

1842.

APRIL XXX DAYS.

Among the Puritans, this was the season of a solemn fast, to invoke the blessing of God upon the seed committed to the ground; and the custom is still observed by the good people of New England. Set out cabbage plants, sow Peas and Beans, Beets, Onions, Lettuce, Parsnips, &c. The thrifty Housewife now sees that the fragrant and Medicinal herbs are sown—such as Sage, Marjoram, Parsley, Balm, &c. This is the proper season for pruning and planting Fruit Trees and Bushes.
