

Mission Field.

INDIA.

At the S. P. G. Trichinopoly College, in the diocese of Madras, the number of students in the B.A. classes, which four years ago was 17, has risen to 85, the total number of students on the rolls during 1892 having been 240. The College has also recently passed straight from its Senior B.A. class the first candidate from the whole Presidency in Physical Science, thus winning the University's Gold Medal for the year. This is the second instance within four years of a student from this College winning this medal. Another student has passed second in the whole Presidency in Sanscrit at the B.A. degree. The examination results of the College in the University examinations during 1892 seem also to have been very creditable. Together with these eminently satisfactory educational results, the Rev. T. H. Dodson, M.A., the principal, is able to speak of comfort and encouragement in the knowledge that the spiritual work of the College is steadily telling. Bishop Barry was much impressed on his recent visit to Trichinopoly by the great influence for good exercised by this College over the educated Hindus of the district.

The school for European and Eurasian children in Vepery, started by the Sisters of the Church in January last, under the title of the Madras Collegiate school, has now 100 pupils, and there are promises that the classes will be largely increased after the summer holidays. During May and June the Sisters moved to Coonoor, taking with them the Eurasian girls whom they have under training for domestic servants. They also took advantage of their stay on the hills to open a Kindergarten school at Belmont, Coonoor.

The Sisters propose shortly to open a boarding school in Madras for superior native girls, and also for native female day pupils. This school will be separate from the Madras Collegiate School. Arrangements are nearly completed for procuring the necessary premises. More Sisters are expected to arrive in the next cool season, who will undertake this new branch of work. The Native High School will have specially in view the care of the daughters of the native clergy, who have represented to the Sisters the need that exists for such an institution, as the S. P. G. High School has been recently closed.

We have often referred to the work of the Rev. H. G. and Mrs. Downes at Nyandyal, in the Telugu country. Mrs. Downes has suffered so repeatedly from fever and other effects of the climate. At last she became ex-

tremely ill, and was ordered to come to England, accompanied by her husband. The voyage has already improved her health, and she hopes to return to India in the autumn. Mr. Downes leaves England for his Mission immediately.

An addition is being made to the staff of missionaries in Zululand by the acceptance of the offer of a clergyman with medical skill, the Rev. Frederick Wilfrid Waters, M.A., Exeter College, Oxford, M. R. C. S. England, and L. R. C. P. London.

Cholera threatens dyspeptics. K. D. C. cures Dyspeptics and makes them cholera-proof. Try it while cholera threatens.

Be not angry that you cannot make others as you wish them to be, since you cannot make yourself what you wish to be.—*Thomas a Kempis.*

FOR OVER FIFTY YEARS.

MRS. WINSLOW'S SOOTHING SYRUP has been used for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhea. Twenty-five cents a bottle.

Kill

The Cold.

Kill it by feeding it with Scott's Emulsion. It is remarkable how

SCOTT'S EMULSION

Of Pure Norwegian Cod Liver Oil and Hypophosphites will stop a Cough, cure a Cold, and check Consumption in its earlier stages as well as all forms of Wasting Diseases, Scrofula and Bronchitis. It is almost as palatable as milk. Prepared only by Scott & Bowne, Belleville.

M. S. Brown & Co.,

ESTABLISHED A.D. 1840.
DEALERS IN COMMUNION PLATE BRASS
