson; Westminster—Francis Powell; Sarnia—Arthur Carlisle.

Mr. Charles Ryan is spending a few days at his home, the rectory, Durham, Ont.

Owing to the student convention in progress at Toronto, at which four of the students are present as delegates, the lectures in divinity are suspended this week.

Mr. Horace W. Snell, '04, who was at Delhi taking duty on Sunday last, stopped over with friends at Tilsonburg for a day or two before returning to the college.

The result of the conversation was most gratifying to the students, who had spent much time and energy in preparing for it. In former years the committees have been well satisfied if they succeeded in paying expenses. This year, however, a greater effort was put forth by students of the arts, medicine and divinity departments, with the result that, after all debts have been paid, a handsome surplus remains.

The debate held in the rhetoric class on Feb. 25 was on the question of the university education for women. Miss Margaret Smith and Mr. G. Escott very ably sustained the affirmative.

Dr. J. H. Holmes, who has been a guest of the college for some time, is preparing to leave for his home in the United States. He has been very successful in his work, and has been a great help to the college.

Mr. C. M. Farney, who has been suffering from an attack of pleurisy, has sufficiently recovered as to be able to attend the convention at Toronto this week.

The college branch of the Gleason's Union purpose holding two meetings a week in future—on Tuesday evening and Friday afternoon. At the evening meetings it is proposed to study the missionary journeys of St. Paul, and at the afternoon meetings the Bible lesson for the Sunday following.

The Musical and Literary Society of the Western University met on Thursday evening, Feb. 27, with the president, Mr. A. Carlisle, '02, in the chair. After a few matters of business were disposed of the following programme was rendered: Instrumental solo, Miss M. Smith; reading, Mr. A. B. Cox; guitar solo, Mr. E. Miner; debate, "Resolved, that the Ontario prohibition bill will, if passed by the legislature and approved by the people in referendum, constitute a satisfactory law"; violin solo, Master Melbourne Brock; reading, Mr. A. B. Cox. The affirmative of the debate was most ably upheld by Messrs. E. B. Elson and B. P. Fuller, and the negative by Messrs. H. W. Snell and J. G. McKay. Provost James, Mr. A. B. Cox and Mr. Reason, elected to act as judges, after carefully considering the manner, delivery and argument of each debater, decided in favor of the negative. Dr. W. F. Tamblin acted as critic for the evening. The meeting closed with the National Anthem.

GREAT FOREST TO BE PLANTED. Chicago, March 1.—Within five or six years there will be rows of catalpa trees extending from Chicago to New Orleans, a distance of about 900 miles. They are to be planted by the Illinois Central railroad, to provide lumber for cross-ties in the future. More than 200,000 of the trees will be planted.

CHILD KIDNAPPED. Montreal, Feb. 28.—The 2-year-old child of J. W. Wayland, 62 City Hall avenue, has been abducted, and the 15-year-old servant girl, named Etta Young, alias Audrey Earl, is suspected. The girl and the child disappeared while Mrs. Wayland was out calling. A quantity of money, jewelry and clothing is also missing. The matter is in the hands of the police.

THE ONTARIO LEGISLATURE

Likely to Close Its Sitting in a Couple of Weeks.

The Good Roads Bill Explained—An Address to Prince Henry—The Railway Subsidy Fund.

[Special to The Advertiser.] Toronto, Feb. 28.—The session of the legislature this afternoon was probably the dulllest since the house opened. Somnolent is a mild term to apply to it. A reasonable amount of business was transacted, however, and there is now no doubt that prorogation will come within the next two weeks.

Hon. George W. Ross explained his bill to amend the act respecting the improvement of public highways, and then moved its second reading. The act now enables debentures to be issued for a period of forty years. Under the municipal act it was possible to issue debentures for fifty years. Forty years were fixed by the bill as the time over which the payment of debentures would be extended, and it also made the issue subject to the approval of the electors. The motion for its second reading was carried.

NEW BILLS. Among the other bills introduced was one by Mr. Connors to incorporate the Canada Central Railway Company; by Mr. Curran to amend the Ontario factories act, and a third by Mr. Dryden also to amend the factories act.

ADDRESS TO PRINCE HENRY. In reply to a question by Mr. Montfort whether it was the intention of the government to amend the act to welcome Prince Henry of Germany, Hon. Mr. Ross said that he had put a notice on the paper for the drawing up of an address by the house, and the appointment of a delegation to present it.

RAILWAY SUBSIDY FUND. Hon. E. J. Davis, in answer to an inquiry by Mr. Matheson, said that a railway subsidy fund had been formed, the amount being \$30,539, and a separate account of the sales of lands within ten miles on each side of the Ontario and Rainy River Railway, the Parry Sound Colonization Railway, and the Brockville, Westport and Sault Ste. Marie Railway had been kept.

MUTE IDIOTS. Mr. Kribs wanted a return of the correspondence between the Orillia Idiot Asylum, the Belleville Deaf and Dumb Asylum, and the department, respecting the need of increased accommodations in both institutions.

