

THE HUMAN BODY IS AN ELECTRIC BATTERY

Startling New Discoveries Prove Beyond all Doubt That "Electricity" is Life.

Men of Science Demonstrate the Value of Electricity as a Cure for Disease.

Remarkable New Invention Meets With Great Success.

That the human body is electrical is no longer a mere theory among scientists and up-to-date physicians. It is generally conceded to be an absolute fact.

Professor Edgar L. Larkin, discussing the new physiology, writes as follows:

"A man, brain and body, is a battery, and nerves correspond to wires. It is now certain that transmission of sensation over them is electric. Nerves have been cut and a galvanometer inserted. The needle moved, proving that nerve power is electric. The human system is an electro-chemical battery and the life principle is electrical. The electric age is here. Drugs are hard hit on all sides, and an intelligent physician tells me he has almost entirely stopped their use. The word health now means a normal supply of electricity in the body and the word disease means an insufficiency of that power."

Dr. Albert J. Atkins, the eminent California scientist, is still at work proving that every principle in what we call our electrical science is merely borrowed from the human body. We propel our trains and automobiles by means of electricity and think it wonderful, but the human dynamo has almost always known how to do it with skill and almost absolute safety in either walking or running, and now Dr. Atkins shows us that the million-ampere in his automobile and the bobo on foot are alike carried forward by electrical force.

"With a man's stomach as the only electric battery, Dr. Albert J. Atkins and Dr. J. Lewis recently charged an ordinary telephone apparatus so that it conveyed sound," says a San Francisco morning paper.

"It demonstrates that the human body is an electric battery."

The experiment consisted in the swallowing of two platinum electrodes, so that they touched the walls of the living stomach.

"By means of copper wires the electrodes were connected with a telephone and a microphone, a sensitive instrument which greatly intensifies sound."

"There was absolutely no mechanical or chemical battery in the circuit, yet the moment the electrodes were swallowed sufficiently to touch the walls of the stomach, human electricity flowed over the wires rendering audible sounds. The electric charge measured from seven to eight volts on a western galvanometer."

Finds Cure for Appendicitis

Dr. Hansy Archibald, of New York City, has discovered that appendicitis yields to the action of electricity pretty nearly as mist is dissipated by the sun. When the electric current is sent into the Archibald's office, the physician trains the powerful penetrating electric ray upon the sore spot. Right away the swelling goes down and the excruciating pain stops short. And after five or six days, Dr. Archibald says, the cure is always complete.

Electricity the Basis of Human Vitality

Professor Jacques Loeb, after 10 years' research and experiment made this statement:

"A part of the chemical energy of foodstuffs is transformed into electrical energy, which in turn gives energy to the muscles and organs of the body. Electricity, and not heat, is the life of the body. These discoveries are going to upset the theories of medicine as administered by the physicians of to-day, as is set forth in the following statement:

The new cure is nothing more or less than the process of bombarding the congested area of the appendix with electric rays and a high-frequency current. The treatment causes the blood to return to the center of circulation and the congestion disappears for the simple reason that the cause of the congestion has been removed—and that's the end of the appendixitis."

Keeps Old Age at Bay

"Electricity will restore elasticity and buoyancy of youth," declares a famous New York physician, writing in the Medical Times.

"No matter how old a man may be nor how young in years, whenever his arteries begin to harden, to resist the increased pressure of the blood, then actually is old. Then the electric treatment must be applied and after a few times nature takes up the work and carries it on, and the patient gets young again—or at least he is able to resist the encroachments of old age."

"By electric stimulus the system is energized, the blood made to circulate equally, the digestion aided, the waste products eliminated, the repair tissues are assisted and the normal working of the bodily functions restored."

Electricity Will Supersede Drugs

I maintain that electricity is the power which runs the human body—the force that keeps the heart going, the blood circulating and the various organs performing their functions like so many machines. I claim that electricity works the miracle of digestion, and assimilation and converts the food into blood, bone, tissue and muscle and supplies the brain with power to think.

I have had my theories confirmed by the world's most learned scientists and to-day the use of electricity as a restorative agent is spreading to every corner of the civilized world.

