FIRE CAUSED \$15,000 DAMAGE.

Union Loan Building Will Be Re-modelled.

The Toronto Mortgage Corporation, owners of the Union Loan building, 28-30 Toronto-street, which was damaged by the fire yesterday morning, place their loss at \$10,000. The insurance carried by the company was \$25,000, and is made up of \$15,000 in the Actina and \$10,000 in the Scottish Union Company. An examination of the basement yesterday showed that the fire probably started in a barrel of waste, which stood at the foot of the elevator shaft. Nine months ago the steam-pipes caused a small fire in the same building. It is the intention of the Corporation to remodel the interior of the structure at a cost of \$20,000 to \$25,000.

Of the tenants, Burke & Harwood, architects, suffered most. Their loss is placed at \$2000, against which there is some insurance. The offices of O'Hara & Co., brokers, on the ground floor, were very slightly damaged. The loss being covered by insurance. Water soaked into the office of J. H. Stark & Co., brokers, also on the ground floor, and the damage caused thereby is put at \$100, with no insurance. The shirt manufacturing firm of Winton & Leyden suffered to the extent of \$300, covered by insurance.

The law firm of McLaren, Macdonald, Merritt & Shipley carried insurance of \$1000, in the Union Company, which amount more than covers their loss. The damage in the offices of C. G. Baines, broker, and G. Bruenich, artist, was slight.

Telegrams.

Messrs. Newsome & Gilbert, Toronto: Orders for Smith Premier typewriters received during February just closed show an increase of nearly 50 per cent when compared with orders for February, 1901. In this computation we do not include our exclusive order for 1200 machines for Austrian courts. Each succeeding month a record breaker.

The Smith Premier Typewriter Co., M. C. Smith, Secretary.

One of the largest orders ever given for typewriters has just been awarded to the Smith Premier Typewriter Company. The Austrian Ministry of Justice, after competitive tests, ordered the exclusive use of Smith Premier typewriters in the courts, and contracted with the Smith Premier Company for 1200 machines. This is another proof that merit wins.

Pleas for Rigo.

Paris, March 3.—It will be remembered that the appearance of the taigne Rigo at the Palais Bergeux was forbidden by the Prefect of Police. To avoid unpleasant demonstrations, they warned Rigo. The former Princess Chimay has just accompanied her husband to the prefecture, where she made an ineffectual appeal against the order, but the Prefect told her the interdiction was irrevocable.

It is an easy matter to get coal from us. Ring up phone No. 121. State your wants; we do the rest. P. Burns & Co., 38 King East.

Inland Revenue and Customs.

The receipts of the Inland Revenue Office for February were \$84,978.32, against \$82,211.22 for the corresponding month of the previous year, showing a decrease of \$2767.40.

For February the receipts of the Toronto Custom House amounted to \$901,024.41, compared with \$480,243.35 for the same month of last year, an increase of \$420,781.06. The increase is attributed to the large importations of dry goods and millinery, which have been exceptionally heavy during the past month.

**GOOD AMERICAN MULES.**

London, March 3.—A parliamentary paper was issued tonight, containing despatches and reports regarding the remount department in South Africa. It refers to the American mules as being the "best received from any source, magnificent workers and kept in condition under the most adverse circumstances."

The American horses, the report says, varied greatly, but the majority were excellent.

Over 200 applications for naturalization papers will be held before Judge McDougall at the opening of the General Sessions of the Peace at noon to-day.

## A Cause of Headache

One Very Common Cause, Generally Over-Looked.

Headache is a Common and Distressing Affliction and May Be Due to a Number of Causes.—The Principal Cause of Frontal Headache is Here Pointed Out.

Headache is a symptom, an indication, of derangement or disease in some organ, and the cause of the headache is difficult to locate because so many diseases have headache as a prominent symptom. Derangement of the stomach and liver, heart trouble, kidney disease, lung trouble, eye strain or sitting glasses, all produce headaches, and if we could always locate the organ which is at fault the cure of obstinate headaches would be a much simpler matter.

However, for that form of headache called frontal headache, pain back of the eyes and in forehead, the cause is now known to be catarrh of the head and throat; when the headache is located in back of head and neck it is often caused from catarrh of the stomach or liver.

At any rate, catarrh is the most common cause of such headaches, and the cure of the catarrh causes a prompt disappearance of the headache.

