Middle Aged

Women should take warning from such symptoms as heat flashes, shortness of breath, excessive nervousness, irritability, and the blues—which indicate the approach of the inevitable "Change" that comes to all women nearing middle age. We have published vol-umes of proof that Lydia E. Pinkham's Vegetable Compound is the greatest aid women can have during this trying period.

Read About These Two Women: Read About These Two Women:
Fremont, O,—"I was passing through the critical period of life, being forty-six years of age and had all the symptoms incident to that change—heat flashes, nervousness, and was in a general run-down condition, so it was hard for me to do my work. Lydia E. Pinkham's Vegetable Compound was recommended to me as the best remedy for my treubles, which it surely proved to be. I feel better and stronger in every way since taking it, and the annoying symptoms have disappeared."—Mrs. M. Godden, 925 Napoleon St., Fremont, Ohio.

Urbana, Ill.—"During Change of Life, in addition to its annoying symptoms I had an attack of grippe which lasted all winter and left me in a weakened condition. I felt at times that I would never be well again. I read of Lydia E. Pinkham's Vegetable Compound and what it did for women passing through the Change of Life, so I told my doctor I would try it. I soon began to gain in strength and the annoying symptoms disappeared and your Vegetable Compound has made me a well, strong woman so I do all my own housework. I cannot recommend Lydia E. Pinkham's Vegetable Compound too highly to women passing through the Change of Life."—Mrs. Frank Henson, 1316 South Orchade Street, Urbana, Ill.
