COMPANY TO TAKE OVER BRASS WORKS

Local Men Are Interested in a Project Which Looks Good.

The Labatt Manufacturing Company's plant has been taken over by a company of local capitalists, and the industry will be continued and increased at once, provided certain capital can be raised.

The buildings, land, and appliances have been purchased for the sum of $35,000, and the manufacture of all kinds of brass goods will be undertaken.

According to reports the machinery and patterns are the most up-to-date in Canada, and those interested are confident that the proposition will be a great success.

The men behind the scheme are Mr. W. J. Miller, Hamilton; Albert E. Somerville, London; Ben. Noble, London; Thos. Rich, London, and Hugh James Carroll.

"We will commence the manufacture of all kinds of brass goods at once," said Mr. A. E. Somerville to The Advertiser. "We have made all arrangements, and with the plant and machinery at our disposal there is absolutely no doubt of its success. We expect to employ a considerable number of men before the summer season is past."

Clinton Thresher Case.

In single court at Toronto Wednesday, before the chancellor, re Clinton Thresher Company, W. Proudfoot, K.C., for three directors; W. M. Douglas, K.C., for Gunn and Jackson; W. Brydone, for three shareholders; J. F. Boland, for liquidator. An appeal by the three directors and by two shareholders from the order of the local master, placing them on the list of contributories, and an appeal by the liquidator from the said order in refusing to place some four others on the list of contributories. Judgment: Order appealed from affirmed as to D. A. Forrester, Rance and the representatives of Farran, with costs, but reversed as to those who signed the certificate, and are on the register, viz., Hooey, Gunn, Jackson, Taylor, with costs of cross-appeal pro tanto. As to Robb and Brickenden, the judge has not found upon the question as to whether their signatures of acceptance were warranted to be made by the persons who acted as their attorneys (i.e., Rance and Taylor). If the attorneys were authorized, their names also should be added to the list of contributories (As to them, no costs of appeal.) As to Marion McPherson, there is not sufficient evidence that she knew anything of the transaction or has sanctioned or accepted it, and the order is affirmed as to her, with proportionate costs to be determined by the taxing officer.

NEW METHOD OF TREATING RABIES

Noted Pasteur Institute Director Announces It.

ELIMINATES DANGER

Patients Made Immune by Products of Infection Instead of Organism.

Ann Arbor, Mich., March 31.—The annual meeting of the Michigan Academy of Science opened this afternoon, and if the first session is an earnest of what is to follow, then great things may be expected in the matter of startling discoveries announced.

The first thing that made the scientific men sit up and take notice was the announcement made by Dr. James G. Cumming, director of the Pasteur Institute of the university, that he had been working on a new treatment for hydrophobia and had discovered a method which would eliminate some of the gravest dangers of the old treatment and also reduce the time of treatment from three weeks to two.

Method of the Treatment.

This new treatment, upon which he has been working for many months, produces immunity in the patients by means of the products of the infection instead of by the living organisms. Dr. Cumming uses a virus which he prepares in a new manner from the spinal tissue of a rabid animal in such a manner that all active virulent poison is destroyed, thus producing a chemical product something like anti-toxin.

This is the first announcement that has been made, but he will publish an extended report upon his discovery very soon. So far most of the experiments with this new remedy have been made upon animals, though some humans have been treated most successfully.

AN INTERESTING DRAMATIC RECITAL

Given by Mr. F. L. Willgoose in St. John the Evangelist Schoolroom.

A very interesting dramatic recital was given last night in the schoolroom of the Church of St. John the Evangelist, under the direction of Mr. F. L. Willgoose. The first part comprised a sketch entitled "A Pair of Lunatics," in which Mr. Willgoose, as Captain George Fielding, and Miss Ethel Willclever work.

In a one-act comedietta, "Dearest Mamma," the several parts were well taken, the quaint comedy of the piece being well brought out. Following is the cast of characters: Harry Clinton, Mr. Harold Callard; Nettie Croker, Mr. F. L. Willgoose; Uncle Browser, Mr. Ross C. Clarke; Jones, Mr. Ed. Wyse; Mrs. Breezeley Fussell, Miss Kate Ashby; Edith Clinton, Miss Beatrice Taylor; Mrs. Honeywood, Miss Lilian Finnegan.

During the evening, Miss Bertha Upthegrove and Mr. Harold Ellis rendered several solos very acceptably. The proceeds will be devoted to the purchase of a piano for the schoolroom.

CONDUCTOR FINED FOR BLOCKING WALK

London Railwayman Gets Into Trouble With Strathroy Authorities.

[Special to The Advertiser.]

Strathroy, March 31. — Harry Wilson, of London, conductor of the Grand Trunk way freight, was fined $5 and costs here today for obstructing the sidewalk.

On Tuesday last Wilson backed his train across the sidewalk, and held it there for almost half an hour. Complaints were made to Mayor Poue and Wilson was summoned.

When the case came before Police Magistrate Noble today, Wilson pleaded guilty and paid the fine, which, with the costs amounted to $8.

This is the first case of the kind in Strathroy.

ERIE'S OFFER REFUSED.

New York, March 31—The Erie Railroad Company today offered all its employees, now receiving under $300 per month, an increase of 6 per cent in wages provided the original demands made by the men would be withdrawn. Representatives of the men refused to accept, and stated that the original demands would be insisted upon.
