COLD TEA AT \$12 PER QUART

City's Thirsty Jolted on Thanksgiving Day—Sold Cold Water.

Cold tea at \$12 a quart was bought by a number of thirsty ones in Biddleford, Me., as an adjunct to their Thanksgiving dinner. Early in the week a pocket peddler who let it be known that he had a "small supply of real liquor" had no difficulty in disposing of four cases of tea at \$1.50 a piece. Individuals who have been in the habit of taking a nipper just before they sat down to their Thanksgiving dinner thought it a rare opportunity to get an appetizer, even if the cost was high.

Most of the customers put their bottles of appetizer away in the cupboard until Thanksgiving. Others could not wait and opened their bottles of "cheap rum" the same day with the result that they found out earlier than they had been cuneed.

Those who did not sample their purchase before the holidays were just as nearly heart-broken when they found that it contained nothing but tea.

Water \$100 a Can.

This is not the first time the thirsty ones of Biddleford have been victimized. A smartly dressed man arrived in the city recently and dropped into bowling alleys and poolrooms, where he made friends.

When the time was ripe he represented to a young man that he had a five-gallon keg of fine old Kentucky whiskey he would sell at a bargain. The liquor, he said, he had put away for his personal use, when the bond-dry law went into effect, but being in need of money he would sell the liquor for \$100.

The salesman took the victim to a shed where the contraband liquor was hidden. There was a tap to the keg, and a "sample" was readily drawn, which convinced the man that the liquor was of the brand represented, and he came across with the \$100. Later in the day he asked an acquaintance to sample the stuff, but when he turned the faucet there was no flow of liquor. Breaking in the head he found nothing but water. Around the spigot was a small tin can which had contained a couple of drinks of liquor, which he and the salesman drank.

"Jakey" Had Many Travels. Large quantities of Jamaica ginger are said to have been taken to Biddleford for the holiday trade. One story that is going the rounds relates to a tenement house in the residential section, where it could be obtained quickly for customers. The young man who bought the Jamaica paid \$750 for it, but expected to retail it at \$2 for a small bottle. Three men, who learned the location of the "plant," went to the house, it is said, and represented themselves to be deputy sheriffs. The occupant of the tenement, who was not one of the owners of the stock, wilted when the bogus officials appeared and allowed them to transfer it to an automobile without a protest.

They carried the "jakey" to another part of the city and then went down town to look up a market, for the suit so the story goes, they offered it for \$1.50 a bottle, a cut in the market price of fifty cents, and took many orders. The following day, when they returned for the goods, they were told that the ten gross of Jamaica had been carted away by two men the night before. Investigation disclosed that they were the real owners of the fluid who had quickly gotten on the trail of the make-believe officers and recovered the "jakey."

CAMPBELLTON PEOPLE SHOULD EAT PIE DAILY

Pie is wholesome, combining both fruit and grain. Those who have trouble digesting pie should take ONE SPOONFUL simple buckthorn bark, glycerine, etc., as mixed in Adler-Lika. This flushes the ENTIRE bowel tract, removes foul matter which poisons your stomach for months and relieves ANY CASE of sour stomach, gas or constipation and prevents appendicitis. Leaves stomach in position to digest ANYTHING. A. R. McDONALD, Druggist.

The Tale of Perfect Time in a Watch From Mainspring to Hairspring, between them lies the secret.

The Mainspring is the power which it transmits to the active parts of the watch. The Hairspring has the control and regulates the motion. The fitting is most delicate; imagine a 100th part of a hair. (Impossible isn't it?) Yet it is enough to govern its performance, so wonderful is the adjustment. The friction from accumulating dirt, lack of oil, etc., destroys these perfect fittings. Do not let your watch run to ruin from neglect. Remember my business is the care of watches, and my opinion costs nothing.

LITTLE BRITISH WAR IS ENDED

Two Columns Had Been Sent to Punish Kurds For Murder.

London, Dec. 15.—Another miniature British war has just been concluded with the return of two columns operating to the northeast of Mosul and to the southeast of Amadia, Asiatic Turkey, after successful expeditions against the Kurds, in order, as officially stated, to punish them for murders.

The troops, consisting of four battalions of Indian infantry and a mountain battery, and three companies of Assyrians, met with enormous difficulties in a country almost impassable, but the health of the men remained good throughout and their losses in engagements were slight.

Civil administration has been restored in the district and the troops have been withdrawn.

FREDERICTON CURLING CLUBS FIRST GAMES.

FREDERICTON, Dec. 12.—The Fredericton Curling Club had their first curling of the season last night, the ice being in excellent condition. The club games were played.

Successful Men Always Saved

They were thrifty. They were shrewd enough to see that the habit of saving meant the strengthening of character. With the money saved they were able to take advantage of opportunities as they arose.
