AND BURNED

Terrible Tragedy During Storm on Lake Winnipeg-Str. Premier Turns Turtle— Fate of Crew in Doubt.

WINNIPEG, Aug. 7 .- (Special.)-At least eight persons met a horrible death by burning on board the Dominion Fish Company's steamer Premier, some two hundred mile up Lake Winnipeg, early Thursday morning after the ves

Thursday morning after the vessel had been driven on to treacherous reefs near Warren's Landing turned turtle and caught fire.

In addition grave anxiety exists for the fate of the crew and other passengers. The known dead are:

Madame Couture of St. Isaurent, Man. Miss Copaz, school teacher, Winnipeg. W. W. Fryer, Jr., of Selkirk, son of a big local merchant.

a big local merchant.

W. Overton, Jr., son of manager of Dominion Fisheries Co., of Selkirk.

Palmer Jones, Jr., son of Captain Jones of Winnipeg, owner of company.

Cook and cook's mate, names un-

The disaster ocurred at the far end of the lake in trackless wilds and a couple of hundred miles from any telegraphic communication, the first news being brought to Selkirk late this evening by the fishing tug Wolverine, which passed some of the wreck on the way south from Norway House.

From scant information to hand, it appears that the Premier, which is a large fishing steamer, chartered to carry two hundred passengers, besides freight, was caught in the heavy gales of Wednesday last and after vainly battling all day and half the night was finally driven on to the reef where she turned turtle in shallow water, catching fire and cremating at least eight persons.

The ill-fated Premier was a sister ship to the Dominion Fish Company's vessel Princess, which was wrecked about the same tome last year on Stake Island, some half dozen person

tion, and its shores are strewn with the bones of vessels caught on its inhospi-table shores in gales which in summer tear up its shallow waters, no haven offering in all its length and breadth. After that tragedy, Commander Spain, held a government enquiry which re-sulted in censure being passed on the crew for deserting passengers.

No word is obtainable as to the Premiers' crew, but it is supposed they escaped and are marooned on the bleak

#### LAST UNDER LEMIEUX ACT UNLESS EXPERTS CAN ACT

Why the Railroaders Have No Confidence in the Findings of the Board.

The impression among railroad men, according to the press committee of the strikers, is that there will be no more arbitration under the Lemieux Act, if they can prevent it. In an interview with The World last night a

member of the committee said: "While we recognize that the principle of arbitration is right, we do not care to have technical points settled for us by men without the necessary knowledge of either the technical or the economical standpoints.

'What does a wholesale grocer know of railroading? "We have a grievance as great as the western men, too. They had evidence taken on their differences, but the board added a clause that we could have the benefits of the findings

they had made on western matters. "The unions are fighting for their very lives but we would not have dence before the board, but the deci-forced the issue while trade was only sions were apparently made with an recovering from the setback of last entire disregard of the evidence, mak-fall and winter, had not the com- ing the findings farcical and leaving pany, in its effort to smash the union, the contestants in the same position given notice of the abrogation of the as before the board was appointed. given notice of the abrogation of the move on our part as the filing of a notice of amendment, calling for a 30day halt until we could get things in working order. Had we not done that, the company would only have had the western men to fight and might have succeeded in crushing them alone.
"We want a nine-hour day and other things, but would not have pressed for

them had we not been forced into it by the company itself. 'Moreover," he continued, "the well, and realize that if our union is attacked. Whether we are beaten or any one union, but will be one that will make the company stop and con-

The foregoing are some of the outstanding defects which Auditors Barber and Vigeon state in their report to the board of control that they have discovered in the administration of the waterworks branch of the city treasurer's department.

Their recommendations are some of the outstanding defects which Auditors Barber and Vigeon state in their report to the board of control that they have discovered in the administration of the waterworks branch of the city treasurer's department.

Their recommendations are some of the outstanding defects which Auditors Barber and Vigeon state in their report to the board of control that they have discovered in the administration of the whole electrical interests of the country known as the Electrical Ring."

What has happened in Hamilton will, it is feared, be attempted in every other municipality of the group that is seeking to obtain the boon of cheap Niagara power. is seeking to obtain the boon of cheap Niagara power. Hamilton, with the organs of both political parties exerting every influence in favor of the local octopus, was, it is believed, chosen for the first attack as being the most vulnerable point. Next, the organization

are:

(1,) Tellers should balance their cash books before leaving their boxes.

(2.) Attendance register should be either enforced of discontinued.

