Health and Beauty Helps

BY MRS. MAE MARTYN

K. R. : Regardless of your age, I would not recommend the use of face powder. It clogs the skin's pores and in time will make your complexion rough and anything but handsome. The best kind of a beautifier is made by dissolving four teaspoons of spumax in one-half pint of witch hazel (or hot water), adding two teaspoonsful of glycerine. This will whiten and refine your skin. It is taken away, either by looking better than powder and does not show or rub off so easily. This lotion will clear your complexion and give it a wholesome, charming tone, also affording the skin splendid protection from chapping in the wind.

Mrs. F. B. : To have a head of perfect hair you must keep your scalp absolutely clean and free from dandruff. If you wash your hair twice a month with a teaspoonful of caustic soda dissolved in a cup of clear water, you will find your hair will always be fluffy, bright and clean. This is the best class of hairdressers use that most exclusively. It makes the hair dry quickly without any signs of dryness, and causes no other bad effects which are caused by removing dandruff. Cleaning the hair and giving it to that much desired fluffiness and brilliancy.

C. P. : Your pimples, sallowness and condition of the body. The only way to remove these is to clear your blood of its impurities. Dissolve one ounce of karsene and six cupsful of sugar in a quart of alcohol, then add hot water to make a quart. Take a tablespoonful before each meal. This is a splendid system tonic and will soon restore the look of perfect health to your face, fill out your cheeks and give you the energy and ambition which only a healthy person has. It is a wonderful blood purifier, energizer and liver regulator.

M. D. : You can make your hair grow in thick and abundant by rubbing into the scalp twice a day the following tonic: Mix together six pint alcohol, ounce quinine and pint cold water. This will show better results in a short

AFTER THE CLOUDBURST CAME THE SUNSHINE.

Havillan's Big Hippodrome opened to surprising capacity at College and Decourville.

One of the great features was the well known James E. Hardy, the high wire king, Toronto's favorite.

Then came the surprise of the evening, Achille Philmont, the great spiral tower king, formerly of Ottawa.

This act stands peerless alone in the aerial world, outside of a well balanced program, opening with the Great Jacksons, well known acrobats and contortionists, following with Bombay Deerfoot, the great So Indian Chief, manipulating the devil stick and lariat.

Then came the original Ferial Bros., clever trapeze performer. Then the great laughing act, Delivoy and Prits, English pantomimists and clowns, in their wonderful trick house act, that has made the world laugh, and must be seen to be appreciated.

Next, Signor Russell, in his world-famed dislocating act.

Then the Zerkides lady and gentleman, late of Barnum and Bailey Show, and all the leading circus, with head and hand balancing, and the lady's slide for life on her head down a steep incline. The only lady in the world doing this act.

Next, Clarence Duval, well known trapeze performer, giving way to Tommy Vral, the great ring expert, assisted by trained dog Nick.

The musical program furnished by Prof. Wiggins of the Moose Band, was a treat.

Performances are to be given at 2 and 8 p.m.

The management of the big hippodrome, after consulting with his business manager, has decided that instead of charging for reserved seats, to make an admission, six adults, and five for children, night performance. No charge whatever for seats. Afternoon adults five, children three.

If paint is splattered accidentally on the window pane it can be removed, a, once by a rag dipped in hot vinegar.

Heinrich sheets and pillow slips are always neat, yet not all housekeepers feel they have time for the work by hand. Draw threads as you would for ordinary hemstitching, fold the hem and baste along the centre of the drawn space, and sew by machine, shortening the stitch and loosening the tension. When you have finished, draw the basting-thread, and draw the hem back to the edge of space. You will be surprised to see how quickly the work is done and how nice it looks.

The best medium for mending china or porcelain or pottery of any description is white oil paint. Buy a tube of a good make and use it like tube paint. If you have a box of oil colors you may add enough of any color to the white to match the broken article; but the white does not show and is astonishingly effective. Cut-glass and porcelain can be mended with it. Place pulverized pumice stone between the layers of a folded piece of soft muslin and stitch around the hole so keep the powder from spilling. Wipe lamp chimneys or window panes with this dry cloth and they will be clean and sparkling almost instantly. Enough powder will remain in the cloth to be used many times.

Remove every trace of hair from your chin. Make a paste with a little powder, ed delatone and water, then spread on hair surface and in two or three minutes rub off, wash the skin and the hairs will have vanished. This is a painless and certain way in which to banish hair growths.

Juanita : The cost of fat reduction need not be high. If you will buy four ounces of paraffin and dissolve in five pints hot water, you have the best and safest fat-remedy known. Take a tablespoonful before meals and after meals. Paraffin is absolutely harmless and has worked wonders where other remedies failed.

A. L. M. : I do not like to recommend any of the prepared cod creams, as most of them are greasy and are likely to cause hair to grow on your skin. Try this : Stir one ounce almond and two water. This will make an excellent cream that will soothe your skin and keep it smooth, velvet and free from chapping. It will keep your complexion radiant, perfectly clear and free from blackheads and wrinkles.

IF THIS IS YOUR BIRTHDAY

You will meet with misfortune unless you are very careful. Do not judge without considering or act hastily from impulse. Keep your spirit calm by recreation out of doors, if possible. Those born to-day have inclination toward wilfulness and should be made to understand early that their judgment is not final.

