The Westmount News

## POLICE SIGNAL SYSTEM PROVES SUCCESSFUL

That the local police signal system is a most useful accessory to the local force, was proved recently when constable Gorman, made his sensational capture of Edward Monette who was found guilty of purse snatching. At 10:45 P.M. Mr. Gorman, who was the victim of the theft, phoned to the police office giving a description of the man who had just taken his purse. Within a few minutes this description had been passed to every constable on beat. At 11 o'clock the man had been captured and was locked in the station cells.

All this through the signal system, which was installed in 1915 by the Northern Electric Co. It comprises twelve boxes at various points throughout the city. Each box is equipped with a telephone, a light and a bell.

Each man picks up headquarters and every time he passes a box. In the station the register reports the year, month, date, time and number of the signal and duty station.

## Northern Electric Gamewell Police Alarm System

He needs an hour for his get-away — this system gives him about three seconds. Because not only can the patrolmen call the Station but the station calls all the patrolmen. Twice as efficient as the old systems. Write our nearest house for full particulars.