(3.) The departmental work should be rearranged and simplified by discarding present books and using a new form of

the first attack as being the most vulnerable point. Next the onslaught will be made in places where the corporation influences are strongest, with the hope of detaching enough of the municipalities to break up the whole movement. Brantford seems the next place singled out for attack.

Hoodwinked in January.

That the campaign here was carried out with ability and finesse is just beginning to dawn upon the people. In electing Mayor Stewart and carrying the Hydro-Electric bylaws nearly the whole attention of the ratepayers was concentrated, and they believed (4.) Water rates should be payable a: the head office.

a: the head office.

The report was very briefly discussed by the board, only the portion dealing with water rates being taken up. Controller Spence advocated a reduction of the meter rate, and said that if the waste of water were checked, this could be done without increasing the flat rate. No decision was reached, however.

was concentrated, and they believed their success in this respect made the victory of cheap power sure. The council was largely lost sight of, and aldermen who had taken a prominent part in the movement to free Hamilton from the grant of the extension. The auditors said they had found routine book-keeping away behind, which was the "fault largely of the system in use, but arising also from lack of earnestness and energy on the part to attack and allowed to go down to defeat on minor issues and cries skil-

the officials."

The "under banking" evil scored, signifies the holding over by clerks of part one day's cash to "make up and declaration one day's cash to "make up and declaration of the second of the declaration of the second of the secon

machines are sometimes left with old additions on, which are carried forward to be done, the ratepayers are angry, and are taking steps already to see that the mistake is not repeated. Another sore touch is the action of another crowd who identified themselves One or two instances of this were "The reason may be valid, but if so,

it is simply another evidence of care-lessness and looseness in the handling of civic funds on the part of this with Hydro-Electric power, and then staff, the internal discipline of which deliberately turned around and sup-

we consider weak."

The auditors said their work in checking was hampered by the unmethodical manner of treating dates in various books, indeed, taken generally, the books (with the exception of the fight are not willing to credit the Cataract Co., powerful as it is, with carrying all those out single-handed. It is the belief that it had the those in the meter department) are untidy and frequently inaccurate in their
additions, pencil entries and corrections being frequent."

The auditors deduced from the finances of the waterworks that meter users, who have to pay 10.50 cents per ders for street lighting, the only tenders for the catalogue of the waterworks that meter users, who have to pay 10.50 cents per ders for street lighting, the only tenders for the catalogue of the waterworks that meter users. those in the meter department) are un-tidy and frequently inaccurate in their

BADEN-POWELL COMING. LONDON, Aug. 7.—Among the pass-engers of the Empress of Ireland are General Baden-Powell, the defender of

## Whitney or Gibson---Which is

The recent action of the aldermen of Hamilton and the threatened action of the City of Brantford makes it imperative to once more direct public attention to the power policy of the Whitney Government, and to the danger of its being weakened, even the possibility of its being de-

The opposition of the electric ring in Toronto and thruout Ontario is highly organized, is rich, has its secret friends in every direction, in some places even where they might not be suspected. and above all it is entrenched in legislation, the result of the long and arduous efforts of Hon. J. M. Gibson and the lawyers of the power ring. It is also entrenched in a highly organized and very smooth newspaper support-of newspapers that are willing to be "voices" and "organs" of the government if they can only cut the throat of the power policy. The most ardent newspaper defender, apologist of the government to-day is a paper which did two things: it fought the power policy and the municipalities tooth and nail and told Sir James Whitney and his government that they were in substance wreckers of innocent investors and that they had destroyed the credit of Ontario in England because of their power policy. The same paper has also taken the stand that the vote of the people given in the late election did not mean a mandate to carry out the power policy. it only meant that "honest government" on the old lines was all that was wanted!

The great danger to the Beck power policy, therefore, lies in this, that the power ring is organized while the public side is unorganized, and our contention to-day is that the Whitney Government must not even appear to be passive in the matter. They must undertake to carry their

