under the House, wherein we put our Wines, Brandy, Arong Beer, Butter, Cheefe, &c. Four large Fires are made in great Stoves, built on purpole, every Day : As foon as the Wood is burnt down to a Coal, the Tops of the Chimneys are close ftopped with an Iron Cover : This keeps the Heat within the Houfe (though "at the fame time the Smoke makes our Heads ake, and is very offenfive and unwholfome); notwithstanding which, pint four or five Hours after the Fire is out, the Infide of the Walls of our Houfe and Bed-places will be two or three Inches thick with Ice, which is every Morning cut away with a Hatchet. Three or four times a Day we make Iron Shot of 24 Pounds Weight red-hot, and hang them up in the Windows of our Apartments. I have a good Fire in my Room the major Part of the 24 Hours; yet all this will not preferve my Beer, Wine, Ink, Sec. from freezing MT \_sent-Apple 10 bit

For our Winter Drefs we make use of three Pair of Socks of coarle Blanketing or Duffield for the Feet, with a Pair of Deer-/kin Shoes over them ; two Pair of thick English Stockings, and a Pair of Cloth Stockings upon them; Breeches lined with Flannel; two or three English Jackets, and a Fur or Leather Gown over them; a large Beaver Cap, double, to come over the Face and Shoulders, and a Cloth of Blanketting under the Chin; with Yarn Gloves, and a large Pair of Beaver Mittings hanging down from the Shoulders before, to put our Handsin, which reach up as high as our Elbows; yet notwithstanding this warm Cloathing, almost every Day, fome of the Men that ftir abroad, if any Wind blows from the northward, are dreadfully frozen; fome have their Arms, Hands, and Face blifter'd and frozen in a terrible manner, the Skin coming off foon after they enter a warm Houfe, and fome have loft their Toes! Now their lying-in for the Cure of thefe frozen Parts, brings on the Scurvy in a lamentable tern 11 inanner.
