To the shame and disgrace of British Columbia, provincial politics have lately, that is, during the last three years, been characterized by features of the lowest of the would have been certain that is, during the last three years been characterized by features of the lowest of the Would have been certain come, and what we are most concerned about is what we are most concerned about is what we are most concerned about is what the result of it will be. There are some four hundred millions of that is, during the last three years, been characterized by features of the lowest of the Would have been certain come, and what we are most concerned about is what the result of it will be. There are some four hundred millions of that is, during the last three years, been characterized by features of the lowest of the Mint Director that is, during the last three years of the lowest of the Mint been certain come, and what we are most concerned about is what the result of it will be. There are some four hundred millions of the Colomation of the Mint bit of the decision to the Lieutenant-Governor. Here was a question involving the right ood reason for thinking that at leas wo more gentlemen, who voted with th overnment last session, will be found i mpathy with the opposition. The orced resignation of Mr. Martin co letely changed the political situation nd leaves the government supp

free to withdraw their allegiance time they see fit. We now speak party sense. It is perfectly idle to lin of the political elements repr by Messrs, Martin and Cotton remains the same when Mr. Martin goes out. The government party is broken in their private business relations always had a deservedly high reputation. These facts did not prevent them from being assailed with vindictiveness and with at-Speaking from the standpoint of policy the supporters of a government are at lib erty at any time to withdraw their allegiance. There has, unfortunately for the province, been only too much reaso to think that the policy of the Semli government has not only been a failur negatively, but a positive injury to the ublic interest. This fact absolves its poporters from any claim that Mr. Semlin might otherwise be able to make upon their allegiance. Take the case of

These gentlemen have withdrawn their confidence from the government, not The very name "Executive Council" bearing gravels exist. Therefore taking in high places. That the then opposition knew this was not true does not admit of

of the previous legislature and contracts withdraw their support. of this comes a charge preferred by the THE NEW WESTMINSTER SEAT. Attorney-General of the province against The Colonist would have preferred to the Finance Minister that the latter had see Mr. Henderson opposed in New and the early resumption of work in the Executive Council. We place these two pressed the opinion that the decision the Miners Union, was in town to day. In the Miners Union, was in town to day. acts together because they will be con-sidered together by persons contemplat-the New Westminster people, so now it sidered together by persons contempart ing investment in this province. They strike at the credit of the province in a deadly way, and it will only be by the early repudiation of the men who are re- opinion in that city, and we are satisfied great likelihood of the British Columbia sponsible for them that the standing of that it is adverse to the present governthe province can be restored. We are glad to see such unmistakable evidence ity among the friends of better adminis-tions moduler Lode and other claims in the Boundary country, erecting a smelter in Grand Forks as a result of investiga-tions module and the claims in the Boundary country. that this is about to be done. There is good reason to belive that Mr. Henderson. It was felt that a num-has enjoyed twenty-two years experience in the United States and Mexico, arrive arge sums of money await investment ber of people would vote for him simply here as soon as it has been made known that better government has been inaug-eral, although they are opposed to the Graves, yesterday Mr. Johnson visited the that better government has been made urated. Intending investors do not now feel safe. They are not asking subven-tions, bonuses or exceptional privileges felt that as some considerable expense felt that as some considerable the felt that the fe tions, bonuses of exceptional planters is attendant even upon a by-election, and the certain early defeat of the gov-country will be enacted and adminis-tered in good faith, and with some ap-preciation of business requirements. preciation of business requirements. But if investors are deeply interested now. We are not impressed with the in good government, men who work for soundness of these views, but are not known fact that the Granby people with wages are even more so. An Eastern disposed to complain because they have

that appeared in the opposition press goes, if they themselves had not made administration. The result can be warded off for lerstand why there should be any talk ment supporter who feels his allegiance self with the observation t of a disagreement between capital and strengthened thereby. 'The province at gladly welcome the advent of a second labor here. "If there is a place in the office as a guarantee of better governworld," he said, "where labor and capiworld," he said, "where labor and capi-tal ought to go hand in hand, and where Martin. His acceptance does not mean their interests are absolutely identical, it is British Columbia." A little con-sideration will show that this must be the case. Our vast mineral wealth can not be developed without capital, neither chance of being able to draw to their side of the house any additional support. pursue my investigations at other Bound ary points. The smelter site here is an ideal one, but Mr. Graves has not yet made

confidence from the government, not from any personal desire on their part to get office, but because they believe the government policy to be indefensible. There are other gentlemen in the house who are in precisely a similar position.

 Vice Chancellor Sir W. Page Wood stated publicly in sourt that Dr. J. Collis Browne was undoubtedly the Inventor of Chloro-dyne, that the whole story of the defendant Preeman was likerally untrue, and he regretted to say that it had been swors to.-Times, July 13, 1864.
 Dr. J. Collis Browne's Chlorodyne is the best and most certain remedy in Cougha, Colds, Asthma, Consumption, Neuralgia, Rheumatism, Etc.
 Dr. J. Collis Browne's Chlorodyne is presticed by scores of Orthodox practitioners. Of course it would not be thus singularly popular did it not "supply a want and fill a place."-Medical Times, Jannary 12, 1886.

DO YOU KNOW

Her

can it be without labor. A withdrawal

of capital will do vast harm, but so will

a withdrawal of labor. Hence it is to

the interest of the capitalist that labor

should be contented, and the interest of

the laborer that capital should not be

driven away. Better government means

that the interests of these two essential

factors in provincial progress should be

harmonized, as can readily be done, if

the open questions between them are ap-

proached with honest and patriotic in-
