THAT CHANGE IN WOMAN'S LIFE

Mrs. Godden Tells How It May be Passed in Safety and Comfort.

Freemont, O.—"I was passing through the critical period of life, being forty-six years of age and had all the symptoms incident to that change—heat flashes, nervousness, and was in a general run down condition, so it was hard for me to do my work. Lydia E. Pinkham's Vegetable Compound was recommended to me as the best remedy for my troubles, which it surely proved to be. I feel better and stronger in every way since taking it, and the annoying symptoms have disappeared."—Mrs. M. GODDEN, 925 Napoleon St., Freemont, Ohio.

Such annoying symptoms as heat flashes, nervousness, backache, headache, irritability and "the blues," may be speedily overcome and the system restored to normal conditions by this famous root and herb remedy Lydia E. Pinkham's Vegetable Compound. If any complications present themselves write the Pinkham Medicine Co., Lynn, Mass., for suggestions how to overcome them. The result of forty years experience is at your service and your letter held in strict confidence.

ASBESTONE 40 YEAR ROOFING

No Rags or Tar in this roofing. Pure Asbestos and Asphalt, cannot rot or dry out. Costs but little more than the ordinary kind. It is far more durable, as well as fire resisting, and just as easy to put on. Any other roofing would be totally destroyed by fire. Not so with Asbestone. It is not what is on a roofing, but what is in it, that counts.

Write for information and sample. If you can't get it through your dealer, we will send it to you direct. We want dealers to handle it.

A Dyspepsia Cure

M. D. advises: "Persons who suffer from severe indigestion and constipation can cure themselves by taking fifteen to thirty drops of Extract of Roots after each meal and at bedtime. This remedy is known as Mother Seigel's Curative Syrup in the drug trade." Get the genuine. 50c. and \$1.00 Bottles.

Girls, don't monopolize the conversation when a young man calls; give him a chance to propose.

Love is both blind and deaf. That's why a young couple in love can neither see nor hear the clock.

MUSICAL TALKS

A Devout Pastor, a Good Choir and a Good Organ Means a Prosperous Church

THE PIPE ORGAN

The Pipe Organ is without doubt the noblest of all instruments—the wonderful evolution of the centuries. This instrument is invested with such a dignity yet possessing such massive tones that no other instrument approaches.

The Pipe Organ originated in ancient Greece from the "Pan Pipes" which consisted of a series of whistles fastened together and blown by the mouth. These same pipes were afterwards placed on a wind box and supplied with air through a bellows. The number of pipes were increased and required more wind than the hand bellows could produce so a series of bellows were arranged and persons were engaged to walk upon them forcing in the air by their weight. Then a water system or hydraulic pressure was introduced then pneumatic and now electricity which is more powerful and enables quicker action, etc.

Now about the playing of these instruments. In the earlier days there being no keyboard, the fingers were placed over the pipes to stop the tone, afterward a slider was attached and these were pulled in and out at the base of the pipe to admit the air. Following this a key was devised it being found easier to depress the key with a blow than to pull the slider which had great resistance.

The first keyboard had sixteen keys, each key 40 inches long and 3 inches wide. The performers were called organ beaters or smiters having to strike the key with the fist.

Space will not allow to explain fully the gradual advancement and growth of the Pipe Organ, but it is most interesting.

The tone of the organ in its earlier stage was much more lusty than the present day organ. It is recorded that the pipe voices were so loud and strong that listeners could not venture near with uncovered ears.

The modern pipe organ is known to all but its parts and working method may not be so generally known. The kind of pipes are of the whistle or flute type also beating and free reeds. These are made to imitate orchestral instruments. The modern organ is capable of producing from the softest tone to the great power of a huge band.

The keyboard is known as the manual and in one large organ 5 smaller organs independent of each other may be combined, each smaller organ having a separate keyboard to itself, making a bank of keyboards above the other ranged before the player. The organist's hands are completely occupied and besides this he must be an expert in performing upon the pedals with his feet, the pedals compass being 30 notes.

All pipes are made of wood and metal (tin, lead and zinc) all the pipes are built in shape of huge whistles.

