

which exactly fits it. The disks are shuffled up, and the puzzle is to fit each hole with its own disk. The names of the several shapes are taught the child, and his natural impulse is to run his fingers around the edge of each hole and then around the edges of the disks till he finds one the edges of the disks till he finds one that corresponds. Sometimes, to add interest to the sport, he is blindfolded. Incidentally to these experiments with the sense of touch the child is given a chance to learn the difference be-tween a rough surface and a smooth surface, and between hot, warm, tepid and cold objects.

surface, and between hot, warm, tepid and cold objects. The color sense, already awakened by the red and blue rods, is further developed by tests with silk of vari-ous colors. To avoid confusion only two strongly contrasted colors are used at first, then three; thus by de-grees up to eight, and finally several different shades of these colors. The name of each color is given to the child as he goes along, so that when the director asks for red, green or yel-low the child can pick the right color from the pile; or, if one color after another is held up, he can name it. Both observations and memory may be trained by holding up some object for its duplicate in color. A diminutive washstand, with shelves to hold basin and pitcher, soapdish, nallbritsh, toothbrush, towels, etc., small enough for him to handle, starts the child in dressing and undressing, dusting and wiping the shelves, and the like. To test his hearing there is an in-toresting, zame known as "The Sil-

Clearing Up Beds For Winter.

the shelves, and the like, To test his hearing there is an in-teresting game known as "The Sil-ence." All the children bend their heads, bury their eyes in their hands and compete in trying to keep abso-lutely still for a few minutes. The com is darkened, and the director tells them in a low whisper what she can hear—the ticking of a clock, per-haps, the buzzing of a fly, the stir of the leaves in a neighboring tree, or the breathing of a little boy near by. Then the director takes her place in an adjoining room, leaving the door

brand new sensation had come to Jarvis, that of helplessness, in a fight. There was a numbing feeling of horror as he recoiled slowly before this thing. Jarvis' back touched the wall just as the figure made a quick step and struck. But Jarvis jumped aside and again the sword rang harmless. It was the American's chance

and again the sword rang harmless. It was the American's chance to grapple, but he recovered his presence of mind too late. Now the spectre changed his tactics and carried his sword low for a thrust which Jarvis could not possibly have dodged. Jarvis ran round the big table and pulled himself together. Glancing about he saw the weapons on the wall. A quick dash and he had snatched down a great pole at. Here, indeed, was the very weapon made for the man-at-arms to withstand the arm-ored knight. Jarvis whirled it on high and struck as they came to-gether. The two-edged sword rosé to parry the blow. The ancient, rotten wood smashed at contact with Damascus steel and Jarvis was again defenceless. Once more a laugh floated to his ears, but Jarvis only laughed back, laughed in the face of he oncomnig mystery and dodged. The American's next weapon was a chair. With this, as a guard he managed to run in and out of danger, gaining confidence every instant, but unable to strike. Suddenly Jarvis stepped in and planted his foot just below the metal breastplate, where a coat of mail was the only protection. From the helmet sounded a muffied "oof." t on ne to-sword

lady friends ?---one who seems to run her household more easily and smoothly than the average. She has the happy knack of buying well-of making a dollar do a full dollar's work. Yet-after all-it doesn't need a genius to become a skilful home Imanager. The clever housewife is the woman who never buys haphazard. She selects her food supplies. She doesn't merely ask for "some" ham or "some" bacon, for instance. She goes to the trouble of finding out one definite brand of goods of known reputation-and she sticks to that brand. The Swift Canadian Co., Limited, has solved the food-buying problem for practically millions of housewives all over the world.

Swift's FOOD PRODUCTS

The following are some of the choice Swift specialties.

Always look for these brands, and insist on having them:

"Swift's Cotosuet." "Brookfield" Sausage. "Brookfield" Eggs.

