STEEL STOCKS STRONG AT TORONTO MARKET

Nova Scotia Steel and Steel Corporation Have Sharp Advances in Friday's Market.

The Toronto stock market took another favorable turn yesterday, with coal companies dominant in trading and buoyancy. Both the Nova Scotia and Steel Corporation companies are known to be passing thru a highly prosperous period and are in better financial condition than at any previous time. mancial condition than at any previous time. Predictions were freely made yesterday that. Nova Scotia Steel would sell at 125 and Steel Corporation at 75 before the end of the year. Most of yesterday's buying of these shares came from out of the city, part from Montreal and part from New York. The Nova Scotia trading ran into 1200 shares and Steel Corporation 300 shares. Among the Corporation 300 shares and Steel Corporation 300 shares. Among the minor speculative issues. Barcelona and Cement bulked largely in the trading at advanced prices. Smelters was active at an advance of nearly five points for the day. The general market was steady to firm, but a distinct tendency was shown for specialties, and a higher market in these seems imminent.

and comprehended every part of the stock list, railways again assuming unusual prominence.

Sieel led the market except during the forenoon, when Reading and Eries among the rails and Anaconda Copper dominated the trading. In the afternoon buying orders lifted Steel to 87 5-8, a gain of 2 1-2, and within a slight fraction of its recent best. Steel was taken in lots of 3000 to 12,000 shares and its rise was effected at some cost to the short interest.

Coppers responded to an increase in the price of the refined metal with gains of 2 to 3 points. Fertilizer stocks and Petroleums, which recently fell back with other specialties, were materially higher.

All the war shares participated in today's rise, except Bethlehem Steel, which was extremely inactive and closed at 540, a decline of 19 points.

Canadian Pacific led the rails, opening at a substantial gain and steedily.

Dome 25.75 STANDARD EXCHANGE. Cobalt Stocks-Timiskaming, McIntyre, Vipond and Peterson Lake Are Active at Higher Prices.

An increased public demand created a better market on the Standard Exchange yesterday. Scarcity of stocks was again evidenced by the rise in Crown Reserve to 52 and Foley O'Brien to the 50, a rise in each of over five points. Timiskaming, McIntyre and Vipond, perhaps the freest trading issues on the market, were both strong, the former selling at 43 and McIntyre at 54 1-4. McIntyre Extension was wanted at a three point advance. These shares promise to be among the most active on the exchange as soon as a thoro understanding of the company's holdings is disseminated thru the public mind. Silver metal was stronger again at 49 3-8, and this perhaps accounted for a new demand for Peterson Lake at a fair advance.

The McIntyre shareholders confirmed the purchase of control of the Jupiter Company yesterday and the McIntyre now controls a well rounded out block of the Cobalt camp. The market gives every evidence of developing further strength and activity.