The modern keyboard has fine complete octaves, the principal keyboard is called the "Great," the one above is the "Swell" the one below the "Choir," while the "Solo" is above the swell and the "Echo" is above that.

It is good for the music student when visiting a city to take every opportunity to hear good music of this kind, as an organ recital by a competent organist should create much interest.

Some people pride themselves upon hearing great organists and do not forget to boast about it, but listen to this: A visitor of pompous character going up to one of the attendants in Westminster Abbey said, "Will you please tell me who that is at the organ. I cannot tell by the touch if it is Sir Walter Parratt or Sir Frederick Bridge." The attendant answered, "I beg your pardon, sir, that it is not either of them, it's the vacuum cleaner over in the corner."

San Francisco possesses one of the largest and finest organs in the world the organist is Frederic Lemare, the eminent English Organist whose salary is \$10,000. Compare this with the Great Beethoven who was appointed second court organist at 150 florins (\$63).

The organ is the most interesting part of a church property as judged from the standpoint of public interest. You may have stained glass windows, libraries and carved furniture in the church investment, but leave out the organ and what is the result—an immediate lack of interest. A good organ, eloquent, devout pastor, a good choir, and a good organ means a prosperous church.

Girls, don't monopolize the conversation when a young man calls; give him a chance to propose. Love is both blind and deaf. That's why a young couple in love can neither see nor hear the clock.

IN MEMORIAM

Inserted by his wife Beatrice Vidito
In loving memory of my dear husband, Pte Aubrey Vidito, who died at Palestine Nov 23rd, 1918. Gone but not forgotten

PTE. AUBREY VIDITO

We loved him, yes, we loved him. But Angles loved him more. And they have sweetly called him. To yonder shining shore The golden gates were opened. A gentle voice said come! And with farewells unspoken, He calmly entered home

The Weather

All moods are due to weather. I often sadly think; when rain clouds get together they put me on the blink. They chafe my sunny spring, so you'd with me condole; they freeze, or pretty near it, the current of my soul. Outdoors it's raining, raining, with steadily beat and slow; the night wind is complaining of some unchartered woe. It tells of ghastly sorrows that long dead people knew, and hints that our tomorrows will all be lemons, too. And I have grim foreboding that evil is in store; disaster, stern corroding is waiting at the door. But now the dawn is breaking, the night has journeyed by; and I, from sleep awakening, behold a cloudless sky. And I am blithe and chipper, and happy as can be, as I pour down a dipper of fragrant wormwood tea. How could I be so silly, I ask, with great disdain; how could my feet grow chilly because of wind and rain? But when once more the torrent pours down from leaden skies, and when the winds phreneric fill all the night with sighs, the fanfolds will come to me as sad and gloomy, and sick and out of plumb.

Building Dirigible To Cross Atlantic

ROME, Monday, Nov. 10.—The Airplane at Ciampino, near Rome, is busy building a new dirigible destined to cross the Atlantic Ocean. The airship, it is said, will be capable of travelling 3,125 miles without refueling. The airship will be able to accommodate 150 passengers.

Shot Consul and Wife

NEW ORLEANS, La., Nov 12—Dr Leopold Cordova, former consul here for Honduras, was shot and killed and his wife dangerously wounded late last night by a bandit. Both were left for dead in a ditch on the outskirts of the city.

Won't Larger Market

MONCTON, Nov. 12—Prince Edward Island lobstermen met in Moncton today to discuss joint action with the Canadian Manufacturer's Association in the securing of an enlarged market for the lobster factories output.

Do not let your keenness overshadow your kindness.

ROYAL YEAST CAKES

There is more energy in a pound of good bread made in the home with Royal Yeast Cakes than in a pound of meat. Bread making is a simple operation and requires no previous experience. Full instructions in Royal Yeast Bake Book, mailed free on request.

READ THIS RAPIDLY

The Story of Esau Wood and His Wood Saw

You can do queer things with the English language, as we have more than once given, examples to prove. Here is another puzzler from Cap-per's Weekly. It is easy enough to read it, but have it read aloud to you and see what you make of it.

Esau Wood saved wood.
Esau Wood would saw wood.
All the wood Esau saw to saw Esau Wood would saw. In other words, all the wood Esau saw to saw Esau sought to saw.

