Tuberculous Meat Tuberculous Milk Canned Ptomaine

And the danger of certain food preparations, liable to contain germs or germ poisons, are best avoided by invalids, convalescents and generally those in need of a special diet or a strong nourishment, if they use an absolutely pure Vegetable preparation.

The concentrated food "PROTOSE," of exclusively vegetable origin, contains no uric acid or other excretory substances, which are always found in animal meats, and is *proof* against all possible contamination with disease, a condition to which the flesh of animals is always liable.

"PROTOSE" may be appropriately used in all wasting diseases, in Dyspepsia, Emaciation, Anamia, Obesity, and other cases of defective nutrition.