There is at present no treatment for catarrh so convenient and effective as Stuart's Catarrh Tablets, a new internal remedy in tablet form, composed of antiseptic like eucalyptol, guaiacol and blood root, which set upon the blood and cause the elimination of the catarrhal poison from the system through the natural channels.

Miss Cora Almy, a prominent school teacher in one of our normal schools, speaks of her experience with Stuart's Catarrh Tablets as a cure for them. She says, "I suffered daily from severe frontal headache and pain in and back of the eyes, at times so intense as to incapacitate me in my daily duties. I had suffered from catarrh, more or less, for years, but never thought it was the cause of my headache, but finally, because convinced that such was the case, because the headaches were always worse whenever I had a cold or fresh attack of catarrh."

Stuart's Catarrh Tablets were highly recommended to me as a safe and pleasant cure, and after using a few 30-cent boxes, which I procured from my druggist, I was surprised and delighted to find that both the catarrh and headaches had gone for good.

Stuart's Catarrh Tablets are sold by druggists at 50 cents per package, under the guarantee of the proprietors that they contain absolutely no cocaine (found in so many catarrh cures), no opium (so common in cheap cough cures), nor any harmful antiseptics necessary to destroy and drive from the system the germs of catarrhal disease.

## FANCIES FOR THE FAIR SEX

Spring Tide Finds The W. R. Brock Co. Prepared to Meet All Demands.

## WAREHOUSE CROWDED FOR OPENING

Milliners and Merchants Stocking Up for Spring Trade—Advance in Cottons Announced.

The season of spring openings is at hand and yesterday saw the annual opening of the establishment of the W. R. Brock Company, corner Bay and Wellington-streets. It was the most successful in the history of that enterprising firm, and an indication of the continued growth of one of the greatest commercial concerns in Canada.

To the left of the door, as the visitor enters the warehouse, is the cosy little reception room and bureau of information for the accommodation of ladies and visiting merchants. A profusion of flowers and palms adds to the pleasing appearance of this room. The floor was, perhaps, even more lively than the manager, W. R. Pentecost, is usually to be found. An excellent argument of misapprehension of the firm, who cover every province in the Dominion.

A stroll through the big warehouse is interesting. Taking the elevator to the top floor, one is set down in a dress goods department. Crepe de Chine, organdies, tulle, lace, muslins, twilled foulards, crepelettes, collanettes, chiffons, muslins and poplins, in all the newest designs, are displayed. Adjoining this department is the foreign entry room, where a score of clerks are busy packing and dispatching the great cases of goods to their various destinations. The fourth floor was, perhaps, even more lively yesterday. Here are displayed the small wares. It is the rendezvous of the milliners. Ribbons, laces, embroideries and all the many and varied necessities of the milliner are shown in profusion. Every shade and fashion of ribbon, novel, fancy and fantastic is on view, and, judging by the orders taken yesterday, the girls about town will look gay this year.

All the newest shapes in mantles and waterproof coats and all the novelties in fancy umbrellas are also kept to meet an enormous demand.

Below this floor is the woollen and house-furnishing department, where are kept the warm, sensible materials of more ordinary wear. Here the shirts, underwear, suitings, etc., are to be found, and the carpets of every kind, also the lace curtains, tapestries, draperies, art muslins and cretonnes, which are so valued by the housewife.

The floor beneath this is the print department, with all the latest novelties in pattern and design, which the markets of England, United States and Canada are clamoring for. Here are the mercerized pongees, zephyrs, ginghams, satens and other goods of that class which are so much in demand.

The array of luvelling to the finest buck, is immense. The tendency of tailors is drawn to the latest Geese-chart of Berlin, for the purpose of experimenting against the Marconi system.

Against Marconi's System.

Berlin, March 3.—The United States Navy Department has ordered a complete outfit for two stations of the wireless telegraph system of Slaby and Arco, from the Allgemeine Elektricitäts-Gesellschaft of Berlin, for the purpose of experimenting against the Marconi system.

WITHOUT ASTERISK places are absent in that condition. Clarke's Kidney Compound now restores the system to its normal condition, allowing the lungs to act naturally. Write the Dr. & M. Co., 111 Church St., Toronto, for particulars. They will consider it a favor to be able to help any sufferer.
