

FRONTISPIECE
NEW & Universal

To MILLAR's
SYSTEM of GEOGRAPHY.

THIS ELEGANT FRONTISPIECE

Represents an emblematical Figure of Geography seated by the Basis of Britannia & according in regular order, A New Geographical History & Description of Europe, Asia, Africa & America, who are here introduced on the occasion, by Neptune, as emblematical representatives of the World, bringing the various products & curiosities of their respective Countries. Near Britannia is Mercury, charged with the delivery of New Discoveries in various parts of the Globe, which point out the assistance the Author has had from the late celebrated Navigators & Travellers. The other emblems of Trade & Commerce, Ships & call denote the several Departments of this Future New & Complete System of Geography.

*When I see you see think of Mother & me
My God bless you all*