While others were speculating and arguing over the merits of electric treatment, I have gone ahead and achieved results, and I can point with pride to men and women in all walks of life who regained health and strength through the use of my Electric Body Battery.

Before I talk further regarding the use of my appliance I must understand that the human body is an electric organ, deriving its motive power from the digestion of food in the stomach. This electric force, generated in the stomach, is taken up by the nerves and conveyed to the different organs

of the body, and is their life. So long as there is sufficient electric energy to satisfy the demands of nature, the vital organs perform their regular functions properly, but just as soon as the natural electric force is overtaxed in any way the organs become weak and inactive and sickness or disease is the result. Now, you can't cure the trouble until you restore the lost force. Nature must have more electricity or vitality, as is termed by medical men, in the ailing part. You can not renew this force by doing the stomach with poisonous drugs, which only help to drain away the vitality that you have. When every organ of the body has all the motive power—electricity—it needs, weakness and disease can not exist.

Now, the purpose of my invention, is to restore this electric force in a natural, scientific way. When the stomach is unable to supply the demands of the vital organs you must assist nature by filling your nerves with galvanic electricity.

My appliance is a generator of a powerful but soothing current of electricity, worn about the body while you sleep. It sends a subtle stream of electric life coursing through the nerves and vital for hours at a time. Its touch is gentle, without stinging or burn. There is no shock. All you feel is a glowing warmth.

Electricity fills the nerve cells with new life. It drives out pains and aches, builds up vitality and strength and cures such troubles as lumbago, nervousness, rheumatism, insomnia, female complaints, varicose veins, weakness of any kind and all stomach, kidney, liver or bowel disorders.

The Product of Experience

I have devoted years to the perfection of my appliance, and have supplied new features from time to time, so that my appliance is in a class by itself.

The current can be regulated to any degree of strength by the pressure of a finger upon the regulator arm.

Compared with mine, all other electric body appliances are products of the blacksmith's hammer.

It is not upon this point, however, that my success has been founded. My immense business is due to my knowledge of the effect of electricity upon the ailments to be treated and the best way to obtain that effect.

I study the case of every sufferer who comes to me and explain how the application of my appliance may be of benefit to the sufferer in each particular case. When you consider that electricity is life to the organs into which my appliance sends it, you can understand the swelling heat and the excruciating pain stops short. And after five or six days, Dr. Archibald says, the cure is always complete.

When I say that my appliance cures, I don't ask you to accept my word alone as evidence. I would refer you to people who got back their health through the use of my appliance, and they will tell you what it did for them.

Here Is Proof

Rheumatism quickly removed. Electricity dissolves the acid and strengthens the kidneys.

Rheumatism Cured—Never Felt So Well for 30 Years.

Cochrane, Ont.

Dear Sir—I cannot say too much for your Belt. I consider it completely cured me of Rheumatism and I never felt so well for the last thirty years. I would recommend it to any Railroad man suffering from weak back or kidney disease. I only wore my Belt for one month. Yours truly, William Honan.

A Remarkable Cure of Paralysis.

Blanche, Que.

Dear Sir—No doubt you have forgotten me, for I bought my Belt from you twelve years ago, and after wearing it for three months, was cured, and have been well ever since. When in July I took a stroke, losing the power in one arm and one leg, I have been under treatment with hot baths and have used an electric battery on my arm and leg, and although I could walk a little, still I had pain, so I thought I would try my old Belt, and to my great surprise, after wearing the Belt for one night, I had no more pain, and after using the Belt one week, I started buying and helped make fifty-two loads of hay, with only one man to help me. I have used the Belt every night, and have done a lot of work at harvesting since then. I know that my Belt gives me great strength, and I do not believe in using drugs.

Yours very truly, Charles Jacobson.

Cured of Catarrh of the Bladder at 70 Years of Age.

Granby, Que.

Dear Sir—Your Belt has done me more good than all the drugs I have taken. I would not have lived much longer if I had not got it when I did. I just received it in the nick of time. It did me good from the start to the present, and has, I believe, cured me of my ailments. It was a God-send to me.

Yours very truly, Isaac Seale.

Permanently Cured.

Lime Ridge, Que.

