A WESTERNER'S RECOMMENDATION

By H. Milton Martin

I have no hesitation in recommending to every one that at least a portion of his funds be used for the purchase of CANADA VICTORY WAR LOAN BONDS. Whether it be \$50.00, \$100.00, \$1000.00, or more that one has in hand, there is no better way, in my opinion, of using this money than to purchase VICTORY BONDS.

Now is the time for all men and women who are dependent upon their savings for their livelihood to loan them to Canada and at the same time help themselves. Many of these have been unable to assist the various patriotic organizations because of their limited income. Now they may INCREASE their income and help Canada. It is not often that one can personally benefit by a patriotic act, and surely now that the occasion presents itself, no one should fail to take advantage of it.

The objective set by the Minister of Finance is \$150,000,000.00. Many uses are being made as to how much more will be subscribed. Let every one help, whether it be for bonds of small denomination or large ones. Let every one who has the power, purchase at least a \$50.00 bond and thereby assist in continuing the unobstructed use of the high seas, so that the products of our farms, mines and factories may be carried to our boys at the front; so that the farmers may be paid for their grain; so that every man employed may receive his wages; so that Canada may be maintained in the high esteem of all the Allies.

Let us show what we think of our democratic institutions by buying our own bonds, and last but not least let us show the enemy that we are in this war heart and soul and will be so until he is crushed, if necessary.

During the year 1918 the Farmers Sun promises to be more profitable and interesting to those engaged in agriculture than at any time during the past twenty-six years of its production. "News and Views from the Farm" by W. L. Smith, for twenty years one of The Sun's Editors, will continue this most pleasing and profitable part of the paper. The farm markets will be given extra and special attention by Mr. Crane and Mr. Thurston, while many others will contribute from week to week, topics of interest to those actively engaged in farm work. One dollar to 1st January 1919 is a small price for The Sun, a paper that has so long and faithfully served the farming interests. You cannot do better than subscribe at once.

It is alleged that the universal substitution of whole wheat bread for white bread all over this continent would result in a saving equal to an increase of 100,000,000 bushels in the year's harvest. If this is so, Canadian and American Governments might well unite in forbidding the use of patent flour for bread baking.

COMPULSORY SERVICE IS DEMOCRATIC

United States Adopted Conscription Following Experience in 1863.

The United States has profited by its experience in the Civil War. In 1863, after the war had been raging for two years, Lincoln and his government recognized that the only fair means of raising troops to prosecute the war successfully was conscription.

The usual objections were made on the grounds of constitutional liberty but all determined opposition was put down. It was necessary to shoot a few here and there, but strong repressive measures by both civil and military authorities were applied and the measure was successfully enforced.

To-day the United States Government recognizes the selective draft as the only fair and democratic method of recruiting and by acting promptly is securing its aim.

The launching of the Military Service Act in Canada augurs well, and while repressive measures are provided, opposition is not expected.

Lambton Plans to Raise Million For Victory Loan

Sarnia, Nov. 4.—One million dollars will be Lambton's objective for the "victory" loan, it was announced here to-day by the Government representative L. M. Green. A strong organization has been formed, which will bring to every resident in the county the opportunity to invest in the new venture. An appeal is being made to every class, and it is expected that the people of the farming districts as well as the citizens of the towns and villages, will respond nobly. Arrangements have been made whereby the smallest investor may purchase a \$50 or \$100 bond on an instalment plan. Large employers of labor are arranging to give their employees an opportunity to invest in the bonds by deducting a certain amount each week from their pay.

The names of authorized canvassers are to be announced soon. Members of committees already drawn up are:
