349 Yonge Street.

sible means of informing the public of the fact. Consequently last Monday we made our announcement through the columns of The World.

The land is high and dry with sandy subsoil. It is nearly threequarters of a mile nearer the corner of Queen and Yonge streets than is Parkdale. See accompanying plan.

Not only this property but the surrounding district is so protected by building restrictions that no inferior building or business A place can be erected in it. Houses must be of brick or stone and worth at least \$2000 each. This is bound to be the finest residence district in Toronto.

Are the best lots already sold? No. There is not one undesirable lot in the property.

The title has been placed under the "Land Titles Act, 1885," commonly known as the Tor-rens System, obviating the necessity of troublesome and expensive searches with each transfer of ownership. Every purchaser's title will be guaranteed by the Government, and therefore absolutely indefeasible.

The growth of Toronto for the past fourteen years has been phenomenal. In 1871 the assessed value of her realty was \$22,037,470; in 1885, \$60,255,167, exclusive of several millions of overflow in the suburbs. In 1871 her population numbered 56,920; in 1885, including that of the suburbs, it is estimated at 130,000. The prospects of rapid growth were never so bright as they are at present. During the next fourteen years our population will probably reach a quarter of a million. Where will these people find homes?

We shall continue for a short time our very low prices with very easy terms of payment. A few hundred dollars invested now will in a little while yield many fold. For further particulars please apply at our office.

6 KING STREET EAST. TORONTO