Hon. Mr. Stratton replied that the Deaf and Dumb Asylum had plenty of room, and arrangements had been made for the transfer to the institution of some children in Waterloo county referred to by Mr. Kribs.

Mr. Wardell called attention to the fact that admission had been refused to some idiots in Dundas county.

Mr. Stratton repeated his statement that the accommodation for idiots was limited. There was space in the building which could be utilized, but it would need a considerable expenditure to put it in shape. He was now having plans drawn up in order to see what additional accommodation could be provided.

A bill to incorporate the Ontario Central Railway was reported by the railway committee. It empowered a number of Manitoba and Ontario capitalists to construct and operate a railway from some point between Wabigoon and Eagle River stations, on the line of the C. P. R., thence in a northerly direction to a point at or near the west end of Lac Seul in the Rainy River District.

Questions Answered.

CITIZEN.—Is there any way to abate the nuisance caused by smoke and soot from a smokestack, when soot coal is used? When the wind blows towards us we cannot open the windows on account of the soot coming in on the carpets and beds. The height of the smokestack is about 40 feet from the ground. Ans.—The legal remedy is an action for damages and an injunction. Notice to the person causing the nuisance to abate it should be given, and if they are properly advised the nuisance must be abated. Consult a lawyer.

REV. SEPTIMUS JONES STRICKEN Toronto, Feb. 28.—Rev. Septimus Jones, rector of the Church of the Redeemer, has suffered a stroke of paralysis, and his condition is somewhat serious. He was attacked by rheumatism several days ago, and yesterday suffered a stroke, which affected his right side. Rev. Mr. Jones is one of the best-known Anglican clergymen in Canada.

MRS. TAYLOR'S BARREL. Bay City, Mich., Feb. 28.—Mrs. Anna Taylor, who went over Niagara Falls last summer in a barrel, is in the city busied in an effort to regain possession of her barrel, which is in the hands of her manager, F. M. Russell, under whose management it was constructed. The manager and Mrs. Taylor are at present in a dispute.

"77" [Special cable from London.] London, Saturday, March 1.—"London, and in fact many parts of England, are again in the grip of influenza. Medical observers say this influenza epidemic, like the first one, originated in Southern Russia, traveling across Europe and leaving a terrible record of death or disablement in its train."

All serious epidemics of Grip have traveled westward, and this epidemic can be expected here before the 1st of March. Prepare yourself by carrying in your pocket a bottle of "77." Dr. Humphreys' Celebrated Grip and Cold Cure. Taken early, cuts it short promptly. "77" breaks up stubborn Colds that hang on and prevent Pneumonia. At Druggists, 25c, or mailed.

Humphreys' Med. Co., 61 John Street, New York.

GRIP

SUNLIGHT SOAP

REDUCES EXPENSE

ONE RUB with Sunlight Soap cleans more than two rubs with impure soap.
ONE OUNCE of Sunlight Soap is worth more than two ounces of impure soap.
ONE WASHING with Sunlight Soap will produce purer linen than two washings with impure soap.
ONE WASH with Sunlight Soap will make linen last clean longer than two washes with impure soap.
TWO WASHINGS with Sunlight Soap wear the linen less than one washing with impure soap.
TWO WASHINGS with Sunlight Soap entail less labor for the same result than one washing with impure soap.
TWO WASHINGS with Sunlight Soap entail less cost for the same result than one washing with impure soap.
TWO WASHINGS with Sunlight Soap entail less strain on the nerves than one washing with impure soap.
FIVE CENTS' worth of Sunlight Soap has more washing property than ten cents' worth of impure soap.
ONE WOMAN with Sunlight Soap will do more work than two will with impure soap.
ONE WOMAN with Sunlight Soap will do better work than two will with impure soap.
ONE WOMAN with Sunlight Soap will do quicker work than two will with impure soap.
ONE WOMAN with Sunlight Soap will have time to think; two women using impure soap will have no time but to worry and work.
ONE WOMAN without a maid can wash with Sunlight Soap and do her own work; another woman using impure soap must have a maid to help.
ONE WOMAN with a maid can do her wash at home with Sunlight Soap; another woman with a maid, and using impure soap, must send her wash out.
LAUNDRY BILLS are reduced by the simplicity of the "Sunlight way of washing;" many small articles can be easily washed at home.
LAUNDRIES using impure soap burn the nap off woollens, and the surface off linens.
LAUNDRIES using only Sunlight Soap preserve longer the nap on woollens and the surface on linens.
ONE HOME escapes disease; another brings it in with impure soap.
"SUNLIGHT" HOME is early tidied; the good man enjoys it.
"IMPURE SOAP" HOME is never so tidy; the good man enjoys himself elsewhere.

But why continue longer? The Canadian woman who will try Sunlight Soap must see for herself that

Sunlight Soap Reduces Expense.

Ask your Grocer for Octagon Bar The Ideal Laundry Shape