policy thru, and to assist the municipalities. We wish to point out to Sir James what we think he already knows, that ever since Hon. J. M. Gibson was a member of the Ross Government, whether as provincial secretary, more pronouncedly when attorneygeneral, he deliberately, continuously and designedly introduced legislation that was hostile to public rights, to municipal rights, and in the interests of the power ring. It was he that created the power ring, and gave it all the legislation it acquired. He it was who tied up the province to the power companies in that notorious clause that the province should not engage in the production of electricity. He engineered thru Ottawa the great franchise that allows his Cataract company to be water fed for a nominal sum from the public property known as the Welland Canal. Not only did he get the first privilege, but he got the privilege strengthened. The Cataract Power Co. would collapse like a balloon if it were not for the fact that to-day it gets its water from the Welland Canal, which cost the people of this country millions and millions of money, and it is this enemy who, entrenched behind legislation and legal agreements, fortified by great concessions in connection with the public works of the country, is attacking the people of all Ontario and the public power policy in particular. Years ago The World was the one paper that described Col. emy. At that time the Liberal p him, but subsequent events have shown him to be the most mercenary man that ever was in this province in the matter of corporation privileges and the greatest enemy this province ever had of public rights. To-day he has his Cataract Power Co. and street car franchises capitalized at twenty-five or thirty millions of dollars, where the actual investment has not been above four millions, and his whole effort is to float this investment of three or four millions into twenty-five millions, and he proposes doing it if he can out of the public. Everything to himself and his corporations, which are altogether public creations, and which are altogether dependent on a public water supply! It was the legislation secured by Col. Gibson from time to time, steathily slipped into the law, which strengthens the power ring in this country, and the Premier, if he wishes to vindicate the Beck power policy, must offset the manipulations of Gibson and company, and the public must to-day have the assistance at every point of the government, and especially of the attorney-general of this province, to arrest the aggressions now being made under legislation that a government hostile to public rights gave some years ago. In other words, an apathetic policy of resistance by an existing government cannot meet an active policy of aggression based on the legislation of a former government.

The World believes that Sir James Whitney feels more than ever his responsibility to the people in the matter of this power policy, but The World is doing him an act of kindness in telling him that there are men in his government whose friendship to the power policy is questioned by the people. There are ministers who seem to act as if they were inspired by Mr. Wallace Nesbitt, a very able lawyer, and very much associated with the power interests; and Col. Hendrie has had the misfortune of having endorsed on two occasions the candidature of Mr. Scott as his colleague in the legislature from Hamilton, a candidate who was an outand-out hostile to public ownership, and the Beck power policy especially. A great many people thought that inasmuch as Col. Hendrie was a member of the power commission and of a government committed to public ownership in regard to power and a government whose main asset in the way of holding the support of the people was this power policy, it should have been his care to have had the Conservatives put up a candidate sympathetic with the policy. A direct and avowed enemy was put up twice and beaten twice. Mr. Hendrie, if earnest in support of the power policy, should have refused such a colleague. He tried to

Surely the Premier must see that the day has come to legislate forthwith that no municipal council can hereafter part with any public franchise until approved by a vote of the electors. The scandal of the Hamilton aldermen ignoring the twice expressed vote of the people for a contract with the public power commission must be cured and prevented hereofter. This was entirely manipulated by Hon. J. M. Gibson, once attorney-general of Ontario! He is trying to repeat the trick in Brantford! What does Col. Hendrie think of the Hamilton aldermen repudiating the public wish? What does he think of the Hamilton aldermen using the Hydro-Electric Power Commission's terms with Toronto as the basis of their own infamous agreement? In other words, Hamilton would have been forever sewed up to Gibson if it had not been for Beck and they use the work of Beck to make terms for themselves in the very agreement with Gibson that betrays the Beck policy! The people of Hamilton have not done this, but the aldermen have done it in spite of

Mr. Premier, the time has come for you to get off your coat, to re-examine your surroundings, to read the Riot Act, maybe, to meet Gibson

on his own ground! The public power policy will win out, but it must win out quick and win out impressively. And it will win out all the easier by joining immediate issue with its enemy.

What will Mr. Borden's fight for public ownership in the coming federal election amount to if Gibson bursts the Whitney power policy in Ontario? Well, that is just what the ex-attorney-general of Ontario is trying to do!

### MECHANICS HAVE STRUCK Not to Obtain New Conditions or

guments set forth.

In order to comply with the law, the men asked for the appointment of a board under the Lemieux Act to a schedules, and in the interests of the public the committee hopes for a speedy settlement, one they can honorably accept. board under the Lemieux Act to investigate the demands of the company. When the board was first appointed, considerable delay occurred in considering whether the Eastern Line questions should be considered by the board, and the decision being in favor of considering all questions, whether east or west, the company withdrew their representative from the board. Further delays occurred here, due to

cers as chairman of the board.

Findings Contrary to Evidence.