Dear Sir—I am glad to say that your Belt has made a permanent cure of my case. After using the Belt and following directions for three months, I felt like a new man, and have not used it since. As it is now over eighteen months since I stopped using the Belt, and have had no return of my trouble, I find I am cured, and can not express the gratefulness I have towards you and what your Belt has done for me. Before using your Belt I weighed 140, and now I go to 170. I am recommending your Belt to all my friends. I remain, yours truly, Leon Rolfe.

Originals of above statements can be seen at my office, 237 Yonge Street, Toronto, Ontario. Copies of these and hundreds of others, together with an 84-page book telling all about this home electric treatment by my body appliance, are furnished free if you will send or call for them.

"THE WORD HEALTH NOW MEANS A NORMAL SUPPLY OF ELECTRICITY IN THE BODY AND THAT DISEASE MEANS AN INSUFFICIENCY OF THAT POWER."—Professor Edgar L. Larkin.

Health Without Drugging

M. d'Arenval, a well known savant of the Physiological Institute, of Paris, in an address at the Institute, said that "electricity" would be the medicine of the future. He showed that it is excellent for certain maladies and described the difference between sudden shocks and the slow method by which it pervades the system without the patient's consciousness.

Electricity is Nature's Medicine

Professor Andrew MacConnell, president of the Society of Universal Science, in a recent essay, made this statement:

"The only difference between a well man and an invalid is that the invalid is not producing enough electric power to run the functions of his body and keep the vital organs up to the necessities of life."

"With some 200 scientific experiments from recognized scientists it has been conclusively proved, that

How the Nervous System Conveys Electricity to All Parts of the Body.

Telephoning With Power Furnished by the Human Stomach.

this power is electricity; that by understanding the laws governing the production and control of electricity in life, any human can cure himself. In a few weeks, can increase his working capacity, can increase his vitality to the point of having an overflow of happiness and joy, and also that any person feeble from age may in the same way rejuvenate himself, and not only that, but also that any chronic disease, that one begins from ignorance of the laws of electric production to gradually decrease his generation of electricity until he finally reaches the point where he does not produce enough to keep his vital organs running. This means death.

The same amount of electricity in a man of 70 would make the same power as the same amount of electricity in a man of 30. This proves the prolonging of life a scientific matter of keeping the production of electricity up to the normal needs of the body."

The Danger in Drugs

Many people believe that when a drug gives relief it is doing good. That's a big mistake. Drugs can only give temporary relief, and it is always at the expense of the nerves and vital organs.

If you have a pain or an ailment of any kind, you don't want to fool yourself into the belief that you are getting well when you are not. That's all you do when you dose yourself with drugs.

It is easy enough to stop a pain by stupefying the nerves with poisonous drugs, but the pain will return as soon as the stupor passes off. You can force a weak organ to act by giving it a powerful stimulant, but you can't restore its natural strength that way, and it will be weaker than ever when the drug stops working.

That is why temporary relief is dangerous. Drugs do not remove the cause of disease, and every minute that they give relief the disease is getting a firmer hold upon your system. As long as the cause remains the trouble stays there, and the only way to get rid of it is to assist nature. Nature wants strength, vitality, power to fight disease and drive it out, not poisons which only make it worse.

Electricity is life. It is the force that the proper use of it will restore you to perfect health.

Disease always results when you break nature's laws. If you continually overwork the stomach you will have stomach trouble. If you abuse and organ you will suffer for it afterward. Then the real cause of disease is due to the weakness or inactivity of some part of the body machinery. The reason any organ breaks down or fails to work properly is because it has not enough vitality to withstand the strain when it is overtaxed. This vitality is nothing more than electricity, the motive power of the human body. Now, to cure the disease, you must restore the vitality of the part that is weak, and that causes the trouble. When this is done the disease can not exist, for the cause is removed.

Electricity for Weak Nerves

A great many people suffer from ailments caused by weak, impoverished nerves, and try to cure these troubles by dosing their stomachs with drugs. It is impossible.

Prof. E. L. LARKIN

Why My Appliance Cures

In most cases all such women need, is strength, more vitality and nerve force. With the organs of the body are denied the vitality necessary to perform their proper functions, inactivity and disease result.

My appliance renews the activity of the weak organs and builds up vitality and strength where it is needed, by infusing the body with a glowing current of electric life.