The housewife who will make a point of asking for "Swift's" is well rewarded. She is

assured of uniform tip-top quality always. The name "Swift" is a

"Swift's Premium" Bacon.

ir below preceded absolute siles arvis turned toward the stairs nocked the laugh he had heard, mocked the laugh he had heard, but there was no answer. He picked up the great sword which the man in armor had dropped. Rusty stuck an ashen-gray face around the corner. Thanks for your assistance, Rusty," said Jarvis, recovering and reloading It is wise to cut off all the tops of any perennials still standing. Paeon-ies, phloxes, canterbury bells, digit-alls, jarkspurs, sweet williams—and many others. Lay all this debris on top of the roots, just as you clip the dead stems off. It will form a splen-did first layer of mulching, on top of which the thick manure mulching can be spread at once, without fear of the hot material coming to closely in contact with the tops of the roots. This spreading of dead leaves and stems and dried stalks, directly above the dormant roots, for the purpose of forming an inter-layer between the earth and the manure mulching pro-per, is a most important matter, for

STEERAGE PASSENGER JUMPS INTO ATLANTIC

Lifeboat Makes Vain Attempt at Rescue and Narrowly Escapes Disaster.

MONTREAL, Nov. 13.--(Can. Press.)-George Clapperton, Glasgow, a third. Class passenger on the Donaldson liner Athenia, which has arrived in port, committed suicide by jumping from the deck of the vessel in the mid-Atlantic. A boat which was launched in a vain attempt to rescue the passenger had to be abandoned, as the stormy weather made it impossible to haul the boat on board again. The crew in it were only rescued after a desperate struggle.

The local service of the Canadian Government Railways, in proportion to the population served (as a glance at the passenger timetable will show), is not surpassed by any railway in the world.

The American listened to the Afri-can's retreating footsteps, then his re-cent duel came back to his mind and he went to the hole in the castle floor and cast the lantern's light downward.

American Taffy—Three pint cups of sugar; one pint of water, three tablespoons of butter, one tablespoon of vinegar. When this is boiling briskly add a half a tablespoon of cream of tartar. Spread the nuts on a buttered tray or platter and when the syrup has boiled until it cracks in and cast the lantern's light downward. As in a perfect mirror the lantern and his own earnest features were re-flected. Not a ripple disturbed the surface, which a few moments before had been shattered by the descent of a man incased in mediaeval stee! Jarvis listened, a faint dripping sound came from the depths, then his ear caught something else. water pour it over them. caught something else. "O-o-o-o-oh, Marse Warren,"

Avenue road is gradually becoming a business street thruout. From Mac-pherson avenue to Cottingham street, on both sides of the street, it is now in on both sides of the street, it is now in the business section, the west side having been taken out of the residen-

WELLAND, Ont., Nov. 13.--Col. Sam Hughes, minister of militia, at a con-terence this morning with Mayor Good-win, Industrial Commissioner McCon-mick, Byron M. Green, H. L. Hatt, Servia grows 6000 acres of tob yearly 222 102 203 Nut butter is liked by all persons fond of a rich spread. With the help of a food chopper it is easily made at home and finer in flavor than the com-mercial article. The principal reason for making them at home, however, is to have them fresh, as these butters are sold in stores at a lower price than we can purchase the nuts and make them. You need not use all peanuts, but these usually form the base; pecans and Brazil nuts make a splendid addition. Use the finest knife in the food chopper and put the nuts thru twice, season with salt and a tiny bit of pep-per the second time; if the butter is to be used immediately, a few drops of Marse Warren's night had a significant of the second time; if the butter is to be used initiation of the blow out his lantern as it made the negro too good a target. His last words to the colored man were in case he should see anything to holler. "Holler," echoed Rusty in a shriek as he thrust his head back thru the door, his eyes round with the excitement of walnut kernels is used with each cup of rice, but more or less will not injure the result. Shape the croquettes and roll them in well-buttered crumbs. Bake in a very hot oven until the outside is a nice golden brown. In The Bathroomon the bathtub, wash-basin, linoleum, woodwork, mirrors, lavatories and all metal fixings, use Panshine. It is perfectly wholesome, has no disagreeable smell It is hardly fair to write about nuts without inserting a few words in regard to taffy, for nut lovers everywhere enjoy making this dainty every fall. The following is well suited to any sort of nuts, but hickory, pecans and leaves nothing but absolute clean-liness behind it. and walnut are best in it.
