# PLANT "BROWN'S TREES"

Our nurseries are located on the highest piece of land in the whole Niagara Peninsula. Our trees are the hardiest Canadian grown trees to be had.

## LANDSCAPE GARDENING

Is carried on by us in all its branches, as we have in our employ one of the best landscape men in the country. Our Spring shipments of Ornamental Trees and Shrubs will be the largest shipments ever made in Canada. Now is a good time to consider work of this character, for during April we cannot make any new contracts for Spring, 1908, planting.