Human Electricity

"A party asked the other day why it is that faradic batteries and static machines do not give such results as my electric body appliance."

"That's because you can't stand the treatment for more than a few minutes at a time. A nervous person can't endure it that long on account of the shock. When a man tries that method and finds that it does not help him, he naturally concludes that electricity is no good."

Now, my system is different. With my plan a current is sent into the body six or eight hours every day or night, usually while the patient sleeps. The delicate nerves are not jarred or shocked by this current, as it goes into them like a driving rain saturates a newly-plowed field. They absorb it, drink it in, and as it is their very life, they grow strong with it."

Poor digestion, inactive liver, constipation, sluggish heart, slow thinking, dormant energy and laziness are all due to lack of electricity. Understand that electricity is the motive power of the human machine, the power that keeps the organs active, and you will see what we mean. In such cases you will see how my appliance will put energy into the body, it renews the electric life of the nerves, and transforms the sluggish into a bundle of vigorous energy. Because you have experimented with faradic batteries and belts, or taken electric treatment from physicians without being cured, is no reason why my methods should prove a failure. The doctor's battery can only be applied for a few minutes at a time, and that is not enough to effect a cure. Besides, that method is inconvenient and expensive. My appliance can be used all day or all night without interfering with your work or rest. It takes up none of your time."

Do you doubt it? If so, any man or woman who will give me reasonable security can have my Belt, with all the necessary attachments suitable for their case, and they can

Pay Me When Cured

There is a whole lot of prejudice against advertised remedies, due no doubt to the large number of quacks and schemers that have fostered worthless treatments on the public during the last few years. If it were not for this prejudice I would not be able to handle all the business that would come to me. The many people who have been cured by my "vitalizers" advertised by charlatans have made many people skeptical; but I know that I have a good thing on my hands, and that everybody knows it."

Any organ of the body, any part that lacks the necessary vitality to do its work as nature intended, can be restored by this electric treatment. It gives strength; it makes the blood rich and warm; it vitalizes the nerves and puts vim into the brain and muscles; it just makes a good man out of a bad one in every way.

My appliance cures rheumatism in its worst forms. It cures pains and aches, weak nerves, general debility and any other trouble which can be cured by restoring the life force. No matter where you live, you could come here to my office.

Books Worth \$2.00 Free

To any man or woman who will mail me this coupon I will send free (closely sealed) my finely illustrated books regarding the cause and cure of disease. These books are written in plain language and explain many secrets you should know. One especially for men; another for women, 84 pages.

Don't spend another cent on doctors' and their worthless medicines. Electricity cures to stay cured. You should know about it.

Don't wait another minute. Cut out this coupon, right now, and mail it. I will send the book without delay, absolutely free.

DR. M. J. McLAUGHLIN, 237 Yonge St. Toronto, Canada.

Dear Sir—Please forward me one of your Books, as advertised.

Men Made Young at Sixty

There is no excuse for men being old at 60, complaining about pains in the back, stiffness in the shoulders and legs, that "tired feeling," nervousness, indigestion, constipation and failure of vitality. Nature started you with a constitution that ought to have held good until you are 80, and you ought to feel like a man now, but you have overdone some things and wasted your vitality. You still have the constitution, but lack the force. That is electricity. My appliance will restore it.

Look at the men who have used Electricity and you will see men of force, men of power and confidence, men who respect themselves and are respected and admired by their fellow men.

Wouldn't you like to be the man you were a few years ago, to have the same ambitious spirit, the strength and vitality that you used to have? Wouldn't you like to be free from pains and aches, and to feel that you are the equal in strength to any man of your age? You can be.

All that you lack is vitality—new life. You are like an engine without steam—you haven't the motive power to keep the machinery of your body working properly. Anything that will restore your "steam" will make a new man of you. Drugs have been tried and have failed. You know that my appliance will not fail; it is electricity, and "electricity is life." That is what you require, and the proper use of this grand appliance will give you health and happiness.

Woman Saved From Dangerous Operation

A large percentage of women's ailments are so perplexing that operations are often recommended by physicians. Such operations are not only dangerous, but they sometimes cause serious complications. Thousands of women are needlessly butchered who could be cured by Electricity in the privacy of their own homes.
