■ Skilled craftspeople at R. Bossé use time-honoured artistry to produce fireplace doors and accessories that reflect beauty and excellence. The company's products are recognized to be among the best on the North American market.

The R. Bossé fireplace doors, designed to fit standard openings, are available in a choice of colours in six different models ranging from the antique to the modern, each equipped with matching fittings. Shaped from superior-quality steel 0.6 cm (1/4 in.) thick and high-temperature resistant glass, every door is made with careful attention to detail to ensure that it meets the industry's highest standards. R. Bossé custom builds fireplace doors to any desired size or shape.

Constructed to the same high level of quality, the R. Bossé fireplace accessories include grills, pans, pokers and wood bins.

**Osburn Manufacturing Inc.**
