August Furniture Sale.

To-day's emphasis is on our Semi-Annual Furniture Sale during August. To-morrow morning we shall commence the greatest distribution of reliable Furniture ever attempted in Toronto or Canada. Months ago we anticipated this event by placing large orders with furniture manufacturers. Our ready money, used to the best advantage during their dull season, reduced the cost to the lowest possible point. During this sale we are satisfied with a very small profit, thereby enabling us to sell at prices that cannot be equalled anywhere. But no matter how little the price may be every article will be thoroughly reliable, having been carefully selected, well made and finished. These special prices are for August only, and when the goods are sold they cannot be duplicated for the money:—

The World would be sadly lacking in its duty as a public journal if it failed to give expression to the public sentiment that is now at fever

We begin our remarks by making this assertion: that Mayor Fleming is seeking the office, the office is not seeking him. It is now as clear as daylight that he has had his eye on the commissionership for several years. Last year he had a special amendment made to the Municipal Act to prepare for his resignation at this juncture. Under that amendment, when the Mayoralty becomes vacant after July 1 of any year the vacancy is filled by the Council, not by the people. If Mayor Fleming gets the commissionership his successor will be chosen by the aldermen and from among themselves. It is important to bear this fact in mind. We make the statement Canada proposes for those alone who are deliberately and emphatically that Mayor Fleming is steering himself into within the pale. Great Britain has notithis office. No deputation of citizens has waited upon him requesting him fied the world that the Empire nations to accept the office. No suggestion has been made by any of the business men of the city that the salary of the office should be doubled. The "call" to the office and the doubling of the salary emanate from the brain of Mr. preference from Great Britain. The
