"The coal situation is becoming intolerable," he continued. "Things are really going from bad to worse. Can't the city authorities help us out somewhere? Can't they supply us with few wagons? ## PLEADS GUILTY TO THE LESSER CHARGE

Vergie Ellis Admits Concealment of Birth of Child and is Allowed Suspended Sentence.

Before Justice Lennox in the assizes yesterday afternoon, Vergie Ellis pleaded guilty to the charge of concealment of birth and was allowed to go on suspended sentence. The original charge was murder, which was afterwards reduced to the lesser charge. T. O'Connor, who appeared for accused, asked permission to withdraw the original plea of not guilty to the first charge, and substitute that of guilty under section 272 of the Criminal Code. Justice Lennox, Frank Arnold, K.C., asked that his honor pass suspended sentence. "You have been charged with one of the most serious crimes," stated his honor, "and it becomes doubly serious when the crime is against your own child. If concealment of birth were to be permitted, it would mean the increase of crime. It is always difficult for anyone to best administer the law so as to prevent crime. I am not out of sympathy with the feeling that the man is supposed to be the stronger vessel, but it is a fortunate thing that most of our women are strong enough to resist temptation of this kind no matter what the circumstances may be."
