

Penberthy Automatic Injector

A Simple, Reliable and Durable

Automatic Restarting Boiler Feeder.

40,000 in use in the U.S. 8,000 in use in Canada

Adopted by such well-known Engine Manufacturers as
 SAWYER, MASSEY & Co., Hamilton; JOHN ABEL, Toronto;
 HAGGART BROS., Brantford; JOHN DOTY ENGINE
 Co., Toronto; WATEROUS ENGINE WORKS Co.,
 Brantford, and others.

We guarantee them to work as follows:

They will lift from 18 to 20 feet and take a supply from a head as well without change of jets: they are absolutely automatic and restarting, without adjustment of valves if feed is broken from sudden jarring or air getting into suction pipe. For Traction, Portable and Stationary Engines, Boats, etc., they have no superior. They work from 20 and 25 pounds low, to 130 and 150 pounds high steam pressure, according to lift, and are the only *Injectors on earth that will lift through a hot suction pipe*. All jets are interchangeable, and can be replaced by user without breaking connections or sending Injector to factory to be repaired. High pressure Injectors furnished on application.

FOR SALE IN ALL LARGE CITIES IN CANADA.