The Nursery

"We are to-day, what we are because our past has been what it was; what we will be in the future depends upon what we now are."

Now does this great law stop there. We are now by our conduct every day, by our thoughts, by our choices, forming character and developing tendencies which will be transmitted to future generations. So that, by training your child rightly now in his babyhood, you not only bring to yourself happiness, but you benefit all his descendants. Is not worth while?

No doubt you have noticed that a monotonous humming soothes a baby when he cries of play, and comes to you for a few moments' rest and cuddle. And no matter how young he is, he loves you to tell him stories that rhyme. The measured accentuation of sound charms him. It is exactly the same delight that he takes in running a stick along a picket fence, or beating steadily on a drum. It is the same instinct that prompts him to ask: "What happened after that?" If you end a story before the little hero becomes a man. These and scores of incidents, that you will recall, show a desire to understand progress or continuity; and to cause all things to become complete.

In thousands of ways nature illustrates this law of continuity. Mist rises from a body of water, ascends into clouds, floats over the land by means of the wind, is changed into rain, and then comes again, of the original Ferial Bros., clever trapeze performer. Then the great laughing act, Delivoy and Prits, English pantomimists and clowns, in their wonderful trick house act, that has made the world laugh, and must be seen to be appreciated.

PUBLIC AMUSEMENTS

Lulu Glaser at Princess

The management of the Princess Theatre announces winsome Lulu Glaser in her newest opera success, "Miss Dudesack," for a week's engagement starting Monday. Miss Glaser has delighted Chicago, Boston, Philadelphia, Washington and the Eastern cities in this continental opera success which has been seen all over Europe. Its Highland scenes, kilts, plaids and color combine to form an unusual and picturesque background for a story of romantic interest. The music in "Miss Dudesack" is of the Viennese type and the opera is said to abound in the hitting and singing wails and song numbers such as the "Merry Widow," "The Chocolate Soldier" and "The Spring Maid" have popularized Miss Glaser has had no role since her famous "Dolly Varden" which fits her joyous personality as does that of the bonny Scotch maid in this Highland musical gem. She will have an organization of over sixty, with a special orchestra and elaborate scenic production. The seat sale opens to-day.

Percy Haswell in "The Jilt"

For the second week of her engagement Miss Haswell will present "The Jilt," one of the greatest successes of the late Dion Boucicault. It is Miss Haswell's intention during the summer to present a number of plays and comedies popular twenty-five or thirty years ago. This will be done at the request of many of her patrons who are desirous of seeing dramatic works that were popular in their younger days. Mr. Boucicault in his day was not only looked upon as the leading exponent of Irish character on the stage, but was also considered the ablest dramatic playwright in which subjects dealt with. A splendid production of this delightful comedy is promised. The mid-week matinee will be given on Wednesday instead of Thursday.

The Great Divide.

"The Great Divide," the "long awaited" great American play, as the leading New York critics have called it, will be presented at the Grand Opera House next week with matinees on Wednesday and Saturday. No play written within the memory of the present generation has been so thoroughly discussed and so unanimously endorsed by the world's foremost dramatic reviewers. Recently in London, with Mr. Miller in the cast, it broke all records of American plays and advances from the English metropolis say that it will be there for years to come. For more than two seasons "The Great Divide" has played to enormous houses in New York. Every reader of the newspapers and periodicals is familiar with the emphatic verdict of popular approval accorded this brilliant drama of American life from the pen of William Vaughn Moody, who has won recognition as the first American dramatist to write a really great American play. The play will be presented here with the complete production, scenic equipment and accessories just as given for over six hundred performances in New York.

Pauline Coming to Shea's

Next week Shea's Theatre has for the headline attraction Pauline, the hypnotist, who returns to this country after several seasons in Europe. Pauline is a sensation. He combines humor with science and his hypnotic power often puzzles the scientists.

The special features for the week are the Youngman family, marvelous wire artists, and James Diamond and Co.

Cream Mints

Cream mints are particularly attractive when made and dipped after this fashion: Boil two cupfuls of sugar, one-eighth teaspoonful of cream of tartar, one-half teaspoonful of glycerine, and one-half cupful of water until a soft ball may be formed when the mixture is tried in cold water. Turn into a bowl, set in pan of cold water, and as mixture begins to cool, stir from sides of bowl, and when all is cool beat until of a creamy consistency. Turn on a platter, and work between the hands, while flavoring with oil of peppermint, wintergreen, clove or cinnamon. Make several quantities of this mixture, which is known as fondant.

Tomato Rarebit.

Put two tablespoonfuls of butter into the chafing-dish, and when melted, add two tablespoonfuls of flour, and stir until well blended; then pour on gradually, while stirring constantly, three-fourths cupful of cream, and as soon as mixture begins to thicken add three-fourths cupful of stewed and strained tomatoes mixed with one-eighth teaspoonful of soda; then add two cupfuls of soft mild cheese, cut in small pieces, and two eggs, slightly beaten. Season to taste with salt, mustard and cayenne, and serve as soon as cheese has melted on crackers.