Oh, the wood Wood would saw! And oh, the wood saw with which Wood would saw wood!

But one day Wood's wood saw would saw no wood, and thus the wood Wood sawed was not the wood Wood would saw if Woods wood saw would saw wood.

Now, Wood would saw wood with a wood saw that would saw wood so Esau sought a saw that would saw wood.

One day Esau saw a saw saw wood as no other wood saw Wood would saw wood.

In fact, of all the wood saw Wood ever saw saw wood Wood never saw a wood saw that would saw wood as the wood saw Wood saw saw wood would saw wood, and I never saw a wood saw that would saw as the wood saw Wood saw would saw until I saw Esau Wood saw wood with the wood saw Wood saw saw wood.

Now Wood saws wood with the wood saw Wood saw saw wood.

Oh, the wood the wood saw Wood saw would saw.

Oh, the wood Wood's woodshed would shed when Wood would saw wood with the wood saw Wood saw saw wood.

Finally, no man knows how much wood the wood saw Wood would saw, if the wood saw Wood saw would saw all the wood the wood saw Wood saw would saw.

Canada's Pipe Rating

At the present time Canada's rating on the New York money market stands higher than that of any foreign nation; and it is possible for her to obtain funds on that market on more favorable terms than any other country. The reason for this, as any financier will vouch, is Canada's increased production and the prosperity she has enjoyed by the sale of her surplus products at favorable prices in Great Britain and Europe. This vast system of marketing was effected through credits for which Victory Loan subscriptions provide the working capital. If for instance the public should turn an indifferent ear to the Victory Bond salesmen now at work, our prosperity and credit would be impaired, our production dwindle and everyone would feel the menace of poverty. There is good reason to hope that Canadians are awake to their responsibility and opportunity.

The allusion to Canada's high rating on Wall St. brings up another phase of the Loan question. While Canada can borrow abroad on more favorable terms than any other nation, it is not desirable that she should do so; for that would take large sums out of the country in annual interest payments. It would help build up the prosperity of the United States at our expense. It is much more expedient that Canadians should themselves be the lenders and that the interest should stay in the pockets of her own people. It is profitable for Wall St. to loan money to Canada it is equally profitable for Canadians to loan money to their country.

Fifty Barrel Record

A correspondent writes the Berwick Register as follows: For the benefit of Mr. MacKinlay and others who may be sceptical regarding that fifty barrel apple record, we would like to assure them that it was no fake but a positive fact. On that particular day, the variety was Kings and Mr. Magee used a 17 foot ladder. The barrels were just good ordinary apple barrels.

We have been growing apples for 30 years and have never had them handled any better. No man who understands the business would have helped in his orchard who fore the trees to pieces or handled the apples rough.

In two days Mr Magee picked and headed 96 bbls of Blenheims, 44 of which packed 40 bbls. No 1's. This does not sound like handling turnips 1055 bbls of our apples were picked by him in 30 days, 800 of these he opened and headed. There are other extra good pickers around here who picked 46 bbls a day a number of times and we were told also of one young lady who prepared dinner Thanksgiving Day for five men and picked 30 bbls of apples, a record for the ladies?

Many a girl marries a man simply to keep some other girl from getting him.

WRIGLEY'S

Wrapped to insure its perfect condition in all climates and seasons. Sealed tight—kept right. The perfect gum in the perfect package.

No Guess Work About It

On October First we will commence our Second issue of CASH BONUS COUPONS. Our first issues of Coupons are payable during this month, September, and already we have cashed the majority of them; some of our customers receiving as high as \$4.20.

There is absolutely no guess work about our Cash Bonus Coupon System. Our customers receive exactly the amount we advertise to give—and every purchaser who buys \$1.00 worth of goods at our store and pays cash at time of purchase is entitled to a Cash Bonus Coupon, and gets the amount due thereon as sure as if it were the coupon of a Victory Bond.

Our idea is to induce customers to pay Cash, and we make it worth while to do so by paying a Cash Bonus on the total amount purchased from our Shoe Store during a period of six months.

Our Second issue of Cash Bonus Coupons will be payable
