Johnson's Anodyne Liniment gives immediate relief to scalds, burns, wounds and bruises.

Forty years' experience have tested the virof Dr. Wistar's Balsam of Wild Cherry and it is now generally acknowledged to be the best remedy extant for pulmonary and lung diseases, embracing the whole range from simple colds to a settled consumption. Were it not for its merits, it would long since have " died and made no sign."

Children whose brain development is unusually large in comparison with the body, are most frequently singled out for a premature final resting place. Why is this? Simply because the functions of the body are too frail to supply the waste going on in the brain consequent upon active intelligence. Fellow's Compound Syrup of Hypophosphites is so prepared that it imparts the vital principle directly to the brain, while it assists in developing a vigorous and robust body.

Prospectus of the

CANADIAN MONTHLY

AND NATIONAL REVIEW.

A feeling has long prevailed that the intellectual life of the Canadian nation ought to have some or gain in the form of a good periodical. Attempts have been made to give it such an organ, but hith-erto they have not been successful.

In some measures they may have been premature, but it is been and that their failure has been mainly due to the want of a sufficiently strong and well-organized staff of writers, and of a fund sufficient to guarantee to contributors the fair remineration, without which, as multiplied experience proves, a periodical cannot be successfully carried on.

These requisites have now been effectually secured.

The literary aid and materials requisite for the support of a first-claes magazine will be sought, without restriction, from all quarters—Canadian, British, and Foreign. But it is intended that the Magazine shall have a specially Canadian character such as, it is hoped, will onlist Canadian patricism in its support.

Politics will be treated with the aim of infusing as much as possible of the historical and philosophical spirit into the popular discussion of political angulary are

Roligious questions, if they form the subject of any papers, will be treated with a similar aim. Mr. Goldwin Smith has consented both to contribute regularly, and to assist in conducting the

In our own country, a war upon corruption and rascality in office has been inaugurated in our ety, whereby the Government of our State has been revolutionized through an initial trimingh of Reform which surpasses the most sanguine anticipations. Is is morally certain that the movement thus in augurated cannot, in its progress, be circumscribed to any locality or any party, but that its purifying influence is destined to be felt in every part of the Union, rebuiking vensility, exposing robbery, wreating power from politicians by trade, and considing it to those worthiest and fitest to wield it.
